Middle-schooler Jamie Grimm faces bullies and self-doubt as he chases his dream of becoming the world's greatest comedian Jamie Grimm is a middle schooler on a mission: he wants to become the world's greatest standup comedian--even if he doesn't have a lot to laugh about these days. He's new in town and stuck living with his aunt, uncle, and their evil son Stevie, a bully who doesn't let Jamie's wheelchair stop him from messing with Jamie as much as possible. But Jamie doesn't let his situation get him down. When his Uncle Frankie mentions a contest called The Planet's Funniest Kid Comic, Jamie knows he has to enter. But are the judges only rewarding him out of pity because of his wheelchair, like Stevie suggests? Will Jamie ever share the secret of his troubled past instead of hiding behind his comedy act? Prepare to laugh and cheer along with Jamie in this highly-illustrated, heartfelt middle school story.

The Selfish Gene Richard Dawkins,1989 Science need not be dull and bogged down by jargon, as Richard Dawkins proves in this entertaining look at evolution. The themes he takes up are the concepts of altruistic and selfish behaviour; the genetical definition of selfish interest; the evolution of aggressive behaviour; kinshiptheory; sex ratio theory; reciprocal altruism; deceit; and the natural selection of sex differences. 'Should be read, can be read by almost anyone. It describes with great skill a new face of the theory of evolution.' W.D. Hamilton, Science

*DreamWorks Animation* Sam Summers,2020-06-30 DreamWorks is one of the biggest names in modern computer-animation: a studio whose commercial success and impact on the medium rivals that of Pixar, and yet has received far less critical attention.The book will historicise DreamWorks' contribution to feature animation, while presenting a critical history of the form in the new millennium. It will look beyond the films' visual aesthetics to assess DreamWorks' influence on the narrative and tonal qualities which have come to define contemporary animated features, including their use of comedy, genre, music, stars, and intertextuality. It makes original interventions in the fields of film and animation studies by discussing each of these techniques in a uniquely animated context, with case studies from Shrek, Antz, Kung Fu Panda, Madagascar, Shark Tale, Bee Movie, Trolls and many others. It also looks at the unusual online afterlife of these films, and the ways in which they have been reappropriated and remixed by subversive online communities.

*Boy's Club* Matt Furie,2016 The perpetually insouciant glaze of his characters belies the sharp verbal and visual wit of Furie, who delivers a stoner classic for the Tumblr generation. In fact, Furie's wildly popular teenage weirdos became an overnight internet sensation when Pepe the Frog was widely adopted by users of 4chan and remixed ad infinitum from there (including uses by pop stars like Nicki Minaj and Katy Perry), giving Boy's Club built-in recognition with many.

Pass the Energy, Please! Barbara Shaw McKinney,2000-03-01 Learning becomes

fun with this book about the food chain and transfer of energy connecting all life on earth. Amazing artwork will inspire children in classrooms and at home to appreciate the world around us and feel part of it all. Each of nature's creatures passes the energy in its own unique way. In this upbeat rhyming story, the food chain connects herbivores, carnivores, insects and plants together in a fascinating circle of players. All beings on Earth from the anchovy to the zooplankton depend upon the green plant, which is the hero of the story. Barbara McKinney's special talent shines again (see also *A Drop Around the World*) for being able to present the science curriculum so concisely, creatively, and cleverly. Great for anyone looking for books: to teach kids about the food web and transfer of energy. that make learning fun for kids home schooling!

**Post Memes** Daniel Bristow, Alfie Bown, 2019 Art-form, send-up, farce, ironic disarticulation, pastiche, propaganda, trololololol, mode of critique, mode of production, means of politicisation, even of subjectivation - memes are the inner currency of the internet's circulatory system. Independent of any one set value, memes are famously the mode of conveyance for the alt-right, the irony left, and the apoliticals alike, and they are impervious to many economic valuations: the attempts made in co-opting their discourse in advertising and big business have made little headway, and have usually been derailed by retaliative meming. *POST MEMES: SEIZING THE MEMES OF PRODUCTION* takes advantage of the meme's subversive adaptability and ripeness for a focused, in-depth study. Pulling together the interrogative forces of a raft of thinkers at the forefront of tech theory and media dissection, this collection of essays paves a way to articulating the semiotic fabric of the early 21st century's most prevalent means of content posting, and aims at the very seizing of the memes of production for the imagining and creation of new political horizons. With contributions from Scott and McKenzie Wark, Patricia Reed, Jay Owens, Thomas Hobson and Kaajal Modi, Dominic Pettman, Bogna M. Konior, and Eric Wilson, among others, this essay volume offers the freshest approaches available in the field of memes studies and inaugurates a new kind of writing about the newest manifestations of the written online. The book aims to become the go-to resource for all students and scholars of memes, and will be of the utmost interest to anyone interested in the internet's most viral phenomenon. *ABOUT THE EDITORS* ALFIE BOWN is the author of several books including *The Playstation Dreamworld* (Polity, 2017) and *In the Event of Laughter: Psychoanalysis, Literature and Comedy* (Bloomsbury, 2018). He is also a journalist for the Guardian, the Paris Review, and other outlets. DAN BRISTOW is a recovering academic, a bookseller, and author of *Joyce and Lacan: Reading, Writing, and Psychoanalysis* (Routledge, 2016) and *2001: A Space Odyssey and Lacanian Psychoanalytic Theory* (Palgrave, 2017). He is also the co-creator with Alfie Bown of *Everyday Analysis*, now based at New Socialist magazine.

