Airline Maps Mark Ovenden,Maxwell Roberts,2019-10-29 A nostalgic and celebratory look back at one hundred years of passenger flight, featuring full-color reproductions of route maps and posters from the world's most iconic airlines, from the author of bestselling cult classic Transit Maps of the World. In this gorgeously illustrated collection of airline route maps, Mark Ovenden and Maxwell Roberts look to the skies and transport readers to another time. Hundreds of images span a century of passenger flight, from the rudimentary trajectory of routes to the most intricately detailed birds-eye views of the land to be flown over. Advertisements for the first scheduled commercial passenger flights featured only a few destinations, with stunning views of the countryside and graphics of biplanes. As aviation took off, speed and mileage were trumpeted on bold posters featuring busy routes. Major airlines produced highly stylized illustrations of their global presence, establishing now-classic brands. With trendy and forward-looking designs, cartographers celebrated the coming together of different cultures and made the earth look ever smaller. Eventually, fleets got bigger and routes multiplied, and graphic designers have found creative new ways to display huge amounts of information. Airline hubs bring their own cultural mark and advertise their plentiful destination options. Innovative maps depict our busy world with webs of overlapping routes and networks of low-cost city-to-city hopping. But though flying has become more commonplace, Ovenden and Roberts remind us that early air travel was a glamorous affair for good reason. Airline Maps is a celebration of graphic design, cartographic skills and clever marketing, and a visual feast that reminds us to enjoy the journey as much as the destination.

Public Policy in an Uncertain World Charles F. Manski,2013-02-14 Manski argues that public policy is based on untrustworthy analysis. Failing to account for uncertainty in an uncertain world, policy analysis routinely misleads policy makers with expressions of certitude. Manski critiques the status quo and offers an innovation to improve both how policy research is conducted and how it is used by policy makers.

The Origins of Louth: Archaeology and History in East Lincolnshire, 400,000 BC–AD 1086 Caitlin Green,2014-07-05 The Origins of Louth offers a new and detailed look at the early history and evolution of Louth and its surrounding villages, based on the latest historical and archaeological research. It begins with the first human inhabitants of this region, who lived 400,000 years ago on the Wolds, and it ends around the time of Domesday Book, when Louth had developed into a true town and the whole region had begun to take on a recognizable form. It examines questions such as who were the first human inhabitants of the Louth region? When and how did people first begin to permanently settle in this region? And how did Louth develop into a significant local settlement and eventually a town? A full gazetteer of all archaeological finds made within 10 kilometres of Louth, from Fulstow to Tathwell and Donington to Manby, is provided as an appendix.

Airline Visual Identity, 1945-1975 Matthias C. Hühne, 2016-09 Collector's Limited Edition A super stylish journey: The ultimate sourcebook for the best airline graphic design presented in a handcrafted, aluminum covered clamshell case. Arguably no other book has been produced with such technical sophistication in recent years and few design books have received such an overwhelming worldwide media resonance. *Airline Visual Identity 1945-1975* rounds up the most imaginative, influential and surprising designs of the airlines' commercial art from the golden age of flying. It provides an unprecedented, systematic outline of the development of the visual identities of thirteen pioneering airlines, combining innovative research and stunning, museum-like presentations of hundreds of spectacular aviation posters, photos and other illustrations. Conceived by some of the world's top creative minds, such as Ivan Chermayeff, Otl Aicher, Massimo Vignelli, Academy Award winner Saul Bass, or advertising titan Mary Wells Lawrence, the designs found in the book's case studies also illustrate the shift from traditional methods of corporate design and advertising to comprehensive modern branding programs which took place in the same period. To reproduce all of the images as precisely as possible, a total of seventeen different colors, five different varnishes, and two different methods of foil printing and embossing were used. The result is a book of exceptional vivacity that pushes the limits of modern art printing technology. The Premium Edition has received glowing reviews in leading media around the world, including *The New York Times*, *Newsweek*, *CNN*, *New Republic*, *Slate*, *Adweek*, and dozens of others in the United States, France, Britain, Germany, China, Japan, Switzerland, Austria, Australia, Spain, Italy, Norway, etc. Created by internationally recognized art book publisher Callisto and designed by distinguished Berlin-based designer Yvonne Quirnbach, *Airline Visual Identity 1945-1975* was produced in a renowned printing facility in northern Italy on deluxe 200g Fedrigoni paper. The clamshell case, also designed by Yvonne Quirnbach and limited to an edition of 999, was handcrafted in Berlin, Germany and features a metal cover similar in appearance to the aluminum alloy used to manufacture jet aircraft in the 1960s.

Most are too busy to notice it, and it is stronger in some than others. It is strongest in those of us who fly and is responsible for an unconscious, subtle desire to slip into some wings and try for the elusive boundaries of our origin.”
