Rosemary Stewart

Leading Apple With Steve Jobs Jay Elliot, 2012-08-23 A former Senior VP of Apple shares how Steve Jobs motivated people to do the best work of their lives Jay Elliot was hired personally by Steve Jobs, just in time to accompany him on the last of his historic visits to Xerox's Palo Alto Research Center, the visits that changed the course of computing. As Senior VP of Apple, Jay served as Steve's right-handman and troubleshooter, overseeing all corporate operations and business planning, as well as software development and HR. In *Leading Apple with Steve Jobs*, Jay details how Steve managed and motivated his people—and what every manager can learn from Jobs about motivating people to do the best work of their lives. Steve Jobs used the phrase Pirates! Not the Navy as a rallying cry—a metaphor to Think Different. In the days of developing the Macintosh, it became a four-word mission statement. It expresses the heart of Apple and Steve. The management principles that grew out of that statement form the backbone of this book. Explains how to find talented people who will understand your objectives and be able to make a contribution to that effort Lists traits that can determine whether a person will be so committed to the vision that they will provide their own motivation Explains how to ensure that your employees hold an allegiance to the captain and to his/her shipmates, and also possess the ability to come up with original, unique ways to approach a problem, and be self-guided with a strong sense of direction *Leading Apple with Steve Jobs* will shift your thought paradigm and inspire you to assemble and lead innovative teams.

Impossible Jobs in Public Management Erwin C. Hargrove, John C. Glidewell, 1990 If you think your job is hopelessly difficult, you may be right. Particularly if your job is public administration. Those who study or practice public management know full well the difficulties faced by administrators of complex bureaucratic systems. What they don't know is why some jobs in the public sector are harder than others and how good managers cope with those jobs. Drawing on leadership theory and social psychology, Erwin Hargrove and John Glidewell provide the first systematic analysis of the factors that determine the inherent difficulty of public management jobs and of the coping strategies employed by successful managers. To test their argument, Hargrove and Glidewell focus on those jobs fraught with extreme difficulties—impossible jobs. What differentiates impossible from possible jobs are (1) the publicly perceived legitimacy of the commissioner's clientele; (2) the intensity of the conflict among the agency's constituencies; (3) the public's confidence in the authority of the commissioner's profession; and (4) the strength of the agency's myth, or long-term, idealistic goal. Hargrove and Glidewell flesh out their analysis with six case studies that focus on the roles played by leaders of specific agencies. Each essay summarizes the institutional strengths and weaknesses, specifies what makes the job impossible, and then compares the skills and strategies that incumbents have employed in coping with such jobs. Readers will come away with a thorough understanding of the conflicting social, psychological, and political forces that act on commissioners in impossible jobs.

Ask a Manager Alison Green, 2018-05-01 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review) "The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."—Library Journal (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor."—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* "Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way."—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

The Prune Book John H. Trattner, 1993 Just in time for the November election, the 1996 edition of *The Prune Book* tells you all you need to know about more than 50 critical cabinet and subcabinet positions filled by presidential appointment.

Bullshit Jobs David Graeber, 2019-05-07 From bestselling writer David Graeber—"a master of opening up thought and stimulating debate" (Slate)—a powerful argument against the rise of meaningless, unfulfilling jobs...and their consequences. Does your job make a meaningful contribution to the world? In the spring of 2013, David Graeber asked this question in a playful, provocative essay titled "On the Phenomenon of Bullshit Jobs." It went viral. After one million online views in seventeen different

languages, people all over the world are still debating the answer. There are hordes of people—HR consultants, communication coordinators, telemarketing researchers, corporate lawyers—whose jobs are useless, and, tragically, they know it. These people are caught in bullshit jobs. Graeber explores one of society’s most vexing and deeply felt concerns, indicting among other villains a particular strain of finance capitalism that betrays ideals shared by thinkers ranging from Keynes to Lincoln. “Clever and charismatic” (The New Yorker), *Bullshit Jobs* gives individuals, corporations, and societies permission to undergo a shift in values, placing creative and caring work at the center of our culture. This book is for everyone who wants to turn their vocation back into an avocation and “a thought-provoking examination of our working lives” (Financial Times).

The Competent Manager Richard E. Boyatzis, 1991-01-16 Offers an empirical, “total” system approach that determines which characteristics of managers enable them to be effective in various management jobs. Presents a large-scale, intensive study (2,000 managers holding 41 different jobs in 12 organizations) that provides a context for identifying the special characteristics, as well as assessing and developing managerial talent. Develops a logical, integrated model of managerial competence that explains the relationship of these characteristics to each other, to the functions of the management job, and to the key aspects of the internal organizational environment. Also introduces a model of individual competence.
