Casino Management in Integrated Resorts Desmond Lam, 2019-06-25 Casino Management in Integrated Resorts introduces students to the changing nature of casino businesses within the framework of an integrated resort or hospitality organisation. In the new integrated casino model, casinos play an important role not only in revenue generation but in supporting the other amenities in the resort, including bars, restaurants, hotels and theme parks. This book brings readers up to speed with the challenges of managing a casino within this rapidly expanding gaming-leisure-tourism industry. It covers a range of essential topics, such as the basic psychology of casino gaming, the role and history of casinos within an integrated resort, staffing, floor design, table and slot game management, control and security, marketing and social impact. Written in an accessible style, this book is suitable for readers with no prior knowledge of, or experience in, casino operations. It will be an essential introductory yet comprehensive resource for all those undertaking casino management courses.

Chopsticks and Gambling Desmond Lam, 2017-07-28 The Chinese are known throughout the world as avid gamblers with a long history of participation in games of chance. Historians have documented wagering on such games as far back as the early Chinese dynasties. Despite measures by ancient Chinese rulers to contain gambling, it proliferated, and Chinese games have evolved and multiplied since then. Desmond Lam provides a unique look into the little-known world of Chinese gambling from historical, cultural, psychological, and social perspectives. Chinese gamblers regularly patronize casinos in the United States, Canada, and Australia. The recent expansion of gambling in East Asia has attracted much global media attention. Macau, the only place in China where casino gambling is now legal, easily surpasses Las Vegas as the world's largest casino gaming market. Each year, Chinese from mainland China, Hong Kong, and Taiwan account for almost 90 percent of visitors to Macau. The expansion of the Chinese gambling industry has brought about much harm to Chinese communities, despite all of the development it has also stimulated. This book is the first to examine the beliefs, motivations, attitudes, and behaviors of Chinese gamblers, and will be of interest to students of history and sociology, as well as those studying the history and culture of China.

Mahjong Annelise Heinz, 2021-04-05 How has a game brought together Americans and defined separate ethnic communities? This book tells the first history of mahjong and its meaning in American culture. Click-click-click. The sound of mahjong tiles connects American expatriates in Shanghai, Jazz Age white Americans, urban Chinese Americans in the 1930s, incarcerated Japanese Americans in wartime, Jewish American suburban mothers, and Air Force officers' wives in the postwar era. Mahjong: A Chinese Game and the Making of Modern American Culture illustrates how the spaces between tiles and the moments between games have fostered distinct social cultures in the United States. This mass-produced game crossed the Pacific, creating waves of popularity over the twentieth century. Annelise Heinz narrates the history of this game to show how it has created a variety of meanings, among them American modernity, Chinese American heritage, and Jewish American women's culture. As it traveled from China to the United States and caught on with Hollywood starlets, high society, middle-class housewives, and immigrants alike, mahjong became a quintessentially American game. Heinz also reveals the ways in which women leveraged a game to gain access to respectable leisure. The result was the forging of friendships that lasted decades and the creation of organizations that raised funds for the war effort and philanthropy. No other game has signified both belonging and standing apart in American culture. Drawing on photographs, advertising, popular media, and dozens of oral histories, Heinz's rich and colorful account offers the first history of the wildly popular game of mahjong.

Golden Goose Xu Liu, David Burnett, 2019-03-18 This book offers an intimate and personal look at what China's poverty alleviation has meant for individuals. The dramatic progress in reducing poverty in China over the past three decades is well known. According to the World Bank, more than 500 million people were lifted out of extreme poverty as China's poverty rate fell from 88 percent in 1981 to 6.5 percent in 2012. Behind this statistic are the millions of families in rural China who have moved from extreme poverty to a more comfortable way of life in modern China. This is the story of four generations of one such family. Grandma Zhen and her eight children have faced the hardship of war, the great famine of 1958-1960, the Cultural Revolution of 1967-1977 and Opening-up and Reform. They have had to adjust to a rapidly changing culture that has affected all aspects of their lives, including marriage, the one-child policy, and education. Through incredible endurance and hard work, they have not only survived, but thrived. This book will be of value to anthropologists, developmental economists, sinophiles, and more.

The Reflective Workbook for Partners of Transgender People D. M. Maynard, 2019-01-21 Partners of people in transition go through their own transitions and may or may not be conflicted as to whether they will remain in their relationship. This unique self-help workbook was created for and focuses on the partner's perspective and own journey. By providing the support and structure needed for partners to reflect, this resource helps navigate the unexpected transition that affects both of their lives. Providing an essential tool that is currently missing, this book gives guidance and advice specifically designed for this situation, alongside activities, quizzes, and personal anecdotes. By combining portions of the author's self-exploration-as the partner of someone who began to transition after 17 years of being in their relationship- with the experiences shared by those who attended her workshops, this workbook examines the challenges, uncertainties, and possible grieving some partners experience throughout the transition process. With space for responding to reflective questions, exercises and games, this workbook offers partners a safe haven to discover their own wants and needs and will be of interest to both couples and individual counselors.

