Lost Cedar Rapids Peter D. Looney,2020-08-24 Cedar Rapids is the only city in America to house its government offices on an island. But tons of other iconic structures that defined the city are no longer around. The Little Gallery on First Avenue was created to showcase local artists. Yager's moved up to bring prices down. The area was home to thirty-nine theaters, including two from 1928 that are still in operation. From the hotels to the factories, the ethnic districts to the depots, the dance halls to the amusement parks, these are the places that made a difference in the City of Five Seasons. Local author Pete Looney traces the history of the structures.

US Army Long-Range Patrol Scout in Vietnam 1965-71

Gordon L. Rottman,2013-02-20 The Vietnamese knew the Long-Range Patrol Scouts as “the men with green faces,” a reference to the camouflage paint that they used. Operating in patrols of four

to six men these men were like ghosts – scouting far behind enemy lines. This book examines the Long-Range Patrol Scout's superior stealth movement techniques, camouflage and concealment, tracking, counter-tracking, observation, and other fieldcraft skills. It also examines the occasions they participated in small-scale direct actions including ambushes and raids. Written by a Special Forces' Vietnam veteran, this book not only depicts the remarkable lives of these scouts when on campaign, but also details the training and conditioning that it took to become one of these shadow warriors.

StarBriefs Plus Andre Heck, 2004-03-31 With about 200,000 entries, StarBriefs Plus represents the most comprehensive and accurately validated collection of abbreviations, acronyms, contractions and symbols within astronomy, related space sciences and other related fields. As such, this invaluable reference source (and its companion volume, StarGuides Plus) should be on the reference shelf of every library, organization or individual with any interest in these areas. Besides astronomy and associated space sciences, related fields such as aeronautics, aeronomy, astronautics, atmospheric sciences, chemistry, communications, computer sciences, data processing, education, electronics, engineering, energetics, environment, geodesy, geophysics, information handling, management, mathematics, meteorology, optics, physics, remote sensing, and so on, are also covered when justified. Terms in common use and/or of general interest have also been included where appropriate.
