**Mahjong** Annelise Heinz, 2021 Mahjong: A Chinese Game and the Making of Modern American Culture illustrates how the spaces between tiles and the moments between games have fostered distinct social cultures in the United States. This mass-produced game crossed the Pacific, creating waves of popularity over the twentieth century. Mahjong narrates the history of this game to show how it has created a variety of meanings, among them American modernity, Chinese American heritage, and Jewish American women's culture. As it travelled from China to the United States and caught on with Hollywood starlets, high society, middle-class housewives, and immigrants alike, mahjong became a quintessentially American pastime. This book also reveals the ways in which women leveraged a game for a variety of economic and cultural purposes, including entrepreneurship, self-expression, philanthropy, and ethnic community building. One result was the forging of friendships within mahjong groups that lasted decades. This study unfolds in two parts: the first half is focused on mahjong's history as related to consumerism, with a close examination of its economic and cultural origins. The second half of the book explores how mahjong interwove with the experiences of racial inclusion and exclusion in the evolving definition of what it means to be American. Mahjong players, promoters, entrepreneurs, and critics tell a broad story of American modernity. The apparent contradictions of the game - as both American and foreign, modern and supposedly ancient, domestic and disruptive of domesticity - reveal the tensions that lie at the heart of modern American culture--

### **The Music Child & the Mahjong Queen** Alfred A.

Yuson, 2017-11-22 An earlier manuscript titled *The Music Child* was shortlisted for the Man Asia Literary Prize in 2008. Alfred A. Yuson's previous novels are *Great Philippine Jungle*, *Energy Cafe* and *Voyeurs & Savages*. Again, this third novel explores the marvels skirting the boundaries of realism, or goes much farther beyond after establishing adequate suspension of disbelief. Genres are blurred in the crafting of long fiction that is both poetry and prophecy. This the author does with visionary whimsy. In this narrative, the central protagonist's wondrous voice is stilled time and again by the deaths of his loved ones. Bereft of song, the boy finally learns to speak, then learns to turn the words of others into music on paper. The processes of mimicry and extrapolation result in an extended poetic suite that invents legends as well as a mythical conflict involving the imperialism of languages. The music child's extraordinary talents are matched by those of the young mahjong queen who can't be beaten in the game since the angels of her youth speak through her fingers. Around them, foreign friends and relations representing former colonizers provide a framework of discovery, while themselves dancing to the historic chorus of destiny in the magical East. The music child and the mahjong queen endear themselves to one another through the palpable vocabulary of flowers.
