Henry J. Eyring

**Making Your Major Decision** Peterson's,2013-09-30 Choosing a college major is one of the most important decisions students ever make, yet there is often confusion about picking the right discipline. Studies show that nearly two-thirds of all college freshman have not chosen a major, and nearly 60 percent of undergraduates change their major at least once resulting in lost time, money and productivity. To minimize the uncertainty in selecting the right major, Peterson's has partnered with industry leader, CPP the makers of the Myers-Briggs Type Indicator. The MBTI was developed in the 1940s to make Carl Jung's theory of personality type understandable and useful in everyday life. This book will include access to a personality assessment to determine likes/dislikes and strengths/weaknesses to aid them in making sound decisions. The MBTI assessment, now priced at \$9.95, coupled with the descriptions of more than 800 college majors, including course requirements, related majors, and related careers, will provide students an invaluable resource for making The Major Decision.
