10% Happier Dan Harris, 2014-03-11 #1 New York Times Bestseller REVISED WITH NEW MATERIAL
Winner of the 2014 Living Now Book Award for Inspirational Memoir An enormously smart, clear-eyed, brave-hearted, and quite personal look at the benefits of meditation. —Elizabeth Gilbert Nightline anchor Dan Harris embarks on an unexpected, hilarious, and deeply skeptical odyssey through the strange worlds of spirituality and self-help, and discovers a way to get happier that is truly achievable. After having a nationally televised panic attack, Dan Harris knew he had to make some changes. A lifelong nonbeliever, he found himself on a bizarre adventure involving a disgraced pastor, a mysterious self-help guru, and a gaggle of brain scientists. Eventually, Harris realized that the source of his problems was the very thing he always thought was his greatest asset: the incessant, insatiable voice in his head, which had propelled him through the ranks of a hypercompetitive business, but had also led him to make the profoundly stupid decisions that provoked his on-air freak-out. Finally, Harris stumbled upon an effective way to rein in that voice, something he always assumed to be either impossible or useless: meditation, a tool that research suggests can do everything from lower your blood pressure to essentially rewire your brain. *10% Happier* takes readers on a ride from the outer reaches of neuroscience to the inner sanctum of network news to the bizarre fringes of America's spiritual scene, and leaves them with a takeaway that could actually change their lives.

Waking Up Sam Harris, 2014-09-09 For the millions of Americans who want spirituality without religion, Sam Harris's latest New York Times bestseller is a guide to meditation as a rational practice informed by neuroscience and psychology. From Sam Harris, neuroscientist and author of numerous New York Times bestselling books, *Waking Up* is for the twenty percent of Americans who follow no religion but who suspect that important truths can be found in the experiences of such figures as

Jesus, the Buddha, Lao Tzu, Rumi, and the other saints and sages of history. Throughout this book, Harris argues that there is more to understanding reality than science and secular culture generally allow, and that how we pay attention to the present moment largely determines the quality of our lives. *Waking Up* is part memoir and part exploration of the scientific underpinnings of spirituality. No other book marries contemplative wisdom and modern science in this way, and no author other than Sam Harris—a scientist, philosopher, and famous skeptic—could write it.

Meditation for Fidgety Skeptics Dan Harris, Jeffrey Warren, Carlye Adler, 2017-12-26 THE NEW YORK TIMES BESTSELLER FROM THE AUTHOR OF 10% HAPPIER Too busy to meditate? Can't turn off your brain? Curious about mindfulness but more comfortable in the gym? This book is for you. You'll also get access to guided audio meditations on the 10% Happier app, to jumpstart your practice from day one. ABC News anchor Dan Harris used to think that meditation was for people who collect crystals, play Ultimate Frisbee, and use the word "namaste" without irony. After he had a panic attack on live television, he went on a strange and circuitous journey that ultimately led him to become one of meditation's most vocal public proponents. Harris found that meditation made him more focused and less yanked around by his emotions. According to his wife, it also made him less annoying. Science suggests that the practice can lower your blood pressure, mitigate depression and anxiety, and literally rewire key parts of the brain. So what's holding you back? In *Meditation for Fidgety Skeptics*, Harris and Jeff Warren, a masterful teacher and "Meditation MacGyver," embark on a gonzo cross-country quest to tackle the myths, misconceptions, and self-deceptions that keep people from meditating. It is filled with game-changing and deeply practical meditation instructions—all of which are also available (for free) on the 10% Happier app. This book is a trip worth taking. Praise for *Meditation for Fidgety Skeptics* "If you're intrigued by meditation but don't know how to begin—or

you've benefited from meditation in the past but need help to get started again—Dan Harris has written the book for you. Well researched, practical, and crammed with expert advice, it's also an irreverent, hilarious page-turner.”—Gretchen Rubin, author of The Happiness Project “The ABC News anchor, a ‘defender of worrying’ who once had an anxiety attack on air, offers a hilarious and stirring account of his two-steps-forward-one-step-back campaign to sort ‘useless rumination’ from ‘constructive anguish’ via mindfulness, along with invaluable suggestions for following in his footsteps.”—O: The Oprah Magazine

Dropping Ashes on the Buddha Stephen Mitchell, 2007-12-01 The classic guide for Zen students pursuing the true way. "Somebody comes into the Zen center with a lighted cigarette, walks up to the Buddha-statue, blows smoke in its face and drops ashes on its lap. You are standing there. What can you do?" This is a problem that Zen Master Seung Sahn was fond of posing to his American students who attended his Zen centers. *Dropping Ashes on the Buddha* is a delightful, irreverent, and often hilariously funny living record of the dialogue between Korean Zen Master Seung Sahn and his American students. Consisting of dialogues, stories, formal Zen interviews, Dharma speeches, and letters using the Zen Master's actual words in spontaneous, living interaction, this book is a fresh presentation of the Zen teaching method of "instant dialogue" between Master and student which,

through the use of astonishment and paradox, leads to an understanding of ultimate reality.

