Ecocriticism in Malayalam G. Madhusoodanan,2022-02-06 The global trend in the scholarly field of ecocriticism (or, broadly, environmental humanities) is shifting towards localized sub-areas. This shift has been instrumental in canonizing local, subaltern, postcolonial, and unheard voices in ecocriticism. Such ecocriticism has gained relevant significance in the disciplines of humanities and social sciences, and boldly displays diverse ecocultural perspectives on communities, societies, languages and literatures—all of these being distinctly different from each other. Weaving a unique, ecocritical narrative from the rich literary and cultural texts belonging to Kerala, this volume presents several ecocritical perspectives, written by award-winning writers in Malayalam.
