**Legal Cannabis: The Great Social Experiment** Peter M. Birkeland, 2018-06-07 Colorado. Washington. Oregon. Colorado. Since 2012 nine states and DC have legalized cannabis, with more states to follow. Already a \$9.7 billion dollar industry creating hundreds of thousands of new jobs, legal cannabis is not only one of the fastest growing industries, but it is changing the dynamics of American society. Through interviews and fieldwork, Peter M. Birkeland shines a sociological lens on the relevant issues of legal cannabis and investigates the most pressing issues. Who are the cannabis industry participants? What are the costs in running a marijuana business and how much money is generated? Who are the users of cannabis in this newly legal market? What are the challenges in creating a regulatory framework? What has happened to crime, teenage use, and the black market?

Birkeland's book provides a documentary-like account of the emerging cannabis industry in Colorado, the first jurisdiction in the world to legalize cannabis cultivation, manufacturing, and retail sales. Birkeland worked with cannabis business owners, interviewed regulators, policy-makers (including Governor Hickenlooper), industry participants, and opponents to legalization. He attended tradeshows, symposiums, meet-ups, penetrated the black market, and visited communities that have embraced cannabis sales. Through his firsthand experience, interviews and research, Birkeland traces the evolution of the cannabis industry from strictly illegal to legal, and he documents the challenges operators, regulators, and consumers face in the quest to carry out sales of a federally illegal product. Is cannabis legalization a short-lived social experiment, or is it ushering a new era of herbal medicine and recreational use that will transform society? The author uncovers the realities of the newly legal cannabis industry in Colorado, a litmus test for other states considering legalizing cannabis.

**Aunt Sandy's Medical Marijuana Cookbook** Sandy Moriarty, 2011-11-01 Medical edibles have come a long way since the infamous pot brownies that were consumed with crunchy, awful-tasting leaves and stems. Aunt Sandy's Medical Marijuana Cookbook is a collection of recipes by cooking instructor, Sandy Moriarty, who is a professor at Oaksterdam University in Oakland Ca. Oaksterdam University has pioneered training for jobs in the booming marijuana industry. The cookbook is retro in design and content, reminiscent of classic Betty Crocker-type comfort foods. Some of Sandy's favorites include mac and cheese, spicy buffalo wings, and scalloped potatoes. The book visually demonstrates and reveals the process for creating Sandy's 10x Cannabutter. It includes 40 easy-to-prepare, delicious dishes from her signature dessert, Blue Sky Lemon Bars, to the Dizzy Bird Turkey with Stuffing for a festive holiday dinner. The book updates some of the classics with low-calorie, vegetarian, vegan, sugar-free and gluten-free options. Each individual's potency level is different. The author teaches how potency can be adjusted by the amount of plant material used in the butter, oil or tincture. The American Medical Association has now recognized the medical value of marijuana and the federal government has provided medical marijuana to selected medical patients for many years.

*Smokescreen* Kevin A. Sabet, 2021-04-20 From the leading authority on marijuana—a man who has served as White House advisor on drugs to three different administrations and who NBC News once called “the prodigy of drug politics—comes the remarkable and shocking exposé about how 21st century pot, today's new and highly potent form of the drug, is on the rise, spreading rapidly across America by an industry intent on putting rising profits over public health. *Smokescreen: What the Marijuana Industry Doesn't Want You to Know* examines the inside story behind the headlines, containing accounts from Sabet's time in the Obama administration to stunning revelations from whistleblowers speaking out for the first time. What it finds is how the marijuana industry is running rampant without proper oversight, leaving Americans' health seriously at risk. Included are interviews with industry insiders who reveal the hidden dangers of a product they had once worshipped. Also contained in these pages are insights from a major underground-market dealer who admits that legalization is hastening the growth of the illicit drug trade. And more to the heart of the issue are the tragic stories of those who have suffered and died as a result of marijuana use, and in many cases, as a result of its mischaracterization. Readers will learn how power brokers worked behind the scenes to market marijuana as a miracle plant in order to help it gain widespread acceptance and to set the stage for the lucrative expansion of recreational pot. The author of this compelling first-person narrative leading the national fight against the legalization of cannabis through his nonprofit, Smart Approaches to Marijuana (aka SAM) is Kevin Sabet. As a policy advisor to everyone from county health commissioners to Pope Francis, and a frequent public speaker on television, radio and through other media outlets, his analysis is consistently relied upon by those who recognize what's at stake as marijuana lobbyists downplay the risks of massive commercialization. A book several years in the making, filled with vivid characters and informed by hundreds of interviews and scores of confidential documents, Sabet's *Smokescreen* lays bare the unvarnished truth about marijuana in America.

*I Was a Government Licensed Medical-Marijuana Salesman Busted by the Federal Government - My Life Stories* Michael David Aronov, 2000-11-09 This book outlines the many experiences that I have

been faced with in my life from birth to age 48. Several stories are quite comical, others are tragic and sad, but each and every one of them is true. It talks about my experiences with drugs, alcohol and death. It tells of my devotion to my family and to the less fortunate in this world. I have spent countless hours donating my rare blood, platelets, bone marrow and serums. This book tells the reason why I did this all my life, and what I have experienced with several business ventures. My first business was a plumbing company, which I started fresh out of high school. I was in business for over 17 years. I have spent several years managing rock bands, acting, and inventing. My most successful invention Plink, has been on grocery store shelves for over 12 years. I take great pride in what I do and I have always strived for perfection. I believe that persistence is the key to happiness and happiness leads to prosperity. Although I am not a rich man, I have been very successful in my life. I have owned 13 brand new cars, 3 Harley Davidson motorcycles, 5 boats, 5 houses, 4 vacant lots, 38 used cars, and I have had 56 jobs. Many of my success stories are described in detail throughout my book. The most interesting part of my book is my experience with my most recent company, Arizona Company Medical. Through Arizona Company Medical, I spent 3 years of my life furnishing Medical-Marijuana to hundreds of patients around the USA who were suffering from AIDS, Multiple Sclerosis, Cancer, Migraines, Anorexia, Glaucoma and many other diseases. Medical-Marijuana can be prescribed to ease the pain and suffering that accompanies these diseases. Also included in my book is the true story of how I was issued a Cannabis and Controlled Substance Dealers License from the Arizona Department of Revenue, how the Federal Government collected taxes from the money I made in my business, but then busted me for distributing the same substance that I was licensed for. Details of my business and the Medical-Marijuana bust are outlined in my story. Also included are several real letters from patients who were customers of Arizona Company Medical, who wrote to me to inform me of their progress now that they have the appropriate access to their much needed medication, Medical-Marijuana. My goal is to work towards the legalization of Medical-Marijuana across the USA, and to get the proper help to those that need this medicine. May the Medical-Marijuana movement win the rights for the fight for the people of this great nation.
