Bull on the Beach Anna Nicholas,2019-05-30 Having settled in a Mallorcan mountain idyll, Anna Nicholas, her husband the Scotsman and their son Ollie want to become as self-sufficient as possible. Anna teams up with organic farmers and smallholders to learn how to tend sheep, make cheese and honey and grind flour while the Scotsman creates havoc with his friend Pep in an attempt at winemaking, and tries to fathom what's troubling the wriggly inhabitants of his beloved wormery. However, Anna can't quite shake off her old clients from the PR world, and is persuaded by Greedy George to create a media storm for his new Spanish leather store. The story of how a giant bull ends up on a Barcelona beach is enough to make her delighted to return to Mallorca, where talking to a toad and feeding porridge to her hens seems normal by comparison.

Island in the Sea: A Majorca Love Story Anita Hughes,2016-04-12 Juliet Lyman is a senior executive at Yesterday Records. Music is her passion and she's very good at her job. That's why her famously philanthropic boss Gideon sends her to Majorca, Spain to work with a very tortured, but talented client. Lionel Harding is one of the best song writers of the 20th century, the multi-Grammy award-winning lyricist of the third most recorded song in history. But now he's 42 and six months overdue on the his latest paid assignment. Juliet is not leaving Majorca without either new lyrics or a very large check. To Juliet, business comes first. Emotions are secondary, and love isn't even on the menu. But to Lionel, love is everything, and he blames Gideon for his broken heart. He's determined to show Juliet that nothing is more important than love, but Juliet is just as determined to get Lionel to create the music that made him famous. If she can sign up local talent, even better. Her new friend Gabriella has a voice like an angel, but she's not interested in fame. Her grandmother, Lydia, wants the world for Gabriella, and she wants Juliet's help to give it to her. As her professional and personal lives start to mix for the first time, Juliet is forced to reevaluate her priorities. Gideon hasn't been totally honest, and love may be the only thing that gives them all what they need. Island in the Sea is Anita Hughes' captivating sixth novel, filled with exotic descriptions of food, fashion, and romance.

Majorca, Paradise Not Lost Chuck Maisel,2005 For two unforgettable years, writer Chuck Maisel and aspiring painter Carroll Graham lived the dream of a lifetime. Living in a timeless village on the Mediterranean island of Majorca, the two friends discover that fantasy can truly become reality. Meet a captivating cast of characters that includes famous authors, painters, and a movie actress. But those most cherished are the island natives: Margarita, Toni, Pepe, Gaspar, Catalina, and others of the wise and delightful populace. Enjoy a beautiful world where serendipity is the norm and still excites seekers of adventure today to Majorca island. This delightful memoir is Chuck Maisel's best argument for the thoughtful and well-planned bliss-following that is necessary at some point in each of our lives-not to escape reality but to rediscover it with enthusiasm.- Greg Sarris, Author of Watermelon Nights and both the novel and the screenplay of Grand Avenue produced by Robert Redford

The Vacationers Emma Straub,2015-06-02 Delicious . . . richly riveting . . . The Vacationers offers all the delights of a fluffy, read-it-with-sunglasses-on-the-beach read, made substantial by the exceptional wit, insight, intelligence and talents of its author.”—People (four stars) An irresistible, deftly observed novel from the New York Times-bestselling author of All Adults Here and This Time Tomorrow— about the secrets, joys, and jealousies that rise to the surface over the course of an American family’s two-week stay in Mallorca. For the Posts, a two-week trip to the Balearic island of Mallorca with their extended family and friends is a celebration: Franny and Jim are observing their thirty-fifth wedding anniversary, and their daughter, Sylvia, has graduated from high school. The sunlit island, its mountains and beaches, its tapas and tennis courts, also promise an escape from the tensions simmering at home in Manhattan. But all does not go according to plan: over the course of the vacation, secrets come to light, old and new humiliations are experienced, childhood rivalries resurface, and ancient wounds are exacerbated. This is a story of the sides of ourselves that we choose to show and those we try to conceal, of the ways we tear each other down and build each other up again, and the bonds that ultimately hold us together. With wry humor and tremendous heart, Emma Straub delivers a richly satisfying story of a family in the midst of a maelstrom of change, emerging irrevocably altered yet whole.

