Navy LPD-17 Amphibious Ship Procurement Ronald O'Rourke, 2011-05 The Navy's FY 2011-2015 shipbuilding plan calls for procuring an 11th and final San Antonio (LPD-17) class amphibious ship in FY 2012. The Navy estimates the procurement cost of this ship at \$2 billion. The ship received \$184 million in FY 2010 advance procurement funding, and the Navy plans to request the remaining \$1.9 billion of the cost in the FY 2012 budget. Accordingly, the Navy's proposed FY 2011 budget does not request any procurement funding for the LPD-17 program. Contents of this report: (1) Intro.; (2) Amphibious Ships in General; LPD-17 Program; (3) Issues for Congress. Appendix A. Amphibious Lift Goal; Appendix B. LPD-17 Cost Growth and Construction Problems. Illus. This is a print on demand report.

The Comparative Perspective on Literature Clayton Koelb, 2019-06-30 Few would deny that comparative literature is rapidly moving from the periphery toward the center of literary studies in North America, but many are still unsure just what it is. The Comparative Perspective on Literature shows by means of twenty-two exemplary essays by many of the most distinguished scholars in the field how comparative literature as a discipline is conceived of and practiced in the 1980s. Nearly all of them published here for the first time, the essays discuss and themselves reflect significant changes at the core of the field as well as evolving notions as to what comparative literature is and should be. The volume editors, Clayton Koelb and Susan Noakes, have included essays that address the scope and concerns of comparative literature today, historical and international contexts of the field, and the relationship of literary criticism to other disciplines, as well as affording comparative perspectives on current critical issues.

The Birth of the Royal Marines, 1664-1802 Britt Zerbe, 2013 The book highlights especially the Marines' roles as guards against mutiny and desertion and as an imperial 'rapid reaction force.' It also provides details of the many and varied actions in which they were involved worldwide.

Guts & Glory Lawrence H. Suid, 2002-06-14 Southern Music/American Music is the first book to investigate the facets of American music from the South and the many popular forms that emerged from it. In this substantially revised and updated edition, Bill C. Malone and David Stricklin bring this classic work into the twenty-first century, including new material on recent phenomena such as the huge success of the soundtrack to *O Brother, Where Art Thou?* and the renewed popularity of Southern music, as well as important new artists Lucinda Williams, Alejandro Escovedo, and the Dixie Chicks, among others. Extensive bibliographic notes and a new suggested listening guide complete this essential study.

Vigilance Ray Kelly, 2015-09-08 Two-time New York City police commissioner Ray Kelly opens up about his remarkable life, taking us inside fifty years of law enforcement leadership, offering chilling stories of terrorist plots after 9/11, and sharing his candid insights into the challenges and controversies cops face today. The son of a milkman and a Macy's dressing room checker, Ray Kelly grew up on New York City's Upper West Side, a middle-class neighborhood where Irish and Puerto Rican kids played stickball and tussled in the streets. He entered the police academy and served as a marine in Vietnam, living and fighting by the values that would carry him through a half century of leadership—justice, decisiveness, integrity, courage, and loyalty. Kelly soared through the NYPD ranks in decades marked by poverty, drugs, civil unrest, and a murder rate that, at its peak, spiked to over two thousand per year. Kelly came to be known as a tough leader, a fixer who could go into a troubled precinct and clean it up. That reputation catapulted him into his first stint as commissioner, under Mayor David Dinkins, where Kelly oversaw the police response to the 1993 World Trade Center bombing and spearheaded programs that would help usher in the city's historic drop in crime. Eight years later, in the chaotic wake of the 9/11 attacks, newly elected mayor Michael Bloomberg tapped Kelly to be NYC's top cop once again. After a decade working with Interpol, serving as undersecretary of the Treasury for enforcement, overseeing U.S. Customs, and commanding an international police force in Haiti, Kelly understood that New York's

security was synonymous with our national security. Believing that the city could not afford to rely solely on the feds, he succeeded in transforming the NYPD from a traditional police department into a resource-rich counterterrorism-and-intelligence force. In this vital memoir, Kelly reveals the inside stories of his life in the hot seat of the capital of the world-from the terror plots that nearly brought a city to its knees to his dealings with politicians, including Presidents Bill Clinton, George W. Bush, and Barack Obama as well as Mayors Rudolph Giuliani, Bloomberg, and Bill DeBlasio. He addresses criticisms and controversies like the so-called stop-question-and-frisk program and the rebuilding of the World Trade Center and offers his insights into the challenges that have recently consumed our nation's police forces, even as the need for vigilance remains as acute as ever.

A Regiment Like No Other U S Army Command and General Staff Coll,2014-09-19 This thesis addresses the unique composition of the 6th U.S. Marine Regiment and the role they played in the battle of Belleau Wood. It analyzes composition of the 6th Marine Regiment: 60 percent were college men, many of whom were college athletes. With the exception of the Battalion's senior officers and a handful of senior noncommissioned officers, the Regiment was composed of volunteers. Although they were put through rigorous training, these young Marines were not fully prepared for the war that they would face. These young men overcame shortfalls, and became leaders who motivated others to follow. The argument is that these men were able to use their educational and athletic backgrounds to overcome adverse training and combat conditions and proceeded to shape both the outcome of the First World War as well as the Marine Corps for the remainder of the 20th Century.

Liberating Kuwait - U. S. Marines in the Gulf War, 1990-1991, Iraq's Saddam Hussein and the Invasion of Kuwait, Defending Saudi Arabia, Air War, Scuds, Al-Khafji, Harriers Afloat, Fratricide Issues U. S. Military,Department of Defense (DoD),U. S. Marine Corps (USMC),U. S. Government,2017-05-30 This is the official USMC history of the First Gulf War, Liberating Kuwait. Every aspect of the historic conflict is covered, including the prelude to the invasion by Iraq and Saddam Hussein, defending Saudi Arabia, the Air War, and the ultimate victory. For the U.S. Marine Corps, the Gulf War was a test of its ability to perform quickly, under pressure, as advertised. A Marine expeditionary force was deployed rapidly and then reinforced, while two Marine expeditionary brigades were also deployed as the Marine Corps continued to support its peacetime commitments. Despite long months of tedium in the desert as the crisis played out, the Marines performed their duties with skill and elan, achieving a remarkable victory against the Iraqi Army in Kuwait and proving the Corps' strategic concepts, most especially the value of the Maritime Prepositioning Force. The impact of the war on American defense policy and the confidence the Gulf War's success gave to the Marine Corps continue to impact today's national security debates. It was the largest armed conflict to involve the United States since the Vietnam War, and the U.S. Marine Corps was intimately involved with the conflict even before it began.

Navy-Marine Corps Amphibious and Maritime Prepositioning Ship Programs: Background and Oversight Issues for Congress Ronald O'Rourke,Foreign Affairs, Defense, and Trade Division,2004 The Navy is proposing to maintain in coming years a Navy with 31 amphibious ships and an additional squadron of 14 Maritime Prepositioning Force (Future), or MPF(F), ships. The MPF(F) squadron is intended to implement a new operational concept called sea basing, under which forces would be staged at sea and used to conduct expeditionary operations ashore with little or no reliance on nearby land bases. This report will be updated as events warrant.
