Windows PCs in the Ministry Steve Hewitt, 2010-02-21 Use your Windows computer to its full potential in your ministry! Church leaders know that ministry demands time, energy, creativity, passion, and commitment. Windows PCs in the Ministry helps instruct time-constrained ministers to better and more efficiently use a tool you already have: your computer. The book provides tips and direction on: Preparing your sermons with online tools and Bible software. Creating presentations and accompanying visuals with multimedia tools. Publishing your sermons and blogs online and on DVDs. Connecting with your congregants and other colleagues in ministry. Using Social Networking, such as Twitter, for more dynamic community outreach. The ministry of the church has not changed over the centuries, but the methods and tools to accomplish ministry have. Windows PCs in the Ministry shows readers how to harness the programs they already have while making recommendations on new resources, helping church leaders in nearly every aspect of their ministries.

User-Centered Design Strategies for Massive Open Online Courses (MOOCs) Mendoza-Gonzalez, Ricardo, 2016-01-07 In today's society, educational opportunities have evolved beyond the traditional classroom setting. Most universities have implemented virtual learning environments in an effort to provide more opportunities for potential or current students seeking alternative and more affordable learning solutions. User-Centered Design Strategies for Massive Open Online Courses (MOOCs) focuses on the best practices and effective design of student interaction within virtual learning environments. Highlighting strategies from human-computer interaction experiences and user-centered models, as well as emergent approaches and implementation techniques, this reference publication is designed for computer science students, academics, researchers, instructional designers, IT professionals, software developers, and educators interested in mobile technologies, social learning, and educational inclusion.

Young People, Social Media and the Law Brian Simpson, 2017-11-22 This book critically confronts perceptions that social media has become a 'wasteland' for young people. Law has become preoccupied with privacy, intellectual property, defamation and criminal behaviour in and through social media. In the case of children and youth, this book argues, these preoccupations – whilst important – have disguised and distracted public debate away from a much broader, and more positive, consideration of the nature of social media. In particular, the legal tendency to consider social media as 'dangerous' for young people – to focus exclusively on the need to protect and control their online presence and privacy, whilst tending to suspect, or to criminalise, their use of it – has obscured the potential of social media to help young people to participate more fully as citizens in society. Drawing on sociological work on the construction of childhood, and engaging a wide range of national and international legal material, this book argues that social media may yet offer the possibility of an entirely different – and more progressive – conceptualisation of children and youth.

Saving the Security State Inderpal Grewal, 2017-11-03 In *Saving the Security State* Inderpal Grewal traces the changing relations between the US state and its citizens in an era she calls advanced neoliberalism. Marked by the decline of US geopolitical power, endless war, and increasing surveillance, advanced neoliberalism militarizes everyday life while producing the "exceptional citizens"—primarily white Christian men who reinforce the security state as they claim responsibility for protecting the country from racialized others. Under advanced neoliberalism, Grewal shows, others in the United States strive to become exceptional by participating in humanitarian projects that compensate for the security state's inability to provide for the welfare of its citizens. In her analyses of microfinance programs in the global South, security moms, the murders at a Sikh temple in Wisconsin, and the post-9/11 crackdown on Muslim charities, Grewal exposes the fissures and contradictions at the heart of the US neoliberal empire and the centrality of race, gender, and religion to the securitized state.

Behind Closed Doors Jessica L. Peck, 2022-10-18 Believe it or not, your kids WANT to talk to you about the social and health challenges they're facing. But are you ready? Jessica Peck, a pediatric nurse practitioner and mom of four, helps parents escape the secrecy and shame surrounding tough conversations and approach them from a Christian foundation. Today's teens are feeling more isolated, anxious, and depressed than previous generations, and are struggling with more complex challenges. Jessica Peck (DNP, APRN) has spent countless hours advising and encouraging parents after talking to their teens behind closed doors. In the privacy of her exam room, she has treated teens with mental illnesses, responded to suicide attempts, treated self-harm wounds as well as the emotional trauma of cyberbullying, sexting, pornography addictions, and numerous other issues. Through it all, Jessica found that teens really want to talk to their parents but don't know how. Jessica seeks to move the private conversations that happen in the clinic to relationship-building conversations at home. Behind Closed Doors is a guided lifeline to help you strengthen your connection with your kids. You will be able to: Get professional advice on tough teenage issues from a medical perspective, as well as the true stories of patients Discover suggested settings, activities, and question prompts to give you conversation keys to unlock doors for open dialogue on tough issues with your teens Share a time of reflection with devotional readings, relevant Bible verses, Scripture-

based prayers, themed music playlists, and more Prompts to write 12 Legacy Letters: a generational keepsake for teens Covering topics including mental health, social media, suicide, sexting, gender identity, substance abuse (with a chapter focusing on vaping), and more, Jessica Peck's book will encourage and strengthen all parents—married, single, or divorced; grandparents, stepparents, godparents, bonus parents, adopted parents—anyone who is serving a parental role in a teen's life.

Projects in the book include creating custom photos albums to share, editing photos to add effects or retouch, uploading home movies to edit and burn to DVDs, sharing video or photos over the Internet, and turning a PC into a home recording studio. Later chapters offer a quick guide to streaming video and audio to a TV and stereo in the living room. The author creates each project with tools that are both affordable and easy-to-use, and finishes with pointers to more advanced software should you want to explore further. Unlike other books on digital media, the activities in Family Computer Fun are designed with the family in mind, with software that anyone can use and projects that will be fun for the entire family to explore together.
