Massachusetts Real Estate License Exam Prep Stephen Mettling,David Cusic,Ryan Mettling,2020-01-20 Features of Massachusetts Real Estate License Exam Prep (MA-RELEP): National Principles & Law Key Point Review (60 pages) Real Estate Math Key Formula Review & Practice (20 pages) Massachusetts-Specific Laws and Practices (35 pages) National Practice Tests (500 questions) Massachusetts Practice Tests (100 questions) Massachusetts Sample Exam (100 questions) We know the real estate licensing exam can be tough, and very nerve-wracking to prepare for. That's why we created Massachusetts Real Estate License Exam Prep (MA-RELEP) the way we did. Since we have been managing real estate schools and developing curriculum for forty years, we know how all this works - or fails to work. MA-RELEP is comprehensive in that it contains both key content review and testing practice. And the text review is Massachusetts-specific - not just simplistic national content, but terse, relevant and accurate Massachusetts laws and regulations presented as a well-organized set of state 'key point reviews' ideal for pre-test memorization. But let's not dismiss the importance of the national content either. MA-RELEP's national key point reviews are a succinct compression of tested national principles and practices that comprise the national portion of state license exams from coast to coast. Our content is drawn from our own national textbook, Principles of Real Estate Practice - one of the most widely used principles textbooks in the country. Finally, our national content, as well as our question selection, is further tailored to the state testing outline promulgated by PSI for Massachusetts. Thus the breadth and depth of the law reviews and test questions reflect the topic emphasis of your state's testing service and your Massachusetts license exam. A word about the test questions... MA-RELEP's testing practice section consists of ten national practice tests, Eight state practice tests, and one state exam sample test. The practice tests are roughly 50 questions in length and the sample test is 100 questions. The test questions are designed to cover the content covered by the law reviews - which reinforces your learning of the total body of information tested by your state exam. The questions are direct, to the point, and designed to test your understanding. When you have completed a given test, you can check your answers against the answer key in the appendix. You may also note that each question's answer is accompanied by a brief explanation, or "rationale" to further reinforce your understanding. In the end, as you know, it's all up to you. Unlike other publications, we are not going to tell you that using this book will guarantee that you pass your state exam. It still takes hard work and study to pass. But we have done our best here to get you ready. Following that, the most we can do is wish you the best of success in taking and passing your Massachusetts real estate exam. So good luck!! For students looking for a Massachusetts textbook to complement Massachusetts Real Estate License Exam Prep, we have Principles of Real Estate Practice in Massachusetts.

Challenge Your Taxes James E. A. Lumley,1998-01-30 How to save hundreds--even thousands--of dollars a year in property taxes You can't escape paying property taxes, but you can avoid paying more than you have to. This authoritative new guide explains how. Written by an experienced real estate counselor, Challenge Your Taxes helps you evaluate your property assessment and pinpoint any inaccuracies that, once amended, could dramatically reduce your tax bill. With proven guidelines and practical tips, you'll learn how to determine what your property is really worth, qualify your property for a deduction, and--in the case of an unfair assessment--prepare and present a successful appeal. Here's where you'll find complete details on: * Property valuation--fair market value, comparable sales and cost approach, amenity considerations * Assessors--who

they are, what they do, and what they look for * Checking your property information--study your property record file, confirm property category, use sales/assessment ratio to establish fair value * Common assessment errors--miscalculated land area, incorrect judgment of condition, comparable sales ignored, wrong zoning classification * Assessment appeals--summary of procedure, presentation checklist, the appeal board, abatements Packed with helpful worksheets and numerous examples, as well as sample forms and addresses of state appeals agencies, this indispensable resource has everything you need to Challenge Your Taxes successfully.

Experiencing Politics John E. McDonough,2000-11-22 Some people study policy making, other people do it....McDonough’s spirited account of his dual life in the political trenches of the Massachusetts legislature and the analytic turf of the academy carries two powerful messages: scholars have reason to care deeply about the consequences of the governing processes they research and—here’s the shocker—a healthy peppering of political science can actually help practitioners become more effective policy makers.—Mark A. All Real Estate Is Local David Lereah,2007-04-03 Whatever the national trends are with regard to real estate – whether they are booming or busting-what really matters is what the market conditions are in your region, town, or neighborhood. For as David Lereah points out, in the end, all real estate is local. What does that mean? Even during the real estate boom of 2001-2005, a great many cities and regions did not participate in the boom-they lagged behind, or even decreased in value. Similarly, when prices began to fall nationally, there were plenty of regions and locales where prices rose, and sales boomed. As Lereah makes clear, the most important factor in buying or selling a home isn’t what is going on nationally-it is what is going on in your local market. Evaluating present and future trends and influences in your region or neighborhood is essential to creating long term wealth, whether you are in a buyer’s or a seller’s market. And David Lereah, as the Chief Economist for the National Association of Realtors, shows you how to determine the conditions in your neighborhood. Lereah reveals how to: Evaluate the DNA of homes in the town or county or region you are considering (every town has its own real estate DNA-the characteristics that make a region or city more or less desirable to live in). Determine whether property values in your targeted neighborhood are on the rise. Research future real estate influences and trends, from migration into or out of the region, to plans to attract or develop new businesses in the area. Understand the local factors that can affect your investment in the future. Countless books offer advice on how to buy and sell a home. But ALL REAL ESTATE IS LOCAL is the first book to explain how knowing the ins and outs of the local market you are targeting is essential to deciding when, where, and what to buy.
