New Concepts for Business and Humanity Mia den Haan,2007-10-29 This book emphasizes that by the year 2009, the impact of climate change will be noticed by all and that a possible global crisis may developperhaps no later than 2025. It explains that since global warming is man-made, humanity has no choice but to adjust its lifestyle, reduce its ecological footprint, and also restore the ecology in order to avoid possible catastrophic climate change. Companies will have to play an important role in resolving this situation and may need to review their direction; if need be, companies may have to take the lead and act without the support of their respective governments. While organizations may in some cases already have taken a leading role, there is not yet sufficient action taking place to combat climate change. While the information in this book contains a brief overview of the possible events for the next twenty years, it also holds the key which is needed to change human consciousnessdirectly addressing the main aspects of human consciousness that are the cause of many planetary imbalances. The author decided to publish this material, which she received late 2004, because of a looming planetary crisis. Some of the timelines predicted in the book are now beginning to emerge. Many organizations can play a major role in making changes to support the environment and can in the endperhaps more so than governmentscreate the solution to an enormous global problem. Those in leading positions can be a step ahead. It may be in their interest to do soto be competitive as part of a new, ecologically more aware future. There is a trend in business whereby people are proactively looking for solutions; while there may be technical solutions available for some aspects of this emerging crisis, innovation is required to implement solutions back into the production process and into society. Within each person already resides a unique, very creative and innovative part that may be of assistance. Each person has access to this innovative part within which has answers and solutions to any situation in life. This innate part is often able to express itself in people with very good creative ability or people with a special gift and is available to everyone who wishes to find it. In this book an example is shown of how this creative and innovative part could become a resource for business. This part is sometimes called the true self, your authenticity, or your own innate uniqueness. For those who wish to explore this part, a method which is briefly outlined in this book, may be beneficial. This unique method, called exchange of awareness, utilizes the persons self through a process that may be of assistance. It includes an example of how to apply this method in personal relationships and in the workplace environment, such as when staff members are not in alignment with a companys general objectives. The true self or innate uniqueness knows what is required in any situation and may be of help by providing further insights. More care and

caring procedures are needed to be applied by humanity. The book provides examples of care (or lack thereof) in the context of both business and personal relationships. It shows where care is often lacking in a business process, such as sales. It includes some sample conceptual ideas about implementation of care. These care concepts, which are a major issue, are often absent in today's society and need to be implemented in any organizational structure, such as a business, hospital, or educational facility to improve functionality and outflow. Through implementation of care principles, there may be an improvement in the outflow of people and the structures they take part in with benefits for all of life and society at large.

The Dog's Last Walk Howard Jacobson, 2017-03-09 _____ '[An] acutely observed collection of occasional pieces that pick at absurdist life and reveal him to be a quiz, a cultural critic gifted with precise comic

timing' - The Times 'The author's prose is always a delight ... a book that manages the high-wire act of being genuinely funny while dispensing genuine wisdom' - Times Literary Supplement 'Jacobson is one of the great sentence-builders of our time. I feel I have to raise my game, even just to praise ... In short, he is one of the great guardians of language and culture - all of it. Long may he flourish' - Nicholas Lezard, Guardian

_____ Week after week, for eighteen years, the Booker Prize-winning novelist Howard Jacobson wrote a weekly column for the Independent, reflecting in inimitable style on the sacred and the profane in turn, the frivolous and the serious, the deeply personal and the most universal. The shame and humiliation inherent in death is explored with frank astuteness. Matisse, darts and the power of love are celebrated; while cyclists are very much censured. And meanwhile, a beloved old Labrador walks his last walk as life elsewhere hurtles on and away... The Dog's Last Walk is a collection of wisdom and iconoclasm for our uncertain times, and one that reveals one of our greatest writers in all his humanity. _____ 'Sharp and playful, surreal and thoughtful, and occasionally ... rather moving' - New Statesman 'Yes, Jacobson is an entertainer ... And he does indeed entertain, but in a way that stimulates rather than simply amuses' - Sunday Telegraph 'His columns were always one of the best things in [the Independent] – funny, argumentative, contrary and stuffed with ideas as well as a big, sympathetic personality' - Philip Hensher, Spectator

Children's Upbringing In Today's Modern Society (Parenting Now In Crisis) Fr. Greg. Udo Njoku CSSp, 2022-03-29 Writing has marked Fr. Greg Udo Njoku, CSSp's life from his infant classes. He always thrilled his schoolmates in the morning assembly with recitals of little sonnets, dirges, poems, and epic rhymes. For his secondary school, he attended the renowned Kings College in Lagos, Nigeria, a model school founded by British colonizers in 1909 and named after King's College in Oxford, London, comparable to Harvard University in America (see book 12). Father Greg's habit for writing is, for him, a therapeutic as well as a spiritual exercise. Writing or reading from his books solaces him greatly and feeds his whole being with joy, strength, peace, hope, and calmness that he is unable to grasp. In reading his writings, he becomes energized and recharged. Gifted with a powerful, creative imagination, much of Father Greg's writings go with divine inspirations. His book series serves as a panacea for diverse forms of addictions, ill dispositions that could land their victims in rehabs, juvenile justice courts, counseling centers, depression, violent behaviors, jail terms, suicide, and murder. As a hardy Catholic missionary priest for the past thirty-nine years, his writings have been strong references in his pastoral and educational tasks. Father Greg thanks God for the use he has made of his books wherever he has worked.

Is It Safe? Protecting Your Computer, Your Business, and Yourself Online Michael R. Miller, 2008-06-06 Is It Safe? PROTECTING YOUR COMPUTER, YOUR BUSINESS, AND YOURSELF ONLINE IDENTITY THEFT. DATA THEFT. INTERNET FRAUD. ONLINE SURVEILLANCE. EMAIL SCAMS. Hacks, attacks, and viruses. The Internet is a dangerous place. In years past, you could protect your computer from malicious activity by installing an antivirus program and activating a firewall utility. Unfortunately, that's no longer good enough; the Internet has become a much darker place, plagued not only by rogue software but also by dangerous criminals and shadowy government agencies. Is It Safe? addresses the new generation of security threat. It presents information about each type of threat and then discusses ways to minimize and recover from those threats. Is It Safe? differs from other security books by focusing more on the social aspects of online security than purely the technical aspects. Yes, this book still covers topics such as antivirus programs and spam blockers, but it recognizes that today's online security issues are more behavioral in nature--phishing schemes, email scams, and the like. Are you being scammed? Learn how to spot the newest and most insidious computer security threats--fraudulent retailers, eBay scammers, online con artists, and the like. Is your identity safe? Avoid being one of the nine million Americans each year who have their identities stolen. Today's real Internet threats aren't viruses and spam. Today's real threat are thieves who steal your identity, rack up thousands on your credit card, open businesses under your name, commit crimes, and forever damage your reputation! Is Big Brother watching? Get the scoop on online tracking and surveillance. We examine just who might be tracking your online activities and why. Is your employer watching you? How to tell when you're being monitored; and how to determine what is acceptable and what isn't. Michael Miller has written more than 80 nonfiction books over the past two decades. His best-selling books include Que's YouTube 4 You, Googlepedia: The Ultimate Google Resource, iPodpedia: The Ultimate iPod and iTunes Resource, and Absolute Beginner's Guide to Computer Basics. He has established a reputation for clearly explaining technical topics to nontechnical readers and for

offering useful real-world advice about complicated topics.
