**American Girls and Global Responsibility** Jennifer Helgren,2017-04-17 American Girls and Global Responsibility brings together insights from Cold War culture studies, girls’ studies, and the history of gender and militarization to shed new light on how age and gender work together to form categories of citizenship. Jennifer Helgren argues that a new internationalist girl citizenship took root in the country in the years following World War II in youth organizations such as Camp Fire Girls, Girl Scouts, YWCA Y-Teens, schools, and even magazines like Seventeen. She shows the particular ways that girls’ identities and roles were configured, and reveals the links between internationalist youth culture, mainstream U.S. educational goals, and the U.S. government in creating and marketing that internationalist girl, thus shaping the girls’ sense of responsibilities as citizens.

**The Memo** Minda Harts,2019-08-20 From microaggressions to the wage gap, The Memo empowers women of color with actionable advice on challenges and offers a clear path to success. Most business books provide a one-size-fits-all approach to career advice that overlooks the unique barriers that women of color face. In The Memo, Minda Harts offers a much-needed career guide tailored specifically for women of color. Drawing on knowledge gained from her past career as a fundraising consultant to top colleges across the country, Harts now brings her powerhouse entrepreneurial experience as CEO of The Memo to the page. With wit and candor, she acknowledges ugly truths that keep women of color from having a seat at the table in corporate America. Providing straight talk on how to navigate networking, office politics, and money, while showing how to make real change to the system, The Memo offers support and long-overdue advice on how women of color can succeed in their careers.

*Working Girls* Katherine Mullin,2016-05-05 Working Girls: Fiction, Sexuality, and Modernity investigates the significance of a new form of sexual identity at the end of the nineteenth and beginning of the twentieth century. Young women of the lower-middle and working classes were increasingly abandoning domestic service in favour of occupations of contested propriety. They inspired both moral unease and erotic fascination. Working Girls considers representations of four highly glamorised yet controversial types of women worker: telegraphists and typists (in newly-feminised offices), shop assistants (in the new department stores), and barmaids (in the new 'gin palaces' of major British cities). Economically emancipated (more or less) and liberated (more or less) from the protection and constraints of home and family, shop-girls, barmaids, typists, and telegraphists became mass media sensations. They energised a wide range of late-Victorian and Modernist fiction. This study will bring late-Victorian and Modernist British writers into intimate conversation with a substantial new archive of ephemeral sources often regarded as remote from high art and its concerns: popular fiction; music hall and musical comedy; beauty pageants and fairground exhibitions; visual art and early film; careers manuals; magazine and periodical journalism; moral reform crusades, Royal Commissions, and attempts at protective legislation. Working Girls argues that these seductive yet perilous young women helped writers negotiate anxieties about the state of literary culture in the United Kingdom. Crucially, they preoccupy novelists who were themselves beleaguered by anxieties over cultural capital, the shifting pressures of the literary marketplace, or controversies about the morality of fiction (often leading to the threat of censorship). In articulating questions about sexual integrity, Working Girls articulate often submerged questions about textual integrity and the role of the modern novel.

*The Zaza Kurds of Turkey* Mehmed S. Kaya,2011-05-30 Turkey, at the very intersection of Europe and the Middle East, comprises a plethora of ethnicities and minority groups. There is however very little official data about many of its chief minorities. The Zazas are one such group: a Kurdish people speaking the Zaza dialect, and living as a distinct people in the eastern Anatolian provinces. Originally followers of Zoroastrianism from c.700 BC, over the centuries the Zazas converted, often by force, to Sunni Islam or Alevism, which remain the key faiths of the Zazas today. While many Zazas have migrated to Turkey's major cities and beyond, the majority of the population remain in rural eastern Anatolia and have retained a society and culture largely untouched by the influences of the modern world. Mehmet S. Kaya here provides a thorough investigation of all aspects of Zaza life, including kinship, economy, culture, identity, gender relations, patriarchy and religion. His fieldwork among local communities in the Zaza area, together with insights drawn from the Kurdish and Turkish media, sheds light upon the ways in which this Middle Eastern minority has maintained its way of life and cultural identity. He observes the ways in which the Zazas govern their problems and conflicts outside of official legal administration and courts; the factors which make Zaza society adhere in the absence of formal authority; and the role of religion in daily Zaza life. Kaya also examines the concept of the Zazas as a 'stateless' people, and looks at the issue of the oppression of minority ethnic identities in the context of Turkish nationalism. The Zaza Kurds of Turkey provides access to the world of a little-known people who have so far been largely neglected in the academic literature. This important study will be of interest to the fields of Middle East Studies, Islamic Studies, Anthropology, and Minority and Diaspora Studies.

because some fool told her there were good bananas there. Classic Yoshiko.

**The Ex-Debutante** Linda Francis Lee,2008-04 When Carlisle Wainwright Cushing left her native Texas to start a new life in Boston, she had no regrets. The former Texas debutante, who never felt at home in her Southern skin, had found liberation--or so she thought. Until the day she gets an urgent call from her mother, reporting that: one, the Symphony Association Debutante Ball, which Carlisle's family has sponsored for years, is about to be called off; Two, her mother's divorce has the whole town talking; And three, the family's good name is at stake and Carlisle is the only one who can fix it all. So Carlisle takes a leave of absence from her law firm and goes to Texas to help. Her fiance, who has no idea she's an heiress, can't know that she's organizing the ball, handling the dramas of the girls involved, settling her mother's suit--and coming face to face with the true love of her life, whom she ran out on when she left Texas. Her trip home challenges Carlisle's sense of herself and brings the pieces of her past together, so that when she finally re-meets the man of her dreams, she's in a perfect place to tempt fate.

**Gender, Participation and Citizenship in the Netherlands** Jet Bussemaker,Rian Voet,2019-01-15 Published in 1998, this is an edited volume of papers on the theme of participation and citizenship for women. It focuses particularly on the necessary conditions for full participation of women as citizens within a modern liberal democracy. For this question it takes the Netherlands as an interesting case study, because it shows the need for a close connection between social and political participation. The editors aim to draw together often separate discussions about citizenship in international literature - a political-theoretical discussion of democracy and a social-policy discussion on the welfare state. The papers address issues including the labour market, public goods, welfare laws, affirmative action programmes and future development for girls. The book also develops the interrelation of social and political participation from the perspective of citizenship. It relates information on the Dutch case study to international comparative research on democracy and welfare states, as well as to broader international discussions on gender and citizenship.

**Repositioning Educational Leadership** James H. Lytle,Susan L. Lytle,Michael C. Johanek,Kathy J. Rho,2018-09-07 This book will demonstrate that when leaders pose previously unnamed problems, and find ways to bring together working groups of students, principals, central office administrators, school faculties, parents, and/or members of the community for joint inquiry, it is more likely that new, effective solutions can be found through participatory processes of rethinking educational practices, categories, policies, and expectations. The argument is that when school, district, and other educational leaders position themselves as inquirers, their leadership can illuminate and improve many aspects of institutional life and create intellectually demanding and rich learning environments - for both adults and children--