The Tapping Solution Nick Ortner,2013-04-02 Nick Ortner, founder of the Tapping World Summit and best-selling filmmaker of *The Tapping Solution*, is at the forefront of a new healing movement. In

his upcoming book, *The Tapping Solution*, he gives readers everything they need to successfully start using the powerful practice of tapping – or Emotional Freedom Techniques (EFT). Tapping is one of the fastest and easiest ways to address both the emotional and physical problems that tend to hamper our lives. Using the energy meridians of the body, practitioners tap on specific points while focusing on particular negative emotions or physical sensations. The tapping helps calm the nervous system to restore the balance of energy in the body, and in turn rewire the brain to respond in healthy ways. This kind of conditioning can help rid practitioners of everything from chronic pain to phobias to addictions. Because of tapping's proven success in healing such a variety of problems, Ortner recommends to try it on any challenging issue. In *The Tapping Solution*, Ortner describes not only the history and science of tapping but also the practical applications. In a friendly voice, he lays out easy-to-use practices, diagrams, and worksheets that will teach readers, step-by-step, how to tap on a variety of issues. With chapters covering everything from the alleviation of pain to the encouragement of weight loss to fostering better relationships, Ortner opens readers' eyes to just how powerful this practice can be. Throughout the book, readers will see real-life stories of healing ranging from easing the pain of fibromyalgia to overcoming a fear of flying. The simple strategies Ortner outlines will help readers release their fears and clear the limiting beliefs that hold them back from creating the life they want.

Wearable Gadgets and Technology for Meditation Joy Bose, Siva Prasad Bose, 2023-07-09
Meditation is as old as mankind. It needs almost no props, save a cushion, some instructions and an intent to meditate. It gives a number of benefits ranging from increased happiness, stress relief, a better immune system, better concentration, enhanced quality of life and so on. Some might even say it gives insight into the nature of things as they really are. We live in the technology age, where life is

more fast paced than ever before and there exist a range of distractions. Many would say technology has made us more disconnected from nature and from the real world. However, technology can also be used as a tool for aiding meditation or enhancing the meditation and well-being experience, partly thanks to the variety of technologies such as EEG, tDCS, PEMF, binaural beats that can be leveraged in wearable devices. In this book, we explore a variety of wearable gadgets and apps that can help in meditation and enhancing well-being and happiness. We also share the authors' experience in using some of these apps and gadgets. It is hoped that learning about these will encourage the readers to try out some of them, and utilize them to improve their own meditation.

Unwinding Anxiety Judson Brewer, 2021-03-09 New York Times and Wall Street Journal
bestseller A step-by-step plan clinically proven to break the cycle of worry and fear that drives anxiety and addictive habits We are living through one of the most anxious periods any of us can remember. Whether facing issues as public as a pandemic or as personal as having kids at home and fighting the urge to reach for the wine bottle every night, we are feeling overwhelmed and out of control. But in this timely book, Judson Brewer explains how to uproot anxiety at its source using brain-based techniques and small hacks accessible to anyone. We think of anxiety as everything from mild unease to full-blown panic. But it's also what drives the addictive behaviors and bad habits we use to cope (e.g. stress eating, procrastination, doom scrolling and social media). Plus, anxiety lives in a part of the brain that resists rational thought. So we get stuck in anxiety habit loops that we can't think our way out of or use willpower to overcome. Dr. Brewer teaches us to map our brains to discover our triggers, defuse them with the simple but powerful practice of curiosity, and to train our brains using mindfulness and other practices that his lab has proven can work. Distilling more than 20 years of research and hands-on work with thousands of patients, including Olympic athletes and coaches, and leaders in government and business, Dr. Brewer has created a clear, solution-oriented program that anyone can use to feel better - no matter how anxious they feel.
