**Hold Please** Annie Weisman, 2004 THE STORY: No men are onstage, but their presence is felt everywhere in this office comedy for the new millennium. Two generations of women, career secretaries in their forties and entry-level assistants in their twenties, gather in the break room

English History Made Brief, Irreverent, and Pleasurable Lacey Baldwin Smith, 2012-05-15 Here at last is a history of England that is designed to entertain as well as inform and that will delight the armchair traveler, the tourist or just about anyone interested in history. No people have engendered quite so much acclaim or earned so much censure as the English: extolled as the Athenians of modern times, yet hammered for their self-satisfaction and hypocrisy. But their history has been a spectacular one. The guiding principle of this book's heretical approach is that history is not everything that happened, but what is worth remembering about the past... . Thus, its chapters deal mainly with Memorable History in blocks of time over the centuries. The final chapter The Royal Soap Opera, recounts the achievements, personalities and idiocies of the royal family since the arrival of William the Conqueror in 1066. Spiced with dozens of hilarious cartoons from Punch and other publications, English History will be a welcome and amusing tour of a land that has always fascinated Anglophiles and Anglophobes alike.

Mrs Farnsworth A. R. Gurney, 2004 Typescript, dated March 21, 2004. The play opened March 7, 2004, at Flea Theater, New York, N.Y. with a cast led by Sigourney Weaver and John Lithgow, directed by Jim Simpson.

Alger Hiss's Looking-glass Wars G. Edward White, 2004 Integrates the diverse details of Alger Hiss's life--from his upper middle-class upbringing and Harvard success to his role as a martyr to McCarthyism--to present intriguing evidence that Hiss, contrary to popular opinion, was indeed a Soviet spy, limning a remarkable portrait of a man whose life was devoted to perpetuating a lie.

**Code** Lawrence Lessig, 2016-09-19 There's a common belief that cyberspace cannot be regulated--that it is, in its very essence, immune from the government's (or anyone else's) control. Code, first published in 2000, argues that this belief is wrong. It is not in the nature of cyberspace to be unregulable; cyberspace has no nature. It only has code--the software and hardware that make cyberspace what it is. That code can create a place of freedom--as the original architecture of the Net did--or a place of oppressive control. Under the influence of commerce, cyberspace is becoming a highly regulable space, where behavior is much more tightly controlled than in real space. But

that's not inevitable either. We can-we must-choose what kind of cyberspace we want and what freedoms we will guarantee. These choices are all about architecture: about what kind of code will govern cyberspace, and who will control it. In this realm, code is the most significant form of law, and it is up to lawyers, policymakers, and especially citizens to decide what values that code embodies. Since its original publication, this seminal book has earned the status of a minor classic. This second edition, or Version 2.0, has been prepared through the author's wiki, a web site that allows readers to edit the text, making this the first reader-edited revision of a popular book.

**The Castro Gene** Todd Buchholz,2007-05-15 The Castro Gene is seamless, suspenseful and shocking. After killing a man in the ring, Luke Braden quits boxing. While toiling as a security guard and yearning to reinvent himself, Luke is swept up into the high-flying domain of Paul Tremont. Tremont, the hottest hedge fund hand around, has a penchant for the dramatic and a disquieting need to control. Being Tremont's protege has its perks-Luke trades in his ratty basement apartment for a penthouse view, his gym clothes for designer suits. But there are strings attached, and Tremont is pulling those strings. Why does Tremont need a washed-up boxer? The answer lies not in what Luke is, but who he is. Luke Braden is the only man who can execute Tremont's diabolical scheme. Fidel Castro risks one last trip to the U.S., and one man will be forced to stand in his way. Luke Braden is in for the fight of his life - or the fight for his life. Intricately plotted with unexpected twists and breathtaking turns, The Castro Gene is a knockout.

