The Palgrave Handbook of Critical Menstruation Studies Chris Bobel,Inga T. Winkler,Breanne Fahs,Katie Ann Hasson,Elizabeth Arveda Kissling,Tomi-Ann Roberts,2020-07-24 This open access handbook, the first of its kind, provides a comprehensive and carefully curated multidisciplinary and genre-spanning view of the state of the field of Critical Menstruation Studies, opening up new directions in research and advocacy. It is animated by the central question: “what new lines of inquiry are possible when we center our attention on menstrual health and politics across the life course?” The chapters—diverse in content, form and perspective—establish Critical Menstruation Studies as a potent lens that reveals, complicates and unpacks inequalities across biological, social, cultural and historical dimensions. This handbook is an unmatched resource for researchers, policy makers, practitioners, and activists new to and already familiar with the field as it rapidly develops and expands.

Teenagers, Sexual Health Information and the Digital Age Kerry Mckellar,Elizabeth Sillence,2020-01-06 *Teenagers, Sexual Health Information and the Digital Age* examines the online resources available on teenagers, including games and digital interventions. In addition, it highlights current issues such as sexting and pornography. Information needs and provisions are examined, and existing sexual health interventions and digital interventions are discussed, gathering both teenagers’ and sexual health professionals’ views on these services. In addition to a review of the current literature on sexual health and teenagers, the book examines groups of teenagers, particularly those vulnerable to risky sex and asks what are the predictors of these behaviors and what can be done to address the behaviors. Finally, the book will also provide reflections and practical advice on the ethical issues associated with research in this context. Provides guidance on the ethical issues with research associated with this topic Covers both teenagers’ information needs as well as their existing levels of knowledge Assesses how teenagers engage with, and evaluate, sexual health information Addresses the challenges inherent in the online environment, such as unreliable and misleading information

Seeing Red Kirsten Karchmer, 2019-11-12 A world-renowned women's health expert reveals a bold, practical, and data-driven handbook for menstrual periods that provides an easy-to-navigate roadmap for improving your reproductive health—and your everyday quality of life. We've been lied to about periods. PMS, cramping, bloating, migraines, irritability, and anxiety may be extremely common, but contrary to popular belief, they aren't normal. And they certainly aren't "just part of being a woman," despite the fact that this is what we've been told time and time again—by friends, family, and even doctors. After dedicating her entire clinical career to deconstructing the menstrual cycle, women's health expert Kirsten Karchmer knows better. During her more than twenty years of research and treating thousands of patients, Karchmer found that most period problems women experience—even the most painful ones—are totally correctable and more surprisingly reflective of overall health and fertility. In this forthright, spirited, and all-encompassing guide, Karchmer draws on her decades' worth of experience as a women's health expert to break down the myths so many women have been led to believe about their periods. For the more than 82 million women in the world who suffer from menstrual conditions, Seeing Red explains the importance of a healthy menstrual cycle (and how to achieve it) and why it is important to the women's movement. Menstrual cycles are not a curse, but an instrument providing women with one of the most

valuable, regularly occurring, and free diagnostic tools they have, giving them access to unprecedented health and power.

Estrogen's Storm Season Jerilynn C. Prior, 2017 This fiction book begins as eight frustrated midlife women-from all walks of life-meet Dr. Kailey Madrona, a woman specialist. All are in perimenopause, the long and chaotic transition to menopause. They are as different as women can be-yet they share the mysterious experiences of perimenopause, night sweats, flooding periods or mood swings. We follow these women as they consult Dr. Madrona, learn the surprising hormonal changes explaining their symptoms, get better or worse, and try or refuse therapies. As each woman lives through her particular challenge, we begin to see how we, too, can survive perimenopause! Dr. Jerilynn Prior tells the story of women in perimenopause through a unique blend of storytelling and scientific fact.--

Womancode Alisa Vitti, 2013 Alisa Vitti found herself suffering through the symptoms of polycystic ovarian syndrome (PCOS), and was able to heal herself through food and lifestyle changes. Relieved and reborn, she made it her mission to empower other women to be able to do the same. As she says, 'Hormones affect everything. Have you ever struggled with acne, oily hair, dandruff, dry skin, cramps, headaches, irritability, exhaustion, constipation, irregular cycles, heavy bleeding, clotting, shedding hair, weight gain, anxiety, insomnia, infertility, lowered sex drive, or bizarre food cravings and felt like your body was just irrational?' With this breadth of symptoms, improving hormonal health is a goal for women at every stage of their lives Alisa Vitti says that medication and anti-depressants aren't the only solutions. The thousands of women she has treated in her Manhattan clinic know the power of her process that focuses on uncovering your unique biological make up. Groundbreaking and informative, WomanCode educates women about hormone health in a way that's relevant and easy to understand. Bestselling author and women's health expert Christiane Northrup, who has called WomanCode the 'Our Bodies, Ourselves of this generation', provides an insightful foreword.

