Understanding Aleister Crowley's Thoth Tarot Lon Milo Duquette, 2017-09-01 Originally published in 2003, *Understanding Aleister Crowley's Thoth Tarot* has proved to be the essential guide to accessing the unique symbolism and meaning of Aleister Crowley's remarkable tarot deck along with the deeply textured artwork of Lady Frieda Harris. Crowley authority Lon Milo Duquette starts by providing an insightful historical background before delving into descriptions of each card in depth, from a tarot perspective and from an expanded, magickal point of view. He first describes the tarot meaning of each card in detail and then explains all the other attributions Crowley intended. This unique guide has been updated with a new introduction that provides information on the unicursal hexagram cards included with the deck but never explained. Replaces ISBN 9781578632763

Electronic Circuit Design Nihal Kularatna, 2017-12-19 With growing consumer demand for portability and miniaturization in electronics, design engineers must concentrate on many additional aspects in their core design. The plethora of components that must be considered requires that engineers have a concise understanding of each aspect of the design process in order to prevent bug-laden prototypes. *Electronic Circuit Design* allows engineers to understand the total design process and develop prototypes which require little to no debugging before release. It provides step-by-step instruction featuring modern components, such as analog and mixed signal blocks, in each chapter. The book details every aspect of the design process from conceptualization and specification to final implementation and release. The text also demonstrates how to utilize device data sheet information and associated application notes to design an electronic system. The hybrid nature of electronic system design poses a great challenge to engineers. This book equips electronics designers with the practical knowledge and tools needed to develop problem free prototypes that are ready for release.