Selective Guide to Chinese Literature 1900-1949, Volume 4 Drama Eberstein, 2023-07-24 The aim of the Selective

Guide is to facilitate the first stage of research for those interested in Chinese literature between 1900 and 1949. It provides the reader with basic information on more than 300 words by Chinese writers. The contributions are based on independent research of sinologists from numerous countries. The guide consists of four volumes, which deal with the novel, the short story, the poem, and the drama (the current volume) respectively. Each volume contains an introduction which surveys the development of the particular genre and its characteristics in the period covered. All entries contain bibliographical information, summary of content and appraisal of the work as well as references to secondary sources and translations.

A Grammar of Modern Baba Malay Nala H. Lee, 2022-02-07 This book documents modern Baba Malay, a critically endangered Austronesian-based contact language with a Sinitic substrate. Formed via intermarriage between Hokkien-speaking male traders and indigenous women in the Malay Peninsula, the language has less than 1,000 speakers in Singapore and less than 1,000 speakers in Malacca, Malaysia. This volume fills a gap for reference grammars of contact languages in general. Reference grammars written on contact languages are rare, and much rarer is a reference grammar written about a critically endangered Austronesian-based contact language. The reference grammar, which aims to be useful to linguists and general readers interested in Baba Malay, describes the language's sociohistorical background, its circumstances of endangerment, and provides information regarding the phonology, parts of speech, and syntax of Baba Malay as spoken in Singapore. A chapter that differentiates this variety from that spoken in Malacca is also included. The grammar demonstrates that the nature of Baba Malay is highly systematic, and not altogether simple, providing structural information for those who are interested in the typology of contact languages.

Old Shanghai and the Clash of Revolution X. L. Woo, 2013 Life in Shanghai played out against a backdrop of shifting political maneuvers until World War II burned off the patina that had made 'Old Shanghai' a world unto itself. In this personal history we follow one man through Japan's conquest of Shanghai in 1937 to the Chinese civil war and Communist takeover, Mao's desperate attempts to modernize a medieval country and Deng Xiaoping's opening the economy but not social freedoms. The protagonist sees burgeoning corruption and makes it to the United States to see for himself what the tales of freedom and democracy might offer.

Prodigal Son Stephen Ling, 2020-08-24 In this coming-of-age novel, David Chen Long, son of a wealthy Chinese family, studies English in college in the hope of working for an international company or in the diplomatic service overseas. His Chinese American professor, Professor Wang, introduces him to the excitement of American culture. His extracurricular activities distract him from his studies: "I wished I had paid more attention to my books and professors than to my endless pursuits of leisure and pleasure and sex. To Professor Wang, I am a playboy, a prodigal son, with questionable morality and wasteful spending on drinks, girls, sex, travels and hotels." He attempts to be a responsible adult, pursuing his ambitions to go abroad and satisfying the expectations of his caring family. "PRODIGAL SON is a fiction but reads like a real story. A must read!" - Dr. Henry You Li, University of Canterbury, New Zealand "An exciting first novel about a rich but decadent youth in modern China." - Dr. Alex Qi Song, Harvard University, USA

The Wind, the Flowers, the Bamboos Sally Lake-Dolejsi, 2021-10-07 Like the tiles in mahjong, friendship takes time and patience to create a beautiful combination. Every month, Mrs. Owl and her neighbors from the woodlands gather together to eat treats, laugh, and play mahjong. In autumn, as the days begin to cool, they use their monthly get together to celebrate a birthday. With winter comes snow. All the Woodlands are decorated for Christmas, and these friends still gather for mahjong. Spring arrives, melting the snow, and gardening begins. More change comes with the summer, but these friends stick together. Mrs. Owl and her neighbors from the woodlands spend the four seasons celebrating, supporting, and getting together in the spirit of connection. Every season brings a different "wind" of joy, happiness, solitude, sadness, and thanks—all the elements that make up this very special bond between six friends.

The Chinese Video Game Industry Feng Chen,Ken S. McAllister,Judd Ethan Ruggill,2024-02-03 □ The recent and dramatic development of China’s economy and international political muscle is especially pronounced in the country’s video game industry. Now the largest of its kind in the world by gross revenue, the Chinese video game industry impacts every player in the global game market and has begun to directly influence the nature of the video game medium itself. From its conceptualization of the player as a category and commodity, to its approach to the design, development, and marketing of products and services, the Chinese game industry is engaging in a complex, innovative, and fascinating reimagining of the video game as a cultural and industrial force. The purpose of The Chinese Video Game Industry is to help introduce and investigate this industrial and cultural powerhouse. The book’s contributors array the industry across its history, economics, organization, politics, and cultures, documenting its rise, exploring its operational, cultural, and aesthetic characteristics, and capturing its context vis-à-vis the global media landscape. In so doing, the contributors provide a robust resource for anyone interested in studying, building, or even simply appreciating games.