The World Made Meme Ryan M. Milner, 2018-04-13 How memetic media—aggregate texts that are collectively created, circulated, and transformed—become a part of public conversations that shape broader cultural debates. Internet memes—digital snippets that can make a joke, make a point, or make a connection—are now a lingua franca of online life. They are collectively created, circulated, and transformed by countless users across vast networks. Most of us have seen the cat playing the piano, Kanye interrupting, Kanye interrupting the cat playing the piano. In *The World Made Meme*, Ryan Milner

argues that memes, and the memetic process, are shaping public conversation. It's hard to imagine a major pop cultural or political moment that doesn't generate a constellation of memetic texts. Memetic media, Milner writes, offer participation by reappropriation, balancing the familiar and the foreign as new iterations intertwine with established ideas. New commentary is crafted by the mediated circulation and transformation of old ideas. Through memetic media, small strands weave together big conversations. Milner considers the formal and social dimensions of memetic media, and outlines five basic logics that structure them: multimodality, reappropriation, resonance, collectivism, and spread. He examines how memetic media both empower and exclude during public conversations, exploring the potential for public voice despite everyday antagonisms. Milner argues that memetic media enable the participation of many voices even in the midst of persistent inequality. This new kind of participatory conversation, he contends, complicates the traditional culture industries. When age-old gatekeepers intertwine with new ways of sharing information, the relationship between collective participation and individual expression becomes ambivalent. For better or worse—and Milner offers examples of both—memetic media have changed the nature of public conversations.

Memes in Digital Culture Limor Shifman, 2013-10-04 Taking “Gangnam Style” seriously: what Internet memes can tell us about digital culture. In December 2012, the exuberant video “Gangnam Style” became the first YouTube clip to be viewed more than one billion times. Thousands of its viewers responded by creating and posting their own variations of the video—“Mitt Romney Style,” “NASA Johnson Style,” “Egyptian Style,” and many others. “Gangnam Style” (and its attendant parodies, imitations, and derivations) is one of the most famous examples of an Internet meme: a piece of digital content that spreads quickly around the web in various iterations and becomes a shared cultural experience. In this book, Limor Shifman investigates Internet memes and what they tell us about digital culture. Shifman discusses a series of well-known Internet memes—including “Leave Britney Alone,” the pepper-spraying cop, LOLCats, Scumbag Steve, and Occupy Wall Street's “We Are the 99 Percent.” She offers a novel definition of Internet memes: digital content units with common characteristics, created with awareness of each other, and circulated, imitated, and transformed via the Internet by many users. She differentiates memes from virals; analyzes what makes memes and virals successful; describes popular meme genres; discusses memes as new modes of political participation in democratic and nondemocratic regimes; and examines memes as agents of globalization. Memes, Shifman argues, encapsulate some of the most fundamental aspects of the Internet in general and of the participatory Web 2.0 culture in particular. Internet memes may be entertaining, but in this book Limor Shifman makes a compelling argument for taking them seriously.

**Internet Memes and Society** Anastasia Denisova, 2019-03-21 This book provides a solid, encompassing definition of Internet memes, exploring both the common features of memes around the globe and their particular regional traits. It identifies and explains the roles that these viral texts play in Internet communication: cultural, social and political implications; significance for self-representation and identity formation; promotion of alternative opinion or trending interpretation; and subversive and resistant power in relation to professional media, propaganda, and traditional and digital political

campaigning. It also offers unique comparative case studies of Internet memes in Russia and the United States.

