**Mayan Countdown 2012** William Clyde Beadles,2012-05-01 The Mayan Calendar's End Date-winter solstice, December 21, 2012-is two short weeks away. Y2K has come and gone-but has it? Could everyone have been using the wrong calendar?

*101 Things You Should Know about 2012* Mark Heley,2010-12-18 On December 21, 2012, millions of people will watch the skies, holding their breaths. On that day, ancient Mayan prophecies foretell a profound change on Planet Earth. Some think it heralds the extinction of all life. Others believe humans will be lifted to a higher spiritual plane. Mayan expert Mark Heley covers such diverse topics as stellar convergences, crop circles, and the strange predictions by a mysterious civilization eleven centuries ago--prophecies that could determine our future! Among scores of contending theories, this easy-to-grasp guide cuts through the thicket of information and gives you a quick take on 2012.

*The 100th Human - Countdown 2012* Chris Fenwick,2011-12 Global tensions rise as the ominous December 21, 2012 date approaches, marking the final day of the 5,000 year old Mayan calendar. Many people believe this day predicts the end of the world, as injustice and greed dominate societies world-wide. Millions of protestors have taken to the streets speaking out against rampant abuses of power. Amidst the turmoil, a trio of scientists uncovers a mystery revealing the symbolic meaning of the calendar's end. Their serendipitous journey is discovered by the fraternity of the Veni Victus - determined to thwart possible revelations. As the eternal battle wages between the forces of dark and light, only the spirits of the ancients know the outcome. The 100th Human - Countdown 2012 is a fast-paced adventure, offering 8 inspirational keys to personal and global transformation. This new 2012 edition provides enriching resources to deepen the reader's understanding of the 8 Keys.

*Mayan Calendar Prophecies: Predictions for 2012-2052* Gary C. Daniels,2012-11-01 Take a look at the science behind the Mayan calendar, prophecies and mythology. The Maya believed multiple cycles governed civilization. They created various calendars to track these cycles. Their short count calendar tracked a 256-year cycle believed to control epidemics, famines, warfare and more. Scientists have found a 250-year solar cycle that also appears to affect epidemics, famines, warfare and more. Their long count calendar tracked a 5000-year cycle related to natural disasters and cosmic catastrophes. Scientists have also discovered that the Earth is subjected to periodic bombardment by comets and asteroids that plunges the world into long periods of darkness and cold. Mayan mythology appears to record such events and in some instances even the exact dates on which these catastrophes occurred in the past. By comparing these dates with ice core records, sedimentary records, and climate records, this book reveals the truth about civilization's darkest days. And what may lie ahead in the future.

**The Complete Idiot's Guide to 2012** Colin Andrews,Dr. Synthia Andrews, ND,2008-10-07 The final countdown! On December 21, 2012, the Mayan calendar will complete its thirteenth cycle. According to the Mayan belief system, the world will end. And if you don't believe the Mayans, you can check in with The Bible Code, The Nostradamus Code, or The Orion Prophecy, all of which predict planet-wide doom. Then again, maybe the year 2012 is just a new opportunity. Could 2012 bring us good things instead of bad? This book gives readers a look at what the Mayan prophecy is all about, what it means to them, and much more. - Addresses Mayan predictions about global warming and climate change - Includes a glossary of terms and symbols, resources for a changing world, and exercises to assist the reader in their journey - The existence of almost 600,000 websites on 2012 indicates a huge fascination with this subject Download a sample chapter.

The Mayan and Other Ancient Calendars Geoff Stray,2007-11-06 The only small, popular book on the important subject of ancient calendars. The study of heavenly cycles is common to most ancient cultures. The ancient Egyptians, Chinese, and Babylonians all tried to make sense of the year. But it fell to the later Mesoamerican Maya to create a series of calendars that could be cross referenced. In doing so, the Maya discovered many strange numerical harmonics. Their lunar calendar was extremely accurate-far more so than the Greek Metonic cycle; they tracked Venus to an accuracy of less than a day in five hundred years and their tables could have been used to predict eclipses seven hundred years in the future. This book will provide a much needed compact guide to the Mayan calendar systems as well as covering the essentials of calendar development throughout the world.

**2012 and the End of the World** Matthew Restall,Amara Solari,2011-01-16 Did the Maya really predict that the world would end in December of 2012? If not, how and why has 2012 millenarianism gained such popular appeal? In this deeply knowledgeable book, two leading historians of the Maya answer these questions in a succinct, readable, and accessible style. Matthew Restall and Amara Solari introduce, explain, and ultimately demystify the 2012 phenomenon. They begin by briefly examining the evidence for the prediction of the world's end in ancient Maya texts and images, analyzing precisely what Maya priests did and did not prophesize. The authors then convincingly show how 2012 millenarianism has roots far in time and place from Maya cultural traditions, but in those of medieval and Early Modern Western Europe. Revelatory any myth-busting, while remaining firmly grounded in historical fact, this fascinating book will be essential reading as the countdown to December 21, 2012, begins.

