Seeing Through Maps Ward L. Kaiser, Denis Wood, 2001 Synopsis: Maps become a means of seeing the world from many perspectives in this appealing guide, which is aimed at training readers to look at images with a critical eye. The authors (a social scientist and a pastor/community organizer) challenge readers to stretch their intellectual boundaries while they wrap their minds around demonstrations of the many ways of making maps and the truth that no way is the right one. A final chapter provides a guide to using map projections in human resource development and adult education. It's a smart book but not a beautiful one—many of the illustrations went muddy in the transfer from color to b&w, and seven unlovely pages of the publisher's advertising precede the index. Wide format: 11x8.5.

Connecticut: Mapping the Nutmeg State through History Vincent Virga, Diana Ross McCain, 2010-11-23 These books, produced from the archives of the Library of Congress and edited by Vincent Virga, offer a glimpse into the history of the United States through rare historical full-color maps, narrative captions, and short essays. Combining 50 rare, beautiful, and diverse maps of the Nutmeg State from the collections of the Library of Congress, a foreword by Vincent Virga about the Library of Congress collection and the Connecticut maps, informative captions about the origins and contents of those maps, and essays on state history, this book is a collectible for cartography buffs and a celebration of Connecticut for residents, former residents, and visitors.

**The Mississippi River in Maps & Views** Robert A. Holland, 2008 In *The Mississippi River in Maps & Views* more than eighty glorious full-color maps dating from as early as 1544 celebrate Ol' Man River, this profound artery at the heart of America, and the extraordinary cities that grew up on its shores, including New Orleans, Memphis, St. Louis, and Minneapolis–St. Paul. Beautifully drawn maps document Fernando de Soto's explorations and discovery of the river, as well as those of the Marquett and Joliet Expeditions. Other maps present key moments along the Mississippi in times of war (The French and Indian War, The War of 1812, The Civil War). More recent though equally artful maps and charts seek a scientific understanding of the river toward an end of controlling it, and gorgeous bird's-eye views ultimately extol the river's beauty and its environs above all else. A consideration of the Mississippi and its history as a major highway toward America's discovery of itself, through a comprehensive selection of the most beautiful maps dealing with it, will give new insight to the complex—sometimes nostalgic, sometimes practical—relationship of this country to its most storied river.

**After the Map** William Rankin, 2016-07-01 For most of the twentieth century, maps were indispensable. They were how governments understood, managed, and defended their territory, and during the two world wars they were produced by the hundreds of millions. Cartographers and journalists predicted the dawning of a “map-minded age,” where increasingly state-of-the-art maps would become everyday tools. By the century’s end, however, there had been a decisive shift in mapping practices, as the dominant methods of land surveying and print publication were increasingly displaced by electronic navigation systems. In *After the Map*, William Rankin argues that although this shift did not render traditional maps obsolete, it did radically change our experience of geographic knowledge, from the God’s-eye view of the map to the embedded subjectivity of GPS. Likewise, older concerns with geographic truth and objectivity have been upstaged by a new emphasis on simplicity, reliability, and convenience. *After the Map* shows how this change in geographic perspective is ultimately a transformation of the nature of territory, both social and political.

**Historic Maps and Views of The Old South** Granger Collection, 2012-09-25 *Historic Maps and Views of the Old South* is the newest edition to Black Dog’s Maps and Views series, and celebrates the history and beauty of some of America’s most beloved cities with 24 removable, frameable maps and images that are perfect for the home, classroom, office or dorm. Dating from the 1800s through the present and ready for framing in a custom format or in a standard 11? x 14? frame, the stunning and fascinating images from The Granger Collection showcase the beauty and history of the Old South, including midnight paddleboat races on the Mississippi, moss-covered oaks framing the Magnolia Cemetery in Charleston, a horse and carriage meandering on Bay Shell Road in Mobile, turn of the century Mardi Gras in New Orleans, and the gorgeous fountain in Forsyth Park, Savannah. Each image’s original printing information is provided, as well as additional information that places it in historic context and further illuminates its qualities. Each image is exquisitely reproduced to show off its color and detail. The perfect gift for lovers of travel, history, or art.
