Josh Trought

Multimedia Storytelling for Digital Communicators in a Multiplatform World

Seth Gitner, 2022-07-12 Now in its second edition, *Multimedia Storytelling for Digital Communicators in a Multiplatform World* is a trusted guide for all students who need to master visual communication through multiple media and platforms. Incorporating how-to's on everything from website and social media optimization to screenwriting, this textbook provides readers with the tools for successfully merging new multimedia technology with very old and deep-rooted storytelling concepts. Topics covered include: how to understand conflict, characters, and plot development; conducting successful interviews; editing video in post-production; and sourcing royalty-free music and sound effects. The book also includes a range of supplemental material, including exercises for each chapter, interviews with seasoned professionals, key terms, and review questions. New to this edition are thoroughly updated chapters on social media storytelling, visual storytelling with mobile devices, and post-production techniques, to reflect current industry trends. This book is a key resource for students learning to think and create visually in fields across broadcast and digital journalism, film, photography, advertising, and public relations.

The Community-Scale Permaculture Farm Josh Trought, 2015 With practical examples of alternative building, renewable energy, holistic forestry, no-till gardening, hospitality management, community outreach, and more The

Community-Scale Permaculture Farm describes not only the history of the D Acres project, but its evolving principles and practices that are rooted in the land, its inhabitants, and the joy inherent in collective empowerment. For almost twenty years, D Acres of New Hampshire has challenged and expanded the common definition of a farm. As an educational center that researches, applies, and teaches skills of sustainable living and small-scale organic farming, D Acres serves more than just a single function to its community. By turns it is a hostel for travelers to northern New England, a training center for everything from metal- and woodworking to cob building and seasonal cooking, a gathering place for music, poetry, joke-telling, and potluck meals, and much more. While this book provides a wide spectrum of practical information on the physical systems designed into a community-scale homestead, Trought also reviews the economics and organizational particulars that D Acres has experimented with over the years. The D Acres model envisions a way to devise a sustainable future by building a localized economy that provides more than seasonal produce, a handful of eggs, and green appliances. With the goal of perennial viability for humanity within their ecosystem, D Acres is attempting an approach to sustainability that encompasses practical, spiritual, and ethical components. In short: They are trying to create a rural community ecology that evolves in perpetuity. From working with oxen to working with a board of directors, no other book contains such a wealth of innovative ideas and ways to make your farm or

homestead not only more sustainable, but more inclusive of, and beneficial to, the larger community. Readers will find information on such subjects as: Working with pigs to transform forested landscapes into arable land; Designing and building unique, multifunctional farm and community spaces using various techniques and materials; Creating and perpetuating diverse revenue streams to keep your farm organization solvent and resilient; Receiving maximum benefits and yields for the farm without denigrating resources or the regional ecology; Implementing a fair and effective governance structure; Constructing everything from solar dehydrators and cookers to treehouses and ponds; and, Connecting and partnering with the larger community beyond the farm. Emphasizing collaboration, cooperation, and mutualism, this book promises to inspire a new generation of growers, builders, educators, artists, and dreamers who are seeking new and practical ways to address today's problems on a community scale.

Web Style Guide, 4th Edition Patrick J. Lynch, Sarah Horton, 2016-08-23 A classic reference book on user interface design and graphic design for web sites, updated to reflect a rapidly changing market Consistently praised as the best volume on classic elements of web site design, Web Style Guide has sold many thousands of copies and has been published around the world. This new revised edition confirms Web Style Guide as the go-to authority in a rapidly changing market. As web designers move from building sites from scratch to using content management and aggregation tools, the book's focus

shifts away from code samples and toward best practices, especially those involving mobile experience, social media, and accessibility. An ideal reference for web site designers in corporations, government, nonprofit organizations, and academic institutions, the book explains established design principles and covers all aspects of web design—from planning to production to maintenance. The guide also shows how these principles apply in web design projects whose primary concerns are information design, interface design, and efficient search and navigation.