*End Times to 2019* David Montaigne,2013-01-09 Does the end of the Mayan Calendar start the countdown to Judgment Day? Biblical and historical researcher David Montaigne concludes that this is the case. He says that the end of the Mayan Long Count is the official start of the Bible's seven-year tribulation-both were focused on the same astronomical events that occur from 2012 to 2019. The world as we know it will be gone by 2020. Texts from

ancient India tell us about great cycles of destruction. The Egyptians told the same basic story with different names. The Maya reveal another version of the story, and were very clear about the timing of events from December 2012 to 2019. Your average American is no expert on these cultures, but most people do have a Bible at home-and the clearest details on what is about to happen can be found in the Bible, if you don't let someone else tell you which parts you should focus on. No, this isn't what you were taught in Sunday school. Religious leaders guide us between the raindrops of curious comments in the Bible. We are discouraged from focusing on the parts they say we weren't meant to understand. But if we stop glossing over these important passages we will understand a flood of details about the End Times. Our "leaders" are not ignorant of these events. The elite already know what is about to happen and they have made preparations most rational people would not believe, because evidence is suppressed to avoid chaos. They want us to remain ignorant, or at least to believe that the details are secrets that cannot be known. But the coming events (and their timing) are not secrets. Years ago, this book's publication would not have been tolerated by those in power. But by now it doesn't matter much-their plans are not going to be interfered with at this point. Your plans, however, can still be formulated, if you make the choice to understand. Topics include: Bible Prophecy; Matthew 24:36- Knowing the hour and the day; The Mayan Calendar and Mythology; Pole Shifts; Galactic Superwaves; Ancient Egypt; Ancient India; World Mythology; The Georgia Guidestones; The real Star of Bethlehem and the exact birthday of Christ; Calculating the Second Coming, and Judgment Day; more.

*The World Cataclysm in 2012* Patrick Geryl,2005 Discusses the Mayan calendar and the fact that it is generally interpreted to end in 2012.

**2012 Mayan Calendar and the Great Pyramid Predicts Paradise Begins in Australia** Brian Leonard Golightly Marshall,2008-07-25 Mayan Calendar experts cracked the language code, finding the date predicted when the solar system would cross into the northern hemisphere of the Milky Way Galaxy and the golden age would begin. In the Great Pyramid the same information and the end time when the last day is the same date, but it also predicts the return of Christ and He is on the planet today.The Great Pyramid conspiracy is the direct result of the Catholic Church, which hung a mask of Jesus hung upon the body of Lucifer. There is however a linking of ancient wonders within the Great Pyramid, which predicts that Brian Leonard Golightly Marshall was reborn to the earth January 11th 1944 in Australia. The key that opens the mysteries of the old Testament Hebrew pinpointing the second coming of Jesus is in the Mayan Calendar found also in the 5000 year old pyramid and is why the church destroyed the Mayans proof of Jesus far removed from the greatest enemy of Jesus the Catholic Church.

**2012: Extinction or Utopia** J. Allan Danelek,2010-09-08 Is 2012 the end of the world as we know it? From 2012 to global warming to worldwide pandemics, doomsday scenarios play an increasingly large role in our lives. Do any of these apocalyptic scenarios pose a real, urgent risk? Why does our modern culture continue to embrace these bleak beliefs, and how are they affecting our world? Separating hype from truth, J. Allan Danelek scrutinizes the ancient Mayan calendar's end date of 2012 and takes a hard look at whether it spells the end of the world—or a new beginning. Danelek also delves into other doomsday beliefs past and present, from biblical end-times prophecies to biological warfare, and discusses the predictions of world-famous prophets such as Nostradamus and Edgar Cayce. With piercing logic, Danelek objectively explores the apocalyptic threats that have captured our imagination . . . and reveals startling insights about what kind of future—dire or dazzling—awaits humanity.

*The Order of Days* David Stuart,2011 The world's foremost expert on Mayan culture takes a hard look at the frenzy over 2012 and offers a

fascinating (and accurate) trip through Mayan culture and belief.

**Maya Cosmogenesis 2012** John Major Jenkins,1998-08-01 While researching the 2012 end-date of the Maya Calendar, John Major Jenkins decoded the Maya's galactic cosmology. The Maya discovered that the periodic alignment of the Sun with the center of the Milky Way galaxy is the formative influence on human evolution. These alignments also define a series of World Ages. The fourth age ends on December 21, 2012, when an epoch chapter in human history will come to an end. Maya Cosmogenesis 2012 reveals the Maya's insight into the cyclic nature of time, and prepares us for our own cosmogenesis--the birth of a new world.

