Replace Your Mortgage Michael Lush,David Dutton,2016-04-21 If you could pay off your mortgage in even a third of the time instead of waiting thirty years to pay it off, wouldn't you want to know how to do that? It's possible with the right home loan. While it may seem unbelievable, it comes down to math and a little education that banks prefer homeowners not know about. Michael Lush has spent fifteen years as a mortgage originator helping consumers get into their dream home. After speaking to a wealthy mentor of his, he then stumbled across how the wealthy finance their homes using lines of credit. Along with his co-author, David Dutton, Lush now teaches future homeowners, present homeowners as well as successful real estate investors how to use a simple home equity line of credit to pay off a home in 5-7 years. In this book you will learn: - The case against a mortgage from a 15 year mortgage veteran. - Why making extra payments on a mortgage vs a HELOC is still slower and also locks your money up until you sell your home. - 2 important reasons why this strategy isn't more well known. - How to pay off a home faster even if you have very little equity. - 5 powerful resources that will help you get started quickly to becoming mortgage free. - Pros and Cons of a HELOC - The deadly mistakes homeowners make when using a HELOC - How to build a real estate empire. - How to buy a vacation home and pay it off quickly (See chapter 9) Before you even think about signing on for a thirty year mortgage, you owe it to yourself to read this book as well as check out their popular Youtube channel.

New Money Lana Swartz,2020-08-18 A new vision of money as a communication technology that creates and sustains invisible--often exclusive--communities In an engaging and timely work, brimming with fascinating anecdotes and historical and literary references, Lana Swartz brilliantly illustrates how financial technologies are quietly transforming how we socialize and what it means to belong.--Jonathan Zittrain, author of *The Future of the Internet: And How to Stop It* One of the basic structures of everyday life, money is at its core a communication media. Payment systems--cash, card, app, or Bitcoin--are informational and symbolic tools that integrate us into, or exclude us from, the society that surrounds us. Examining the social politics of financial technologies, Lana Swartz reveals what's at stake when we pay. This accessible and insightful analysis comes at a moment of disruption: from fin-tech startups to cryptocurrencies, a variety of technologies are poised to unseat traditional financial infrastructures. Swartz explains these changes, traces their longer histories, and demonstrates their consequences. She shows just how important these invisible systems are. Getting paid and paying determines whether or not you can put food on the table. The data that payment produces is uniquely revelatory--and newly valuable. New forms of money create new forms of identity, new forms of community, and new forms of power.

Damn Lucky Kevin Maurer,2022-04-19 From Kevin Maurer—the #1 New York Times bestselling, award-winning coauthor of *No Easy Day*—comes the true story of a World War II bomber pilot who survived twenty-five missions in *Damn Lucky*, “an epic, thrillingly written, utterly immersive account of a very lucky, incredible survivor of the war in the skies to defeat Hitler” (New York Times bestselling author Alex Kershaw). “We were young citizen-soldiers, terribly naive and gullible about what we would be confronted with in the air war over Europe and the profound effect it would have upon every fiber of our being for the rest of our lives. We were all afraid, but it was beyond our power to quit. We volunteered for the service and, once trained and overseas, felt we had no choice but to fulfill the mission assigned. My hope is that this book honors the men with whom I served by telling the truth about what it took to climb into the cold blue and fight for our lives over and over again.” —John “Lucky” Luckadoo, Major, USAF (Ret.) 100th Bomb Group (H) Pearl Harbor, Hawaii was a world away from John Luckadoo’s hometown of Chattanooga, Tennessee. But when the Japanese attacked the American naval base on December 7, 1941, he didn’t hesitate to join the military. Trained as a pilot with the United States Air Force, Second Lieutenant Luckadoo was assigned to the 100th Bomb Group stationed in Thorpe Abbots, England.

Between June and October 1943, he flew B-17 Flying Fortresses over France and Germany on bombing runs devised to destroy the Nazi war machine. With a shrapnel torn Bible in his flight jacket pocket and his girlfriend’s silk stocking around his neck like a scarf as talismans, Luckadoo piloted through Luftwaffe machine-gun fire and antiaircraft flak while enduring subzero temperatures to complete twenty-five missions and his combat service. The average bomber crew rarely survived after eight to twelve missions. Knowing far too many airmen who wouldn’t be returning home, Luckadoo closed off his emotions and focused on his tasks to finish his tour of duty one moment at a time, realizing his success was more about being lucky than being skilled. Drawn from Luckadoo’s firsthand accounts, acclaimed war correspondent Kevin Maurer shares his extraordinary tale from war to peacetime, uncovering astonishing feats of bravery during the bloodiest military campaign in aviation history, and presenting an incredible portrait of a young man’s coming-of-age during the world’s most devastating war.

Managing E-discovery and ESI Michael Berman,Paul W. Grimm,Courtney Ingraffia Barton,2011 The legal landscape, and litigation, have changed markedly in the last decade.This book identifies the key issues related to ESI--pre-litigation management, preservation, collection, processing, review, production, and use in deposition and at trial-- and provides clear, practical guidance to litigators. The book is divided into eight parts that follow the sequence from the pre-litigation stage through trial.
