The Last Lecture Randy Pausch,2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

Wonderful World of Percussion: My Life Behind Bars Emil Richards ,Tom Di Nardo, During a span of 55 years, Emil Richards has been a renowned presence in Hollywood soundstages, recording studios, jazz clubs and international touring venues. Considered a supreme artist on the vibraphone, marimba and xylophone, as well as a master of his world-famous collection of percussion instruments, Richards is renowned throughout the world for his versatility. This book’s lifetime of insightful and hilarious experiences include years with Frank Sinatra and George Harrison, as well as many anecdotes involving Burt Bacharach, Elvis Presley and Ravi Shankar, as well as most major recording artists. Richards’ chronology roughly categories the book’s chapters into decades, with the 1960s mainly involving album recording, television shows in the ‘70s and films in the ‘80s and ‘90s. A parallel career means stories emanating through playing with George Shearing, Paul Horn, Stan Kenton and Roger Kellaway, as well as Igor Stravinsky and Richards’ own group Calamari. There are warm recollections of the great film composers, including Henry Mancini, Alex North, Jerry Goldsmith and John Williams, who all collaborated at finding a unique sound at Richards’ warehouse before composing. Salad bowls used in “Planet Of The Apes,” gongs lowered into fluid for space movies and many other unusual sonic effects will flash readers back to decades of favorite movies. From an astonishing family history and grim days growing up in Hartford, Connecticut, through wild

tours with Sinatra to Europe, Japan and Egypt, and visits to the Maharishi in India, Richards' entertaining, direct style perfectly complements this wealth of inside experiences.

Honor My Father Clint Nye, 2019-07-31 Honor My Father is a true story of how college men came to the US Navy as reservists, instructed by the officers from Annapolis, and teamed together. It brings their many personal stories of interactions with my dad (Air Defense Commander), serving on two destroyers (USS Bancroft & USS Goodrich) with the naming of their actual crew members. My story honors these silent, humble heroes. Thirty Benson-class destroyers were built from 1938 to 1943 and were the most vulnerable in the sea, protecting the fleet. The officers and crews earned 174 Battle Star Citations, one Presidential Citation and two Navy Unit Commendations posthumously. The last section of my true story about Dad, Comedy of Adolescence; describes how as a new professor, working on his Ph.D. this writer entered his teenage years while the two of us moved from the city of Chicago to the small town of Athens, Ohio. After his war experiences, he experienced nothing like the big guns going off in his ear until the hard pounding drums from my new rock and roll band!

'Telling It Real' My Memories and Experiences Darren R. Harris,

Saving Bletchley Park Sue Black, Stevyn Colgan, 2016-03-10 Imagine a Britain where the most important sites of historical significance are replaced with housing estates and supermarkets... Imagine a Britain without Bletchley Park, where Alan Turing and a team of code breakers changed the course of World War II and where thousands of women inspired future generations with their work in the fields of computing and technology... Now imagine a group of extraordinary people, who – seventy years after the birth of the modern computer at Bletchley Park – used technology to spark a social media campaign that helped secure its future and transform it into the world-class heritage and education centre it deserves to be. This is a story about saving Bletchley Park. But it is also the story of the hundreds of people who dedicated twenty years of hard work and determination to the campaign that saved it. It is a testament to the remarkable and mysterious work during World War II that made it a place worth saving. It is a book about campaigners, veterans, enthusiasts, computer geeks, technology, Twitter, trees and Stephen Fry stuck in a lift. And finally, it is a

story about preserving the past for the generations of tomorrow.
