Pacific Futures Warwick Anderson, Miranda Johnson, Barbara Brookes, 2018-11-30 How, when, and why has the Pacific been a locus for imagining different futures by those living there as well as passing through? What does that tell us about the distinctiveness or otherwise of this “sea of islands”? Foregrounding the work of leading and emerging scholars of Oceania, *Pacific Futures* brings together a diverse set of approaches to, and examples of, how futures are being conceived in the region and have been imagined in the past. Individual chapters engage the various and sometimes contested futures yearned for, unrealized, and even lost or forgotten, that are particular to the Pacific as a region, ocean, island network, destination, and home. Contributors recuperate the futures hoped for and dreamed up by a vast array of islanders and outlanders—from Indigenous federalists to Lutheran improvers to Cantonese small business owners—making these histories of the future visible. In so doing, the collection intervenes in debates about globalization in the Pacific—and how the region is acted on by outside forces—and postcolonial debates that emphasize the agency and resistance of Pacific peoples in the context of centuries of colonial endeavor. With a view to the effects of the “slow violence” of climate change, the volume also challenges scholars to think about the conditions of possibility for future-thinking at all in the midst of a global crisis that promises cataclysmic effects for the region. *Pacific Futures* highlights futures conceived in the context of a modernity coproduced by diverse Pacific peoples, taking resistance to categorization as a starting point rather than a conclusion. With its hospitable approach to thinking about history making and future thinking, one that is open to a wide range of methodological, epistemological, and political interests and commitments, the volume will encourage the writing of new histories of the Pacific and new ways of talking about history in this field, the region, and beyond.

The Vanishing of Flight MH370 Richard Quest, 2016-03-08 CNN Aviation Correspondent Richard Quest offers a gripping and definitive account of the disappearance of Malaysian Airline Flight MH370 in March 2014. On March 8, 2014, Malaysian Airlines Flight MH370 disappeared with barely a trace, carrying 239 people on board—seemingly vanishing into the dark night. The airplane’s whereabouts and fate would quickly become one of the biggest aviation mysteries of our time... Richard Quest, CNN’s Aviation Correspondent, was one of the leading journalists covering the story. In a coincidence, Quest had interviewed one of the two pilots a few weeks before the disappearance. It is here that he begins his gripping account of those tense weeks in March, presenting a fascinating chronicle of an international search effort, which despite years of searching and tens of millions of dollars spent has failed to find the plane. Quest dissects what happened in the hours following the plane’s disappearance and chronicles the days and weeks of searching, which led to nothing but increasing despair. He takes apart the varying responses from authorities and the discrepancies in reports, the wide range of theories, the startling fact that the plane actually turned around and flew in the opposite direction, and what solutions the aviation industry must now implement to ensure it never happens again. What emerges is a riveting chronicle of a tragedy that continues to baffle everyone from aviation experts to satellite engineers to politicians—and which to this day worries the traveling public that it could happen again. Buffaloes over Singapore Brian Cull, Mark Haselden, Paul Sortehaug, 2014-01-09 This WWII history recounts how RAF pilots, outgunned by superior Japanese aircraft, nevertheless flew and fought their way to victory. In 1940, the Royal Air Force Purchasing Commission acquired more than 100 Brewster B-339 Buffalo fighter planes from the US. But when the aircraft were deemed below par for service in the UK, the vast majority were diverted for use in the Far East, where it was believed they would be superior to any Japanese aircraft encountered should hostilities break out there. This assessment was to prove tragically mistaken. When war erupted in the Pacific, the Japanese Air Forces proved vastly superior in nearly all aspects. Compounding their advantage was the fact that many of the Japanese fighter pilots were veterans of the war against China. By contrast, most of the young British, New Zealand, and Australian pilots who flew the Buffalo on operations in Malaya and in Singapore were little more than trainees. Yet these fledgling fighter pilots achieved much greater success than could have been anticipated. *Buffaloes Over Singapore* tells their story in vivid detail, complete with previously unpublished source material and wartime photographs.

