OLD Malayalam Film Songs VED from VICTORIA INSTITUTIONS,2013-12-04 Old Malayalam film songs are wonderful. Most of them lend a most mesmerising sensation to the hearer. The style and tone has been set and led by Vayalar Ramavarma. Such others as P Bhaskaran, Sree Kumaran Thampi, and others have more or less tried to equal him in calibre. However, with the demise of Vayalar, there was no compelling standards or parameters to which film songs could remain loyal to. Standards deteriorated. There were attempts to cover the defects with loud music, and boisterous sounds. Now, what is so great about these songs? They convey a most elevated feel to the human psyche. In feudal Malayalam, everything has to remain in various social and mental levels. Starting from that of extreme lowliness to the heights of divine attainments. These songs generally lend a very ennobled aura to the human beings. There is the chakravartinis, salabanjigagas, rajashilpis, ajantha shilpams, anthapurams, agraharams, rathisukasares, mayalokams, manoharinis, anuraghapaurnamis and much else. Then there are the thenivarikkakaad, and such other exotic sounding places. However, the reality of Kerala life is much more mundane. It has no connection with the sweet dreamlike world depicted in the songs, which more or less make use of Sanskrit words and usages with gay abandon. The reality of communication in Kerala is rough, and tough, and possibly uncouth to those one does not respect or revere. Here everything comes with a string of respect versus pejorative codes connected to financial and social status; and also to age (currently).

Jewish Languages from A to Z Aaron D. Rubin,Lily Kahn,2020-09-13 *Jewish Languages from A to Z* provides an engaging and enjoyable overview of the rich variety of languages spoken and written by Jews over the past three thousand years. The book covers more than 50 different languages and language varieties. These include not only well-known Jewish languages like Hebrew, Yiddish, and Ladino, but also more exotic languages like Chinese, Esperanto, Malayalam, and Zulu, all of which have a fascinating Jewish story to be told. Each chapter presents the special features of the language variety in question, a discussion of the history of the associated Jewish community, and some examples of literature and other texts produced in it. The book thus takes readers on a stimulating voyage around the Jewish world, from ancient Babylonia to 21st-century New York, via such diverse locations as Tajikistan, South Africa, and the Caribbean. The chapters are accompanied by numerous full-colour photographs of the literary treasures produced by Jewish language-speaking communities, from ancient stone inscriptions to medieval illuminated manuscripts to contemporary novels and newspapers. This comprehensive survey of Jewish languages is designed to be accessible to all readers with an interest in languages or history, regardless of their background—no prior knowledge of linguistics or Jewish history is assumed.

Handbook of Jewish Languages ,2017-10-17 This handbook, the first of its kind, includes descriptions of the ancient and modern Jewish languages other than Hebrew, including historical and linguistic overviews, numerous text samples, and comprehensive bibliographies.

Nodes of Translation Martin Christof-Füchsle,Razak Khan,2024-01-29 The volume examines translation of key German texts into the modern Indian languages as well as translation from the vernacular languages of South Asia into German. Our key concerns are shifting historical contexts, concepts, and translation practices. Bringing an intellectual history dimension to translation studies, we explore the history of translation, translators, and sites of translation. The organization of the volume follows some key questions. Which texts were being translated? At what point or period in time did this happen? What were the motivations behind these translations? Topics covered range from thematic nodes or clusters, e.g., translations of Economics texts and ideas into Urdu, or the translation of Marx and Engels into Marathi, to personal endeavours, such as the first Hindi translation of Goethe's Faust done by Bholanath Sharma in 1939. Missionary as well as Marxist activist translation work from Malayalam, Tamil and Telugu is included too. On the other hand, German translations of Tagore and Gandhi setting in shortly after 1912 are also examined. Also discussed are political strategies of publication of translations from modern Indian languages guiding the output of publishing houses in the GDR after 1949. Further included are the translator's perspective and the contemporary translation and literary culture. What happens through the process of linguistic translation in the realm of cultural translation? What can a historical study of translation tell us about the history of Indo-German intellectual entanglements in the long twentieth century? The volume brings together multifaceted interdisciplinary research work from South Asian and German studies to answer some of these questions.

Mappila Muslim Culture Roland E. Miller, 2015-04-27 Thorough exploration of the distinct culture of the Mappila Muslims of Kerala, India. This book provides a comprehensive account of the distinct culture of the Mappila Muslims, a large community from the southern Indian state of Kerala. Although they were the first Muslim community in South Asia, the Mappilas are little-known in the West. Roland E. Miller explores the Mappilas' fourteen-century-long history of social adaptation and their current status as a successful example of Muslim interaction with modernity. Once feared, now admired, Kerala's Mappilas have produced an intellectual renaissance and renewed their ancient status as a model of social harmony. Miller provides an account of Mappila history and looks at the formation of Mappila culture, which has developed through the interaction of Islamic and Malayali influences. Descriptions of current day life cycles, religion, ritual, work life, education, and leadership are included. Roland E. Miller is Professor Emeritus of Islam and World Religions at Luther College, University of Regina, and Professor Emeritus at Luther Seminary, Minnesota. He is the author of *Muslims and the Gospel: Bridging the Gap: A Reflection on Christian Sharing* and *Mappila Muslims of Kerala: A Study in Islamic Trends*.

The Jews of India Orpa Slapak,1995 Jews of India, one of the lesser-known and perhaps most interesting of the Diaspora, comprise the three geographically and ethnographically distinct communities examined in The Israel Museum's unique and authoritative volume The Jews of India. The Bene Israel, the largest group at approximately 24,000 members, inhabited the Maharashtra State on India's western coast; its ties with mainstream Judaism were reestablished in the nineteenth century. The smallest and oldest of the Indian Jewish communities, the Jews of Cochin have been a presence on the Malabar Coast of southwestern India for at least a thousand years. They numbered about 2,500 in the mid-1950's, just prior to their immigration to Israel. The Baghdadi Jews migrated from Iraq and Syria to large commercial cities in western and eastern India in the late eighteenth century. Numbering about 5,000 at the population's peak, Baghdadi Jews were largely assimilated into British colonial society, did not develop a distinct material culture in India, and so are a relatively minor presence in this book. Esteemed editor Orpa Slapak spearheaded studies of all three Indian Jewish communities in Israel and in India, and has assembled a vivid and powerful portrait of these peoples. The text is profusely illustrated with striking color and black and white photographs of Indian Jews at home, work, prayer, and leisure, as well as a multitude of remarkable Indian Jewish artifacts, including illuminated manuscripts, lamps, clothing, jewelry, and household implements. Several maps, useful glossaries, and a selected bibliography complete the volume.
