Learning Marathi Through English Kalyan Kale, 2014 This book is specially designed as a course book for the non-Marathi speaking adult learners of Marathi language. This course has been tried out by the authors themselves. They have taught it in various Marathi-language teaching programmes to learners from different disciplines and occupations. All the lessons in it are situation oriented and it serves the purpose of providing cultural set-up of Marathi language. All of them are organized according to the gradation of the structural units given at the beginning of every lesson. These lessons are followed by grammatical notes. The grammatical notes, if followed in sequence will depict the structure of the pedagogical grammar of current Marathi. Every lesson is equipped with various drills and exercises for the practice and for guessing the purpose of the learners. At the end of every lesson a special conversational paragraph is added for giving the feel of free usage of Marathi. An important and unique feature of this book is the special script book added to it in the beginning. It contains eighteen chapters for script teaching. Here-in the letters are graphed according to the principle of shape similarity. The author have taken pains to demonstrate all the possible strokes, their sequences and the direction of writing them. The four appendixes given at the end are quite useful. The vocabulary and the solution of all the exercises especially will be useful learning aids for the self learners as well.

Language Hacking Spanish Benny Lewis,2017-03-28 It's true that some people spend years studying Spanish before they finally get around to speaking the language. But here's a better idea. Skip the years of study and jump right to the speaking part. Sound crazy? No, it's language hacking. Unlike most traditional language courses that try to teach you the rules of Spanish, #LanguageHacking shows you how to learn and speak Italian through proven memory techniques, unconventional shortcuts and conversation strategies perfected by one of the world's greatest language learners, Benny Lewis, aka the Irish Polyglot. Using the language hacks -shortcuts that make learning simple - that Benny mastered while learning his 11 languages and his 'speak from the start' method, you will crack the language code and exponentially increase your language abilities so that you can get fluent faster. It's not magic. It's not a language gene. It's not something only other people can do. It's about being smart with how you learn, learning what's indispensable, skipping what's not, and using what you've learned to have real conversations in Spanish from day one. The Method #LanguageHacking takes a modern approach to language learning, blending the power of online social collaboration with traditional methods. It focuses on the conversations that learners need to master right away, rather than presenting language in order of difficulty like most courses. This means that you can have conversations immediately, not after years of study. Each of the 10 units culminates with a speaking 'mission' that prepares you to use the language you've learned to talk about yourself. Through the language hacker online learner community, you can share your personalized speaking 'missions' with other learners - getting and giving feedback and extending your learning beyond the pages of the book . You don't need to go abroad to learn a language any more.

Fluent in 3 Months Benny Lewis,2014-03-11 Benny Lewis, who speaks over ten languages—all self-taught—runs the largest language-learning blog in the world, Fluent In 3 Months. Lewis is a full-time language hacker, someone who devotes all of his time to finding better, faster, and more efficient ways to learn languages. Fluent in 3 Months: How Anyone at Any Age Can Learn to Speak Any Language from Anywhere in the World is a new blueprint for fast language learning. Lewis argues that you don't need a great memory or the language gene to learn a language quickly, and debunks a number of long-held beliefs, such as adults not being as good of language learners as children.