Advances in Natural Hazards and Hydrological Risks: Meeting the Challenge Francisco Fernandes,Ana Malheiro,Helder I. Chaminé,2020-01-02 This book gathers the proceedings of the 2nd International Workshop on Natural Hazards (NATHAZ'19), held in Lajes do Pico, Pico Island, Azores in 2019. Natural hazards constitute the

threat of a naturally occurring event having a negative effect on human beings. These effects are often called natural disasters. Among the natural hazards and potential disasters to be considered are: earthquakes, volcanic eruptions, landslides, subsidence, floods, droughts and coastal erosion. In addition, there are anthropogenic hazards that occur as a result of human interactions with the environment. They include technological hazards, which occur due to exposure to hazardous substances in the environment. Grasping the behaviour of natural systems requires a comprehensive understanding of climatology, geology and hydrology data and dynamics. Thus, it is important to conduct hazard and risk assessment studies for meaningful hazard mitigation. Further, the book demonstrates that an accurate understanding of natural systems and interactions between engineering and natural resources is of vital significance to the entire socio-economic sector. This volume offers an overview of natural hazards in model regions in Europe, America, and Atlantic islands. Providing new insights on the characterisation, assessment, protection and modelling of geological hazards, water systems, urban areas and coastal zones, it represents a valuable resource for all researchers and practitioners in the fields of Geosciences, Hydrology, Water Resources, Natural Hazards, Environments and Engineering. Main topics include:1. Natural Hazards and Disasters2. Sustainable Water Systems and Climate Change3. Technological Hazards and Engineering Design

Endings in the Cinema Michael Walker,2020-03-13 This book offers a new way of thinking about film endings. Whereas existing works on the subject concentrate on narrative resolution, this book explores the way film endings blend together a complex of motifs, tropes and other elements to create the sense of an ending—that is, it looks at ‘endings as endings’. Drawing on a wide range of examples taken from films of different periods and national cinemas, the author identifies three key features which structure the work: thresholds and boundaries, water, and, above all, the beach. The beach combines water and a boundary and is the most resonant of the key sites to which film endings gravitate. Although beach endings go back to at least 1910, they have increased markedly in post-classical cinema, and can be found across all genres and in films from many different countries. As the leading example of the book’s argument, they illustrate both the aesthetic richness and the structural complexity of film endings.

Handbook of Research on the Impacts, Challenges, and Policy Responses to Overtourism Ribeiro de Almeida, Cláudia,Quintano, Alfred,Simancas, Moisés,Huete, Raquel,Breda, Zélia,2020-02-28 In recent years, the increasing number of tourists traveling to specific urban and resort destinations has caused challenges for the effective management of tourism in these areas, with a resulting negative impact on towns, cities, and host communities. Such issues have included placing undue pressure on infrastructure; destruction of the physical, economic, and socio-cultural environment; and affecting the quality of residents’ daily lives by impacting their mobility and, in some cases, the price and rent of resident accommodation, goods, and services. To achieve a certain level of balance between the interests of local residents and visitors, new regulatory measures and legislation in high tourism areas must be discussed. TheHandbook of Research on the Impacts, Challenges, and Policy Responses to Overtourism is a collection of innovative research on best practices and legislation solutions for the management of tourism destinations suffering from overtourism, tourismophobia, or antitourism movement issues. While highlighting topics including overcrowding, social displacement, and tourism management, this book is ideally designed for local government officials, policymakers, lawmakers, researchers, entrepreneurs, industry professionals, travel agencies, hotels, academicians, and students seeking current innovative empirical research on destination-management practices and application techniques.

The Ocean of Life Callum Roberts,2012-05-24 A Silent Spring for oceans, written by the Rachel Carson of the fish world (The New York Times) Who can forget the sense of wonder with which they discovered the creatures of the deep? In this vibrant hymn to the sea, Callum Roberts—one of the world’s foremost conservation biologists—leads readers on a fascinating tour of mankind’s relationship to the sea, from the earliest traces of water on earth to the oceans as we know them today. In the process, Roberts looks at how the taming of the oceans has shaped human civilization and affected marine life. We have always been fish eaters, from the dawn of civilization, but in the last twenty years we have transformed the oceans beyond recognition. Putting our exploitation of the seas into historical context, Roberts offers a devastating account of the impact of modern fishing techniques, pollution, and climate change, and reveals what it would take to steer the right course while there is still time. Like *Four Fish* and *The Omnivore’s Dilemma*, *The Ocean of Life* takes a long view to tell a story in which each one of us has a role to play.