Benn's Press Directory ,1983

Personal Multimedia Preservation Vasileios Mezaris,Claudia Niederée,Robert H. Logie,2018-02-16 This unique text/reference advocates a novel forgetful approach to dealing with personal multimedia content in the long run, which is inspired by the effectiveness of human forgetting as a mechanism for helping us to stay focused on important things. The text presents theoretical foundations, technologies, applications, and case study results that help the reader to understand the problems and challenges associated with personal digital preservation, and the solutions that can be developed in response to these challenges. Topics and features: Highlights the value of an intelligent and selective approach to personal multimedia preservation, involving managed forgetting and contextualized remembering; considers how a conceptual understanding of human memory function can be used to inspire the design of digital managed preservation and forgetting; discusses methods that endow

computers with capabilities to understand digital content, in order to support intelligent preservation decisions; examines the assessment of the importance of information items, introducing the concepts of memory buoyancy and preservation value; reviews methods for preserving the context associated with a digital item, and for assessing how this context evolves over time; proposes a reference model for the Preserve-or-Forget (PoF) approach which is integrative, value-driven, brain-inspired, forgetful, and evolution-aware; describes the integration of preservation functionalities in a Personal Information Management (PIM) application; presents a user study on a photo selection task, using the results to design methods for automatically selecting important photos from personal collections. This interdisciplinary volume provides significant insights from computer science, engineering and psychology that will be of great interest to researchers involved in multimedia and software engineering, multimedia preservation, cultural informatics, digital heritage, and the digital humanities.

Convergence Media History Janet Staiger, Sabine Hake, 2009-07 Convergence Media History explores the ways that digital convergence has radically changed the field of media history. Writing media history is no longer a matter of charting the historical development of an individual medium such as film or television. Instead, now that various media from blockbuster films to everyday computer use intersect regularly via convergence, scholars must find new ways to write media history across multiple media formats. This

collection of eighteen new essays by leading media historians and scholars examines the issues today in writing media history and histories. Each essay addresses a single medium—including film, television, advertising, sound recording, new media, and more—and connects that specific medium's history to larger issues for the field in writing multi-media or convergent histories. Among the volume's topics are new media technologies and their impact on traditional approaches to media history; alternative accounts of film production and exhibition, with a special emphasis on film across multiple media platforms; the changing relationships between audiences, fans, and consumers within media culture; and the globalization of our media culture.

Shoot, Edit, Share Kirsten Johnson, Jodi Radosh, 2016-09-13 *Shoot, Edit, Share* is an interactive, accessible introduction to video production techniques, concepts, and terminology. With the increasing availability of affordable video equipment, many students and professionals need to learn the basics of video production without being overwhelmed by technical details and equipment lists. Covering preproduction, production, editing in post, and distribution, this book shows you how to produce video quickly and effectively for a range of clients, from commercial firms to community service organizations. Key features include: A companion website including video interviews with professionals that demonstrate and reinforce techniques covered in the book; Service-learning exercises that engage readers in real-world learning experiences, encouraging them to interact with their

communities and new clients; Clear, easy to follow and heavily illustrated guides for all of the equipment and processes that go into video production; Focus on creating stories for a target audience, and building convincing and engrossing narrative through videos; A thorough breakdown of all the techniques needed in post-production, through editing, well-designed graphics, and quality sound; A best-practices guide to viral videos, sharing video content online and increasing its exposure on social media sites; QR codes throughout the book, that when scanned, demonstrate video techniques and concepts related to what was read.