Reclaiming Our Health John Robbins, 1998 The author calls for a revolution in health care, criticizing its hostility to alternative medicine and its bias against women.

Freezing Fertility Lucy van de Wiel, 2020-12-15 Welcomed as liberation and dismissed as exploitation, egg freezing (oocyte cryopreservation) has rapidly become one of the most widely-discussed and influential new reproductive technologies of this century. In Freezing Fertility, Lucy van de Wiel takes us inside the world of fertility preservation—with its egg freezing parties, contested age limits, proactive anticipations and equity investments—and shows how the popularization of egg freezing has profound consequences for the way in which female fertility and reproductive aging are understood, commercialized

and politicized. Beyond an individual reproductive choice for people who may want to have children later in life, Freezing Fertility explores how the rise of egg freezing also reveals broader cultural, political and economic negotiations about reproductive politics, gender inequities, age normativities and the financialization of healthcare. Van de Wiel investigates these issues by analyzing a wide range of sources—varying from sparkly online platforms to heart-breaking court cases and intimate autobiographical accounts—that are emblematic of each stage of the egg freezing procedure. By following the egg’s journey, Freezing Fertility examines how contemporary egg freezing practices both reflect broader social, regulatory and economic power asymmetries and repoliticize fertility and aging in ways that affect the public at large. In doing so, the book explores how the possibility of egg freezing shifts our relation to the beginning and end of life.

Own Your Period Chella Quint, 2021-09-28 Having a period is an incredible thing – Own Your Period celebrates what the body can do and provides young people (age 9+) with everything they need to be prepared... and empowered. This fact-filled guide to periods is bursting with positive, honest advice on managing and understanding menstruation, covering every aspect of periods as well as lots of advice on puberty and growing up in a warm, friendly and reassuring way. Topics covered include the fascinating science behind why things happen, with all the details of menstruation through to the menopause explained, as well as answers to all essential questions like what’s a vulva and what does it look like, what do periods actually feel like, and what happens if blood stains your clothes? The NaPro Technology Revolution Thomas W. Hilgers MD, 2011-03-01 Dr. Thomas W. Hilgers draws on decades of medical experience to provide educational and revolutionary insights into the world of women's health. The NaPro Technology Revolution provides real solutions to real problems such as infertility, repetitive miscarriage, menstrual cramps, postpartum depression, PMS, prematurity prevention, ovarian cysts, hormonal abnormalities, irregular/abnormal bleeding, chronic discharges, polycystic ovarian disease, and family planning. Hilgers sheds light on abnormal ovarian function, an issue that millions of women unknowingly suffer from. His methods have proven to assist infertile couples nearly three times more successfully than those who use In Vitro Fertilization, without the dangers of early abortions, frozen embryos, or high rates of multiple pregnancy. The NaProTechnology Prematurity Prevention Program cuts the rate from the national 12.7% to 7%. The NaPro Technology Revolution discusses what every woman has a right to know about her body, her health, and her future!

Science and Babies Institute of Medicine, Suzanne Wymelenberg, 1990-02-01 By all indicators, the reproductive health of Americans has been deteriorating since 1980. Our nation is troubled by rates of teen pregnancies and newborn deaths that are worse than almost all others in the Western world. Science and Babies is a straightforward presentation of the major reproductive issues we face that suggests answers for the public. The book discusses how the clash of opinions on sex and family planning prevents us from making a national commitment to reproductive health; why people in the United States have fewer contraceptive choices than those in many other countries; what we need to do to improve social and medical services for teens and people living in poverty; how couples should shop for a fertility service and make consumer-wise decisions; and what we can expect in the future—featuring interesting accounts of potential scientific advances.