Dec.21, 2012 Anniversary of Time Jaime Perry,2012-03-16 What Does All This Mean? NOW WE CAN ASK SOME REAL QUESTIONS: WHICH CALENDAR SHOULD WE NOW FOCUS ON, THE BIBLE'S OR THE MAYAN? HOW WILL GOD CELEBRATE THE ANNIVERSARY OF TIME? IS THE MILKY WAY GOD'S REAL TIME CLOCK? ARE WE THE LAST GENERATION? WILL TIME END ON DEC. 21, 2012, OR WILL IT REPEAT? WILL THE FIFTH CYCLE OF THE MAYAN CALENDAR END WITH GOD DESTROYING THE WORLD AGAIN? WILL THE FINAL THOUSAND YEARS OF OUR CIVILIZATION BEGIN ON DEC. 21, 2012? WILL GOD DECLARE THE SEVENTH DAY VERY GOOD ON DEC. 21, 3012?

**The Order of Days** David Stuart,2012-11-27 The world's foremost expert on Maya culture looks at 2012 hysteria and explains the truth about what the Maya meant and what we want to believe. *Apocalypse 2012: An Investigation into Civilizations End. The World Cataclysm in 2012. 2012: The return of Quetzalcoatl.* According to many of these alarmingly titled books, the ancient Maya not only had a keen insight into the mystical workings of our planet and the cosmos, but they were also able to predict that the world will end in the year 2012. David Stuart, the foremost scholar of the Maya and recipient of numerous awards for his work, takes a hard look at the frenzy over 2012 and offers a fascination (and accurate) trip through Mayan culture and belief. Stuart shows how the idea that the end of the Mayan calendar, which supposedly heralds the end of our own existence, says far more about our culture than about the ancient Maya. The Order of Days explores how the real intellectual achievement of ancient Maya timekeeping and worldview is far more impressive and remarkable than any of the popular, and often outrageous, claims about this advanced civilization. As someone who has studied the Maya for nearly all of his life and who specializes in reading their ancient texts, Stuart sees the 2012 hubbub as the most recent in a long chain of related ideas about Mesoamericans, the Maya in particular, that depicts them as somehow oddball, not of this world, or as having some strong mystical link to other realms. Because the year 2012 has no prominent role in anything the ancient Maya ever actually wrote, Stuart takes a wider look at the Maya concepts of time and their underlying philosophy as we can best understand them. The ancient Maya, Stuart contends, were worthy of study and admiration not because they were strange but because they were altogether human, and they developed a compelling vision of time unlike any other civilization before or since.

*2012 Universal Doom Or New Age?* Ashok K. Sharma,2009 These days everyone is eager to know the meaning of the Great cycle of the Mayan Calendar and what will happen on December 21, 2012 and even beyond that? Will the world survive? Or will there be complete destruction of the entire civilization? Most of the people believe that planet earth will be destroyed if not in 2012 then within some more years. So what would exactly happen in 2012 and beyond That? There are different school that tell us very different things about the result and galactic circumstances. The psychologists around the world are also amazed why unlike 1999 and the world war III predictions, only 2012 has stuck in people's mind and imagination. According to Mayan, the history of civilization began on date 13.0.0.0.0 on the Mayan calendar and as per Gregorian/Julian calendar about August 3113 BC.

**2012** Robert Roskind,2008-02

*The End of Time* Anthony Aveni,2009-10-01 December 21, 2012. The Internet, bookshelves, and movie theaters are full of prophecies, theories, and predictions that this date marks the end of the world, or at least the end of the world as we know it. Whether the end will result from the magnetic realignment of the north and south poles, bringing floods, earthquakes, death, and destruction; or from the return of alien caretakers to enlighten or enslave us; or from a global awakening, a sudden evolution of Homo sapiens into non-corporeal beings - theories of great, impending changes abound. In *The End of Time*, award-winning astronomer and Maya researcher Anthony Aveni explores these theories, explains their origins, and measures them objectively against evidence unearthed by Maya archaeologists, iconographers, and epigraphers. He probes the latest information astronomers and earth scientists have gathered on the likelihood of Armageddon and the oft-proposed link between the Maya Long Count cycle and the precession of the equinoxes. He then expands on these prophecies to include the broader context of how other cultures, ancient and modern, thought about the end of things and speculates on why cataclysmic events in human history have such a strong appeal within American pop culture.

*2012* Alexandra Bruce,2009-09-01 The expanded companion book to the #1 documentary film about 2012! The 2012 meme has evolved beyond any debates about the relevance of the Maya Long Count calendar to the lives of contemporary human beings. 2012 is about us on planet Earth at this time. December 21, 2012: will the world really change forever on this date, the end of a 5,125-year calendar last used over a thousand years ago? Certainly Hollywood would like you to think so. Indeed, a not-so-small industry has arisen around the date, hawking everything from t-shirts to teleseminars. Clearing a path between fantasy and reality, Alexandra Bruce surveys the entire 2012 landscape, asking questions such as: Is the Earth

losing its Mojo? How did 2012 come to mean The End of Time? Did psychedelics facilitate the Maya Cosmovision? Should we worry about Earth Crustal Displacement? What the hell is Planet X? Uniquely amongst a vast array of 2012 literature, this book features interviews with the leading experts—including Graham Hancock, John Major Jenkins, Daniel Pinchbeck and many others—and insightful, detailed analysis of the broad spectrum of opinion, debate, research and myth regarding the most compelling end times prediction of the 21st century.
