**The Paradise Bank** Edwin Green,Sara Kinsey,2018-04-20 The Mercantile Bank of India was one of a small band of British-managed banks which dominated Anglo-Eastern finance for most of the 20th century. Founded in London in 1893, the Mercantile inherited the business, branches, staff and even the distinctive cable address - Paradise, London - of its forerunner the Chartered Mercantile Bank of India, London and China. In the early 1900s the Mercantile Bank re-established a strong and quietly successful business in the East. After the First World War the Mercantile played a prominent part in banking development in Malaya. In addition to maintaining its support for the trade of the Indian sub-continent, the bank also enjoyed success in Shanghai. Like its major rivals, the Hongkong Bank, Chartered Bank and the National Bank of India, the Mercantile Bank suffered grievously during the Second World War. In the post-war world it needed both to adapt to massive political change throughout the East and to diversify into new markets and new types of business. In 1959 the Mercantile became a subsidiary of the Hongkong Bank and this book explores the complex, high-level negotiations in London and the East which preceded the acquisition. Although the Mercantile Bank was fully absorbed in 1984 by the Hongkong Bank (now part of the HSBC Group), its history, business and personnel remained an important thread in the traditions of the enlarged group. This history deploys the extensive and colourful archives of the Mercantile Bank, together with the memoirs of former officials and their families. The book is plentifully illustrated from the photograph collections of the Mercantile Bank and former members of its staff.

*Crisis Banking in the East* Stuart Muirhead,1996-01-01 The Chartered Mercantile Bank was the forerunner of the Mercantile Bank, which became part of The Hongkong and Shanghai Banking Corporation in 1959. This study charts its first 40 years when it was one of the pioneering banks of the Far East, becoming the leading exchange bank in India and South East Asia while always retaining its head office in the pivotal London market. Based upon meticulous research using a particularly rich set of banking archives, *Crisis Banking in the East* describes the complex political and financial circumstances on the subcontinent during the bank's early years and introduces the personalities in the Indian business and London banking worlds who guided the infant institution. The volatility of local markets is analysed, including portraits of the banks and merchant houses which did not survive the many financial crises in the East. The book provides a vivid inside view of the workings of an Eastern bank - the nature of its business, methods of payment and exchange, and recruitment and career patterns of staff - and includes valuable new material on the role of European bankers in an Eastern setting.

**Crisis Banking in the East** Stuart Muirhead,Edwin Green,2016-12-05 The Chartered Mercantile Bank is one of the constituent banks of the huge Hongkong and Shanghai bank. This study charts its first 40 years as one of the pioneering banks of the Far East. The Chartered Mercantile became the leading exchange bank in India and South East Asia whilst always retaining its head office in the pivotal London market. Based upon meticulous research using a particularly rich set of banking archives, the book describes the complex political and financial circumstances on the subcontinent during the bank's early years and introduces the personalities in the Indian business and London banking worlds who guided the infant institution. The volatility of local markets is analysed, with portraits of the banks and merchant houses which did not survive the many financial crises in the East also included. This book will do much to remedy the lack of existing research into international finance, and Eastern banking in particular, in the 19th century. It provides an inside view of the workings of an Eastern bank - the nature of its business, methods of payment and exchange, recruitment and career patterns of staff, and includes valuable new material on the role of European bankers in an eastern setting.