Beneath Another Sky Norman Davies, 2017-12-07 'He writes history like nobody else. He thinks like nobody else ... He sees the world as a whole, with its limitless fund of stories' Bryan Appleyard, Sunday Times Where have the people in any particular place actually come from? What are the historical complexities in any particular place? This evocative historical journey around the world shows us. 'Human history is a tale not just of constant change but equally of perpetual locomotion', writes Norman Davies. Throughout the ages, men and women have endlessly sought the greener side of the hill. Their migrations, collisions, conquests and interactions have given rise to the spectacular profusion of cultures, races, languages and polities that now proliferates on every continent. This incessant restlessness inspired Davies's own. After decades of writing about European history, and like Tennyson's ageing Ulysses longing for one last adventure, he embarked upon an extended journey that took him right round the world to a score of hitherto unfamiliar countries. His aims were to test his powers of observation and to revel in the exotic, but equally to encounter history in a new way. *Beneath Another Sky* is partly a historian's travelogue, partly a highly engaging exploration of events and personalities that have fashioned today's world - and entirely sui generis. Davies's circumnavigation takes him to Baku, the Emirates, India, Malaysia, Mauritius, Tasmania, Tahiti, Texas, Madeira and many places in between. At every stop, he not only describes the current scene but also excavates the layers of accumulated experience that underpin the present. He tramps round ancient temples and weird museums, summarises the complexity of Indian castes, Austronesian languages and Pacific explorations, delves into the fate of indigenous peoples and of a missing Malaysian airliner, reflects on cultural conflict in Cornwall, uncovers the Nazi origins of Frankfurt airport and lectures on imperialism in a desert oasis. 'Everything has its history', he writes, 'including the history of finding one's way or of getting lost.' The personality of the author comes across strongly - wry, romantic, occasionally grumpy, but with an endless curiosity and appetite for knowledge. As always, Norman Davies watches the historical horizon as well as what is close at hand, and brilliantly complicates our view of the past.

The Hunt for KSM Terry McDermott, Josh Meyer, 2012-03-26 The definitive account of the decade-long pursuit and capture of Khalid Sheikh Mohammed, the terrorist mastermind of 9/11 Only minutes after United 175 plowed into the World Trade Center's South Tower, people in positions of power correctly suspected who was behind the assault: Osama bin Laden and Al Qaeda. But it would be 18 months after September 11 before

investigators would capture the actual mastermind of the attacks, the man behind bin Laden himself. That monster is the man who got his hands dirty while Osama fled; the man who was responsible for setting up Al Qaeda's global networks, who personally identified and trained its terrorists, and who personally flew bomb parts on commercial airlines to test their invisibility. That man withstood waterboarding and years of other intense interrogations, not only denying Osama's whereabouts but making a literal game of the proceedings, after leading his pursuers across the globe and back. That man is Khalid Sheikh Mohammed, and he is still, to this day, the most significant Al Qaeda terrorist in captivity. In *THE HUNT FOR KSM*, Terry McDermott and Josh Meyer go deep inside the US government's dogged but flawed pursuit of this elusive and dangerous man. One pair of agents chased him through countless false leads and narrow escapes for five years before 9/11. And now, drawing on a decade of investigative reporting and unprecedented access to hundreds of key sources, many of whom have never spoken publicly-as well as jihadis and members of KSM's family and support network-this is a heart-pounding trip inside the dangerous, classified world of counterterrorism and espionage.

Sojourners and Settlers Anthony Reid, 2001-04-01 Only recently has the role of Chinese minorities at the forefront of Southeast Asia's rapid economic growth attracted world attention. Yet interactions between Chinese and Southeast Asians are longstanding and intense, reaching back a thousand years and making it difficult, if not specious, to attempt to disentangle what is Chinese and what is indigenous in much of Southeast Asian culture. *Sojourners and Settlers*, now back in print, written by some of the most distinguished specialists in the field, demonstrates the depth of that relationship. Contributors: Leonard Blussé, Mary Somers Heidhues, Jamie C. Mackie, Anthony Reid, Craig Reynolds, Claudine Salmon, G. William Skinner, Wang Gungwu, O. W. Wolters.