**Media and Cultural Studies** Meenakshi Gigi Durham, Douglas M.

Touretti Spaghetti Kevin Paterson, 2015-07-18 Adam has Tourette's. All he wants are the things that everyone else takes for granted; a career, a girlfriend, and a family. But even those closest to him don't know how to treat him. His mother wraps him up in cotton wool, his father doesn't understand him, and his brother disowns him in public. The only person who sees him for who he is, and not just his condition is life long best friend Noel. Touretti Spaghetti follows Adam through ten years of his life as he struggles to fit in at school, university and life in general. It is the story of his pursuit of the normality he craves so much.

*The Protestant Reformation* Thomas S Preston, 2023-07-18 Preston provides an overview of the causes, events, and consequences of the Protestant Reformation, which had a profound impact on European history. He discusses key figures such as Martin Luther, John Calvin, and Henry VIII, and examines the religious and political conflicts that resulted from the Reformation. Racism without Racists Eduardo Bonilla-Silva, 2006-08-03 In this book, Bonilla-Silva explores with systematic interview data the nature and components of post-civil rights racial ideology. Specifically, he documents the existence of a new suave and apparently non-racial racial ideology he labels color-blind racism. He suggests this ideology, anchored on the decontextualized, ahistorical, and abstract extension of liberalism to racial matters, has become the organizational matrix whites use to explain and account for racial matters in America.

*Cybertypes* Lisa Nakamura, 2013-09-13 First published in 2002. In *Cybertypes*, Lisa Nakamura turns a sour assumption that the Net is color-blind on its head. Examining all facets of everyday web-life, she shows that racial and ethnic stereotypes, or 'cybertypes' are hardwired into our online interactions:

Identity tourists masquerade in chat rooms as Asian\_Geisha or Alatiniolover. Web directories sharply delimit racial categories. Anonymous computer users are assumed to be white. Lively, provocative, Cybertypes takes up computer relationship between race, ethnicity and technology and offers a candid and nuanced understanding of identity in the information age.

*The Discursive Power of Memes in Digital Culture* Bradley E. Wiggins, 2019-02-25 Shared, posted, tweeted, commented upon, and discussed online as well as off-line, internet memes represent a new genre of online communication, and an understanding of their production, dissemination, and implications in the real world enables an improved ability to navigate digital culture. This book explores cases of cultural, economic, and political critique levied by the purposeful production and consumption of internet memes. Often images, animated GIFs, or videos are remixed in such a way to incorporate intertextual references, quite frequently to popular culture, alongside a joke or critique of some aspect of the human experience. Ideology, semiotics, and intertextuality coalesce in the book's argument that internet memes represent a new form of meaning-making, and the rapidity by which they are produced and spread underscores their importance.

**Cultures and Traditions of Wordplay and Wordplay Research** Esme Winter-Froemel, Verena Thaler, 2018-10-22 The book series is dedicated to the study of the multifaceted dynamics of wordplay as an interface phenomenon. The contributions aim to bring together approaches from various disciplines and present case studies on different communicative settings, including everyday language and literary communication, and thus offer fresh perspectives on wordplay in the context of linguistic innovation, language contact, and speaker-hearer-interaction. La collection vise à analyser la diversité de la dynamique du jeu de mots en tant que phénomène d'interface. Les contributions réunissent les approches de différentes disciplines et présentent des études de cas de situations de communication variées, incluant tant le langage quotidien que la communication littéraire. Ainsi, elles offrent de nouvelles perspectives sur le jeu de mots dans le contexte de l'innovation linguistique, du contact linguistique, et de l'interaction locuteur-interlocuteur. Editorial Board: Salvatore Attardo (Texas A&M University Commerce, USA), Dirk Delabastita (Université de Namur, Belgium), Dirk Geeraerts (Katholieke Universiteit Leuven, Belgium), Raymond W. **Racial Formation in the United States** Michael Omi, Howard Winant, 2014-06-20 Twenty years since the publication of the Second Edition and more than thirty years since the publication of the original book, *Racial Formation in the United States* now arrives with each chapter radically revised and rewritten by authors Michael Omi and Howard Winant, but the overall purpose and vision of this classic remains the same: Omi and Winant provide an account of how concepts of race are created and transformed, how they become the focus of political conflict, and how they come to shape and permeate both identities and institutions. The steady journey of the U.S. toward a majority nonwhite population, the ongoing evisceration of the political legacy of the early post-World War II civil rights movement, the initiation of the 'war on terror' with its attendant Islamophobia, the rise of a mass immigrants rights

movement, the formulation of race/class/gender 'intersectionality' theories, and the election and reelection of a black President of the United States are some of the many new racial conditions Racial Formation now covers.

**Bad Luck Charlie** Scott Baron, 2019-03-13 A space engineer is sucked through a wormhole to a distant galaxy, where magic is common, and technology is viewed as alien spells.
