Level Zero Heroes Michael Golembesky, John R.

Bruning, 2014-09-02 A New York Times Best seller! In *Level Zero Heroes*, Michael Golembesky follows the members of U.S. Marine Special Operations Team 8222 on their assignment to the remote and isolated Taliban stronghold known as Bala Murghab as they conduct special operations in an effort to break the Taliban's grip on the Valley. What started out as a routine mission changed when two 82nd Airborne Paratroopers tragically drowned in the Bala Murghab River while trying to retrieve vital supplies from an air drop that had gone terribly wrong. In this one moment, the focus and purpose of the friendly forces at Forward Operating Base Todd, where Team 8222 was assigned, was forever altered as a massive clearing operation was initiated to break the Taliban's stranglehold on the valley and recover the bodies. From close-quarters firefights in Afghan villages to capturing key-terrain from the Taliban in the unforgiving Afghan winter, this intense and personal story depicts the brave actions and

sacrifices of MSOT 8222. Readers will understand the hopelessness of being pinned down under a hail of enemy gunfire and the quake of the earth as a 2000 lb. guided bomb levels a fortified Taliban fighting position. A powerful and moving story of Marine Operators doing what they do best, Level Zero Heroes brings to life the mission of these selected few that fought side-by-side in Afghanistan, in a narrative as action-packed and emotional as anything to emerge from the Special Operations community contribution to the Afghan War.

The Social Media Handbook Jeremy Hunsinger, Theresa M. Senft, 2013-10-30 The Social Media Handbook explores how social media are changing disciplinary understandings of the internet and our everyday lives. In addition to person-to-person social

networking services like Facebook and Twitter, this volume considers a broad range of networked information services that support in-depth social interaction, community formation, and collaboration in the Web 2.0 era. Rather than considering social media in terms of specific technologies, the chapters in this book engage topics across a range of research, techniques, practices, culture and society, and theories. These broader topics—including community, gender, fandom, disability, and journalism—are entryways through which students and faculty can explore ways of thinking about social media and find new paradigms for analysis. Manuals Combined: U.S. Marine Corps Special Operations Command MARSOC Prep Guides, Training Guides And Example Gear Lists , Well over 500 total pages ... Today's dynamic and persistent operating environment has placed unprecedented demands on our military personnel. At no other time have the potential threats been more varied, requiring individuals who are highly intelligent, agile, ethical, tenacious, and physically fit to succeed in any climate or terrain. The Marine Corps Forces Special Operations Command (MARSOC) is preparing professional combat athletes who are ready to execute missions in the largely unstructured battlefields of today and the future. MARSOC's Performance and Resiliency (PERRES) ideology is integral to that preparation. By focusing on mind, body, and spirit, PERRES ensures that Marines not only are physically strong but also possess the mental focus and unconquerable spirit necessary to persevere under the extreme stress of a high operational tempo and through the unknowns of asymmetric warfare. PERRES trains with renewal in mind, focusing on the resilience of the individual, unit, and family. PERRES is unique in integrating high-level athletic training and nutrition with a focus on warrior values, including dedication to family, country, unit, and mission. This approach ensures that Marines are not only ready for combat missions, but also are resilient for life. We Were One Patrick K. O'Donnell, 2007-10-30 A riveting first-hand account of the fierce battle for Fallujah during the Iraq War and the Marines who fought there--a story of brotherhood and sacrifice in a platoon of heroes Five months after being deployed to Iraq, Lima Company's 1st Platoon, 3rd Battalion, 1st Marine Regiment, found itself in Fallujah, embroiled in some of the most intense house-to-house, hand-to-hand urban combat since World War II. In the city's bloody streets, they came face-to-face with the enemy-radical insurgents high on adrenaline, fighting to a martyr's death, and suicide bombers approaching

from every corner. Award-winning author and historian Patrick O'Donnell stood shoulder to shoulder with this modern band of brothers as they marched and fought through the streets of Fallujah, and he stayed with them as the casualties mounted.

Sex Scandal Ashley McGuire, 2017-02-13 Men and women used to cheer: vive la différence! But now, contrary to all science and common sense, we're supposed to believe that there is no difference. (And if you insist there is, you just might be accused of a hate crime!) Our culture—and our laws—are endorsing a worldview rooted in craziness. For instance, we're told that:

- Boys who think they're girls (and who could change their minds tomorrow) should be allowed to participate in girls' sports—and shower in their locker rooms
- Expectant mothers are now "birthing individuals"
- Coed college dorm rooms and bathrooms are great, but single-sex clubs are a campus danger
- It's horrible for stores to have separate boys and girls clothing departments (let alone toy sections)
- It would be a great idea for our military to lower physical standards and push young women and mothers into combat roles in the military

If you think that's insanity, you're not alone, but you might be surprised at just how widespread—and successful—this lunatic campaign has become. In her compelling new book, *Sex Scandal*, journalist Ashley McGuire takes this radical campaign to task and reveals:

- How so-called "gender-norming" flies in the face of science (which is proving that men and women are even more different than commonly acknowledged)
- Why—especially if you have kids—it's almost impossible to avoid the dangerous consequences of a "gender neutral" world
- How embracing sexual differences can make policing safer, government more efficient—and hedge funds lose less money
- How "gender neutrality" is making women more vulnerable to violence
- How the word "gender"—formerly a grammatical term—has been used to dismiss the reality of definite, biological "sex" (male and female) with fluid "gender identities"
- Why "gender" insanity is not something we can just

ignore and hope will fade away, but need to refute—now—with hard, cold facts before it does any more damage (which it likely will) Sex Scandal: The Drive to Abolish Male and Female is packed with news-breaking interviews, shocking examples, and “inconvenient” facts that everyone needs to read—and act on.

McO 1500.59a Marine Corps Martial Arts Program (McMap) Commandant Marine Corps, Luc Boudreaux, 2022-08-08 The mental, moral, and physical resiliency of the Marine Corps' warfighters will be of utmost importance to the Marine Corps winning battles in future conflicts. As a supporting effort to the Marine Corps Physical Fitness Program (MCPFP) in reference (a), Marine Corps Martial Arts Program (MCMAP) aims to strengthen the mental and moral resiliency of individual Marines through realistic combative training, warrior ethos studies, and physical hardening. This Order establishes procedures for effective management of MCMAP. More content available at: doguedebordeauxsurvival.com