**City Lights Stories** A. Collection of Stories by Regenerate,2013-05 You are holding a collection of stories, the aim of this collection is to equip and inspire you to make a positive impact in your own community, through relationships and creative initiatives. In this material, you will read about Dave and Will who developed gardens on wasteland in inner city London council estates, encouraging residents to be part of the process of renewal and creativity by growing plants and vegetables. Will hosts community harvest feasts, bringing together local residents to eat their own locally-grown produce. Andy in his 20s, started a lunch club for isolated elderly people, rallying his student friends to help serve homemade meals in a borrowed church hall. Pauline responded to a news bulletin about the lack of housing for refugees and asylum seekers, by setting up homes across North London to provide safe housing. Annie set up regular meals in her church building for homeless people and rough sleepers. Mark started a football club for local lads from an estate in London, most of whom were from extremely difficult backgrounds and not in education or employment. Countless others have weeded gardens for families referred by social services, mentored children in foster care and painted a wall in a refuge. Abroad, Mick and Ruby moved into an inner city slum community in the heart of Manilla for 9 years with their young children. At the heart of City Lights are stories and friendships. **GI Jews** Deborah Dash MOORE,Deborah Dash Moore,2009-06-30 Over half a million Jews entered the U.S. Armed Forces during the Second World War. They joined every branch of the military and saw action on all fronts. Author Moore describes the struggles these GI Jews faced, having to battle not only the enemy but also the prejudices of their fellow soldiers. Through memoirs, oral histories, and letters, Moore charts the lives of fifteen young Jewish men as they faced military service and tried to make sense of its demands. From confronting pork chops to enduring

front-line combat, from the temporary solace of Jewish worship to harrowing encounters with death camp survivors, we come to understand how these soldiers wrestled with what it meant to be an American and a Jew. These men challenged perceptions of Jews as simply victims of the war, and encouraged Jews throughout the diaspora to fight for what was right.--From publisher description.

**Ranches of Colorado** John Fielder, James Meadow, 2009 For two years, acclaimed Colorado nature photographer John Fielder turned his large format camera in the direction of fifty of the state's most beautiful working ranches. 375 color photographs of 50 ranches. Essays based on interviews with 10 ranch families.

**In Fond Remembrance of Me** Howard Norman, 2006-01-24 Howard Norman spent the fall of 1977 in Churchill, Manitoba, translating into English two dozen Noah stories told to him by an Inuit elder. The folktales reveal what happened when the biblical Noah sailed his Ark into Hudson Bay in search of woolly mammoths and lost his way. By turns startling, tragic, and comical, these inimitable narratives tell the history of the Arctic and capture the collision of cultures precipitated by the arrival of a hapless stranger in a strange land. Norman himself was then a stranger in a strange land, but he was not alone. In Churchill he encountered Helen Tanizaki, an Anglo-Japanese woman embarked on a similar project--to translate the tales into Japanese. An extraordinary linguist and an exact and compelling friend, Tanizaki became Norman's guide through the characters, stories, and customs he was coming to know, and a remarkable intimacy sprang up between them--all the more intense because it was to be fleeting; Tanizaki was fatally ill. Through a series of overlapping panels of reality and memory, Howard Norman's In Fond Remembrance of Me recaptures with vivid immediacy a brief but life-shifting encounter and the earthy, robust stories that occasioned it.

Leaving the Saints Martha Nibley Beck, 2006 Growing up within the narrow confines of the Mormon Church, bestselling author Martha Beck was raised in a home frequented by the Church's high elders. After Adam, her second child, was born with Down's syndrome, she and her husband left their graduate programmes at Harvard to return to Martha's hometown of Provo, Utah, where they knew the supportive Mormon community would embrace them. But after Martha began teaching at Brigham Young University, she began to recall horrific memories of childhood sexual abuse at the hands of one of the Church's most respected leaders. This book chronicles her difficult decision to sever her relationship with the faith that had raised her, and to confront and forgive the person who betrayed her so deeply.