100 Media Moments That Changed America Jim Willis, 2009-12-09 From the launching of America's first newspaper to YouTube's latest phone-videoed crime, the media has always been guilty of indulging America's obsession with controversy. This encyclopedia covers 100 events in world history from the 17th century to the present—moments that alone were major and minor, but ones that exploded in the public eye when the media stepped in. Topics covered include yellow journalism, the War of the Worlds radio broadcast, the Kennedy-Nixon debates, JFK's assassination, the Pentagon papers, and Hurricane Katrina. These are events that changed the way the media is used—not just as a tool for spreading knowledge, but as a way of shaping and influencing the opinions and reactions of America's citizens. Thanks to the media's representations of these events, history has been changed forever. From classified military plans that leaked out to the public to the first

televised presidential debates to the current military tortures caught on tape, 100 Media Moments That Changed America will demonstrate not only an ever-evolving system of news reporting, but also the ways in which historical events have ignited the media to mold news in a way that resonates with America's public. This must-have reference work is ideal for journalism and history majors, as well as for interested general readers. Chapters are in chronological order, beginning with the 17th century. Each chapter starts with a brief introduction, followed by media event entries from that decade. Each entry explains the moment, and then delivers specific details regarding how the media covered the event, America's response to the coverage, and how the media changed history.

Introduction to Media Production Robert B. Musburger, Gorham Anders Kindem, 2009 Long-standing book on media production brings media production into the digital age!

The Principles of Multimedia Journalism Richard Koci Hernandez, Jeremy Rue, 2015-06-26 In this much-needed examination of the principles of multimedia journalism, experienced journalists Richard Koci Hernandez and Jeremy Rue systemize and categorize the characteristics of the new, often experimental story forms that appear on today's digital news platforms. By identifying a classification of digital news packages, and introducing a new vocabulary for how content is packaged and presented, the authors give students and professionals alike a way to talk about and understand the

importance of story design in an era of convergence storytelling. Online, all forms of media are on the table: audio, video, images, graphics, and text are available to journalists at any type of media company as components with which to tell a story. This book provides insider instruction on how to package and interweave the different media forms together into an effective narrative structure. Featuring interviews with some of the most exceptional storytellers and innovators of our time, including web and interactive producers at the New York Times, NPR, The Marshall Project, The Guardian, National Film Board of Canada, and the Verge, this exciting and timely new book analyzes examples of innovative stories that leverage technology in unexpected ways to create entirely new experiences online that both engage and inform.

Willing's Press Guide, 1994 A guide to the press of the United Kingdom and to the principal publications of Europe, Australia, the Far East, Gulf States, and the U.S.A.

Ephemeral Media Paul Grainge, 2017-10-20 Ephemeral Media explores the practices, strategies and textual forms helping producers negotiate a fast-paced mediascape. Examining dynamics of brevity and evanescence in the television and new media environment, this book provides a new perspective on the transitory, and transitional, nature of screen culture in the early twenty-first century.

Revolutions in Communication Bill Kovarik, 2015-11-19 Revolutions in

Communication offers a new approach to media history, presenting an encyclopedic look at the way technological change has linked social and ideological communities. Using key figures in history to benchmark the chronology of technical innovation, Kovarik's exhaustive scholarship narrates the story of revolutions in printing, electronic communication and digital information, while drawing parallels between the past and present. Updated to reflect new research that has surfaced these past few years, *Revolutions in Communication* continues to provide students and teachers with the most readable history of communications, while including enough international perspective to get the most accurate sense of the field. The supplemental reading materials on the companion website include slideshows, podcasts and video demonstration plans in order to facilitate further reading.

Managing Electronic Media Joan M. Van Tassel, Lisa Poe-Howfield, 2010 The book explains the new vocabulary of media moguls, such as bandwidth, digital rights management, customer relations management, distributed work groups, centralized broadcast operations, automated playlists, server-based playout, repurposing, mobisodes, TV-to-DVD, and content management.

