Storytelling in the Digital World Anna De Fina,Sabina Perrino,2019-06-15 Storytelling in the Digital World explores new, emerging narrative practices as they are enacted on digital platforms such as Amazon, Facebook, Twitter, and YouTube. Contributors' online ethnographies investigate a wide range of themes including the nature of processes of transformation and recontextualization of offline events into digital narratives; the effects of digital anonymity and pseudonymity on narrative practices; the strategies through which virtual communities discursively work together to solidify and negotiate their sociocultural identities; the tensions between the affordances that characterize different online media and the communicative needs of users; the structures and modes in which virtual users construct and enact participatory practices in these environments; and the significance of different spatiotemporal dimensions in the encoding, sharing and appreciation of stories. More generally, the volume engages with some of the theoretical and methodological challenges that the growing presence of digital

technologies and media poses to narrative analysis. Originally published as special issue of Narrative Inquiry 27:2 (2017)

*The Train of Ice and Fire* Ramón Chao, 2009 A story of a train full of artists, acrobats, and musicians traveling through Colombia in the nineties.

**Clandestino** Peter Culshaw, 2013-05-09 A decade ago, Manu Chao's band, Mano Negra, toured Colombia by train, negotiating with government troops and rebels - an episode described at the time as 'less like a rock'n'roll tour - more like Napoleon's retreat from Moscow'. That's Manu in a nutshell. He does everything differently. He is a multi-million selling artist who prefers sleeping on friends' floors to five-star hotels, an anti-globalisation activist who hangs out with prostitute-activists in Madrid and Zapatista leader Comandante Marcos in Chiapas, a recluse who is at home singing in front of 100,000 people in stadiums in Latin America or festivals in Europe. Clandestino has been five years in the writing, as Peter Culshaw followed Manu around the world, invited at a moment's notice to head to the Sahara, or Brazil, or to Buenos Aires, where Manu was making a record with mental asylum inmates.

The result is one of the most fascinating music biographies we're ever likely to read.

**Memory in a Global Age** A. Assmann, S. Conrad, 2010-07-21 A significant contribution to memory studies and part of an emergent strand of work on global memory. This book offers important insights on topics relating to memory, globalization, international politics, international relations, Holocaust studies and media and communication studies.

**Afropolis** Rautenstrauch-Joest-Museum, 2012 Metropolises often evoke images of flashy high-rise buildings, permanent background noise, backed-up cars and people moving quickly in all directions in their masses. New York, Tokyo, London, Sao Paulo. But what about Cairo?

**Latina Magazine**, 2007

**Living Politics, Making Music** Jan Fairley, edited by Simon Frith, Ian Christie, 2016-05-13 The late Jan Fairley (1949-2012) was a key figure in making world music a significant topic for popular music studies and an influential contributor to such world music magazines as fRoots and Songlines. This book celebrates her contribution to popular music scholarship by gathering her most important work

together in a single place. The result is a richly informed and entertaining volume that will be of interest to all scholars in the field while also serving as an excellent introduction for students interested in popular music as a global phenomenon. Fairley's work was focused on the problems and possibilities of cross-cultural musical influences, fantasies and flows and on the importance of performing circuits and networks. Her interest in the details of music-making and in the lives of music-makers means that this collection is also an original and illuminating study of music and politics. In drawing on Jan Fairley's journalism, this volume also offers students a guide to various genres of world music, from Cuban son to flamenco, as well as an insight into the lives of such world music stars as Mercedes Sosa and Silvio Rodríguez. This is inspiring as well as essential reading.

