At one point or another, every woman has had to fake it—how else would we get everything done in a mere twenty-four hours? Fake It makes all those time-sucking tasks—such as doing the laundry, baking a homemade dessert for a school fundraiser, and maintaining a socially acceptable level of personal hygiene—seem effortless. With more than 100 shortcuts and wonderfully constructed white lies, you'll be able to fake it all, including: An immaculate bathroom when the in-laws visit Flawless skin for that big night out Liking a crappy dinner at a friend's house A tidy car on carpool day Knowing the answer to your client's question And yes, of course, faking an orgasm So whether you're asked for your opinion about a stomach-turning outfit, really not feeling it in bed, or just too tired to clean the house, Fake It will give you the foolproof advice you need to get through all of life's situations.

**Megan Fox** Kathleen Tracy,2011-08 Megan Fox is the poster child for empowered women: she's part glamour girl and part action-adventure heroine. Outspoken and controversial, Fox has a disarming sense of humor about herself and is the first to admit she has yet to prove herself a serious actress. Despite her movie star looks, life wasn't always easy for Fox. Born and raised in a very strict Tennessee family, Fox was bullied so badly in school she started eating her lunch while hiding in a bathroom stall. Being an outcast in school prompted her to put all her energies into performing. She appeared in her first movie at sixteen and never looked back. Within five years she was starring opposite Shia LaBeouf in Transformers, the movie that made her a star and one of the most photographed women in the world. This book recounts her journey from the hills of Tennessee to international fame and reveals the girl-next-door side of Fox rarely seen.

*M Is for Mama* Abbie Halberstadt,2022-02-01 A PUBLISHER'S WEEKLY BESTSELLER Mama of ten Abbie Halberstadt helps women humbly and gracefully rise to the high calling of motherhood without settling for mediocrity or losing their minds in the process. Motherhood is a challenge. Unfortunately, our worldly culture offers moms little in the way of real help. Mamas only connect to celebrate surviving another day and to share in their misery rather than rejoice in what God has done and to build each other up in hard times. There has to be a better way, a biblical way, for mamas to grow and thrive. As a daughter of Christ, you have been called to be more than an average mama. Attaining excellence doesn't have to be unsettling but it will take committed focus and a desire to parent well according to God's grace and for His glory. M is for Mama offers advice, encouragement, and scripturally sound strategies seasoned with a little bit of humor to help you embrace the challenge of biblical motherhood and raise your children with love and wisdom. Mama, you are worthy of the awesome responsibility God has given you. Now it's time to start believing you can live up to it.

*The Colour Code* Paul Simpson,2021-10-07 How is The Colour Code different to other books on colour? Well, the short answer is that it is a whole lot more fun - not least because it is extensively illustrated. We don't just get a story about Mummy Brown (the pigment made from Egyptian mummies), we see a painting created with pigments from the remains of French kings. We are reminded of the blue/gold dress that swept Twitter, view paintings by Mondrian (red ones sell for higher prices) and Van Eyck (he invented an enduring green), and inspect the red soles of Louboutin shoes. We see what lumps of Indian yellow look like, while reading what they are made of (strained cow's urine). We get to see the latest most vibrant pigment - YinMn Blue - and have a real estate agent's tour of Frank Sinatra's ranch (he was obsessed by orange). We see William Morris's arsenic-inflected wallpapers and hear about whether wallpaper killed Napoleon. We encounter the pink pussy hats worn on the Women's March and Elvis's pink jackets from Lansky's in Memphis, take in a history of the black dress from Audrey Hepburn to Princess Diana and a rare black chicken (even its eggs are black) from Indonesia. Featuring a cast of actors, artists, chemists, composers, dentists, dictators, fashion designers, film-makers, gods, musicians, mystics, physicists, poets, quacks, tigers and tycoons, The Colour Code will change the way we all perceive the spectrum - and see the world.

**Oceana** Ted Danson,Michael D'Orso,2011-03-15 Most people know Ted Danson as the affable bartender Sam Malone in the long-running television series *Cheers*. But fewer realize that over the course of the past two and a half decades, Danson has tirelessly devoted himself to the cause of heading off a looming global catastrophe—the massive destruction of our planet's oceanic biosystems and the complete collapse of the world's major commercial fisheries. In *Oceana*, Danson details his journey from joining a modest local protest in the mid-1980s to oppose offshore oil drilling near his Southern California neighborhood to his current status as one of the world's most influential oceanic environmental activists, testifying before congressional committees in Washington, D.C.; addressing the World Trade Organization in Zurich, Switzerland; and helping found Oceana, the largest organization in the world focused solely on ocean conservation. In his incisive, conversational voice, Danson describes what has happened to our oceans in just the past half-century, ranging from the ravages of overfishing and habitat destruction to the devastating effects of ocean acidification and the wasteful horrors of fish farms. Danson also shares the stage of *Oceana* with some of the world's most respected authorities in the fields of marine science, commercial fishing, and environmental law, as well as with other influential activists. Combining vivid, personal prose with an array of stunning graphics, charts, and photographs, *Ocean* powerfully illustrates the impending crises and offers solutions that may allow us to avert them, showing you the specific courses of action you can take to become active, responsible stewards of our planet's most precious resource—its oceans.

**Space Sirens, Scientists and Princesses** Dean Conrad,2018-06-07 Women are now central to many science fiction films—but that has not always been the case. Female characters, from their token presence (or absence) in the silent pictures of the early 20th century to their roles as assistants, pulp princesses and sexy robots, and eventually as scientists, soldiers and academics, have often struggled to be seen and heard in a genre traditionally regarded as of men, by men and for men. Surveying more than 650 films across 120 years, the author charts the highs and lows of women's visibility in science fiction's cinematic history through the effects of two world wars, social and cultural upheavals and advances in film technology.