Phototruth Or Photofiction? Thomas H. Wheeler, 2005-05-18 This text examines the use of images in journalistic contexts and the manipulation of these images to accomplish varying objectives. It provides a framework for critical discussion among professionals, educators, students, and concerned consumers of newspapers, magazines, online journals, and other nonfiction media. It

also offers a method of assessing the ethics of mass-media photos, which will help visual journalists to embrace new technologies while preserving their credibility. Phototruth or Photofiction? also: *recounts the invention of photography and how it came to be accorded an extraordinary degree of trust; *details how photos were staged, painted, composited and otherwise faked, long before digital technology; *lists contemporary image-altering products and practices; *details many examples of manipulated images in nonfiction media and lists rationales offered in defense of them; *explains how current ethical principles have been derived; *lays groundwork for an ethical protocol by explaining conventions of taking, processing, and publishing journalistic photos; and *offers tests for assessing the appropriateness of altered images in non-fiction media. Each chapter is followed by Explorations designed to facilitate classroom discussion and to integrate into those interactions the students' own perceptions and experiences. The book is intended for students and others interested in the manipulation of images.

Hand-held Visions DeeDee Halleck, 2002 For almost forty years, DeeDee Halleck has been involved in a variety of projects that involve media making by non-professionals. Her goal has been to develop a critical sense of the potential and limitations of mediated communication through practical exercises that generate a sense of both individual and non-hierarchical group power over the various apparati of media and electronic technology. Hand-Held Visions is a collection of essays, presentations, and lectures that she has

written throughout this process. Halleck starts with a discussion of her own development as a teacher, producer, and an active participant in the struggle for media democracy. She gives the reader a historical first-person perspective on the community-based media movement and a sense of the determination and resolve that have enabled often fragile and much embattled organizations and individuals to survive in a climate dominated by global media corporations that are in direct opposition to their work.

Documentary Media Broderick Fox, 2017-10-12 In a digital moment where both the democratizing and totalitarian possibilities of media are unprecedented, the need for complex, ethical, and imaginative documentary media—for you, the reader of this book to think, question, and create—is vital. Whether you are an aspiring or seasoned practitioner, an activist or community leader, a student or scholar, or simply a curious audience member, author Broderick Fox opens up documentary media, its changing forms, and diversifying social functions to readers in a manner that is at once rigorous, absorbing, and practical. This new edition updates and further explores the various histories, ideas, and cultural debates that surround and shape documentary practice today. Each chapter engages readers by challenging traditional assumptions, posing critical and creative questions, and offering up innovative historical and contemporary examples. Additionally, each chapter closes with an Into Practice section that provides analysis and development exercises and hands-on projects that will assist you in generating a full

project prospectus, promotional trailer, and web presence for your own documentary.

HTI+ Home Technology Integration and CEDIA Installer I All-in-One Exam Guide Ron Gilster, Helen Heneveld, 2004-06-22 The most comprehensive on the job resource for professional installers of home automation technology. This book also provides coverage of both the HTI+ and CEDIA Installer Level I certifications. Features include: •In-depth coverage of home system integration technologies and practices make this book an indispensable working reference. •100% coverage of all exam objectives for CompTIA's HTI+ Certification and CEDIA's Installer Level I exam. •Includes Expert Discussion and Case Study sidebars, and Note, Tip, Exam Tip, and Caution icons highlighting important text throughout the book. •CD-ROM includes 3 practice exams – 2 for each of the HTI+ exams and 1 for the CEDIA Installer Level I exam. The CD-ROM also includes a PDF document of CEDIA's home system planning icons. •Foreword by Ray Lepper, President of CEDIA.

Video Cultures D. Buckingham, R. Willett, 2009-10-09 Over the past decade, there has been a huge increase in ordinary people's access to video production technology. These essays explore the theoretical significance of this trend and its impact on society, as well as examining a wide range of case studies, from camcorders and camera phones to YouTube and citizen journalism.

Media in a Globalized Society Stig Hjarvard, 2003 Enth.: A mediated world :

the globalization of society and the role of media / Stig Hjarvard. Globalisation, Americanisation and politicisation of media research / Daniel Biltereyst. Globalization and national identity in Danish television : the return of the nation / Henrik Søndergaard. Global genre and the complexity of proximity / Hanne Bruun.