**African Immigrants in Contemporary Spanish Texts Debra Faszter-McMahon, Victoria L.**

Ketz, 2016-03-09 Around the turn of 21st Century, Spain welcomed more than six million foreigners, many of them from various parts of the African continent. How African immigrants represent themselves and are represented in contemporary Spanish texts is the subject of this interdisciplinary

collection. Analyzing blogs, films, translations, and literary works by contemporary authors including Donato Ndongo (Equatorial Guinea), Abderrahman El Fathi (Morocco), Chus Gutiérrez (Spain), Juan Bonilla (Spain), and Bahia Mahmud Awah (Western Sahara), the contributors interrogate how Spanish cultural texts represent, idealize, or sympathize with the plight of immigrants, as well as the ways in which immigrants themselves represent Spain and Spanish culture. At the same time, these works shed light on issues related to Spain's racial, ethnic, and sexual boundaries; the appeal of images of Africa in the contemporary marketplace; and the role of Spain's economic crisis in shaping attitudes towards immigration. Taken together, the essays are a convincing reminder that cultural texts provide a mirror into the perceptions of a society during times of change.

*World Music and the Black Atlantic* Aleysia K. Whitmore,2020 In the mid-20th century, African musicians took up Cuban music as their own and claimed it as a marker of black Atlantic connections and of cosmopolitanism untethered from European colonial relations. Today, Cuban/African bands popular in Africa in the 1960s and '70s have moved into the world music scene in Europe and North America, and world music producers and musicians have created new West African-Latin American

collaborations expressly for this market niche. *World Music and the Black Atlantic* follows two of these bands, Orchestra Baobab and AfroCubism, and the industry and audiences that surround them—from musicians' homes in West Africa, to performances in Europe and North America, to record label offices in London. *World Music and the Black Atlantic* examines the intensely transnational experiences of musicians, industry personnel, and audiences as they collaboratively produce, circulate, and consume music in a specific post-colonial era of globalization. Musicians, industry personnel, and audiences work with and push against one another as they engage in personal collaborations imbued with histories of global travel and trade. They move between and combine Cuban and Malian melodies, Norwegian and Senegalese markets, and histories of slavery and independence as they work together to create international commodities. Understanding the unstable and dynamic ways these peoples, musics, markets, and histories intersect elucidates how world music actors assert their places within, and produce knowledge about, global markets, colonial histories, and the black Atlantic. *World Music and the Black Atlantic* offers a nuanced view of a global industry that is informed and deeply marked

by diverse transnational perspectives and histories of transatlantic exchange.

*Batanga* ,2006

**Rock en Español** Ernesto Lechner,2006 Looks at the careers and musical contributions of alternative rock musicians who are writing and recording songs in Spanish.

**Seeds of Change** Jen Cullerton Johnson,2010 As a young girl in Kenya, Wangari was taught to respect nature. She grew up loving the land, plants, and animals that surrounded her--from the giant mugumo trees her people, the Kikuyu, revered to the tiny tadpoles that swam in the river. Although most Kenyan girls were not educated, Wangari, curious and hardworking, was allowed to go to school. There, her mind sprouted like a seed. She excelled at science and went on to study in the United States. After returning home, Wangari blazed a trail across Kenya, using her knowledge and compassion to promote the rights of her countrywomen and to help save the land, one tree at a time.

The Firsts Xabi Molia,2023-06-13 The ugly side of superheroes What if you suddenly had superpowers? What would you do? How would your friends and family react? What would your obligations to society be? The superheroes' first missions— combating terrorists or rescuing disaster victims— are a boon to France. Yet while these actions bring the country pride, unity quickly starts to unravel. These superheroes, ultimately, are human. Paparazzi are everywhere. One has an affair with another's wife. Another questions following the government's imperialist agenda. Meanwhile the public carps on social media. Molia takes our fascination with superheroes and adds a cutting portrayal of

contemporary social mores to create an entertaining and disturbing work with deep dystopian underpinnings.

**Barcelona** Michael Eaude, 2008 Barcelona has become one of Europe's most fashionable tourist destinations. Its attractions combine new and old - the extravagant architecture of Gaudi alongside the city's medieval core. In this book, Michael Eaude explains how and why it has tempted so many, and inspired so much great art and literature.
