The Messenger (Project Planetary Exploration) Juan L Rodriguez Kuilan,2022-02-03 Throughout our history as human beings, we have been questioning ourselves, and what you are about to read is based on my own dreams, visions, and premonitions. Also based on true historical events throughout the history of humanity. Here you will find answers to many questions that lots of humans have been asking themselves for thousands of years throughout our history as human beings. There is something that has been hidden from us, and lots of us know already that we are not alone in this vast universe. I can tell you that we as humans are not alone here on planet Earth. We have lived our entire life in a multidimensional world, and who are the ones that control this multidimensional world? Inside you will find your answer. Also the type of experiments that have been conducted with humans, animals, and extraterrestrial life, not here on our planet Earth, but in the moon. What is our purpose as human beings here on planet Earth, and why was it given to us in our life here on this planet, which does not exist anywhere else in other planets in our vast universe? There is an Antichrist that will rule this planet in about twenty-five years from now. Where is our science compared to our technology today that we can say that our science is at the bottom, way below our technology, but there is about a million kids between the ages of five and eighteen that will change all that in about seven to fifteen years from now. Our science will be up there with our technology, and they will work with each other to revolutionize the entire way of life of humanity. Lastly, there are three questions that humanity has been asking for thousands of years, and those are Who are we? Where do we come from? and Where are we going from here? It is up to you to find that answer in the purpose in your life.

Practical Cues and Social Spectacle in the Chester Plays Matthew Sergi,2020-11-13 Amid the crowded streets of Chester, guild players portraying biblical characters performed on colorful mobile stages hoping to draw the attention of fellow townspeople. In the fifteenth and sixteenth centuries, these Chester plays employed flamboyant live performance to adapt biblical narratives. But the original format of these fascinating performances remains cloudy, as surviving records of these plays are sparse, and the manuscripts were only written down a generation after they stopped. Revealing a vibrant set of social practices encoded in the Chester plays, Matthew Sergi provides a new methodology for reading them and a transformative look at medieval English drama. Carefully combing through the plays, Sergi seeks out cues in the dialogues that reveal information about the original staging, design, and acting. These “practical cues,” as he calls them, have gone largely unnoticed by drama scholars, who have focused on the ideology and historical contexts of these plays, rather than the methods, mechanics, and structures of the actual performances. Drawing on his experience as an actor and director, he combines close readings of these texts with fragments of records, revealing a new way to understand how the Chester plays brought biblical narratives to spectators in the noisy streets. For Sergi, plays that once appeared only as dry religious dramas come to life as raucous participatory spectacles filled with humor, camp, and devotion.

Starry Messenger Ira Hauptman,2011 In Starry Messenger we witness the effects of Galileo's ordeals on his family and his family's role in his decision to renounce his discoveries. Cardinals Borgia and Zacchia of the Inquisition warn Galileo not to try to prove that the earth revolves around the sun. Galileo's illegitimate son, Vincenzo, presses him to obey the church so he can be legitimized. Galileo's brilliant daughter Virginia, a nun, also urges him to obey the church. Nonetheless, he is determined to publish his discoveries. His daughter Livia, also a nun, seems to be possessed by demons. She has a vision of the destructive forces that science will unleash in the future, including the atom bomb. But Galileo remains committed to scientific truth. The Inquisition condemns him but will spare him if he recants. His protégé, Castelli, is certain he never will and encourages his death as a martyr. Virginia, dying, pleads with him to give her life meaning by recanting and returning to the church. He makes his fateful decision, sacrificing his science for his daughter. Galileo publicly recants but cries out that the earth does move.

The Complete Aeschylus : Volume II: Persians and Other Plays Aeschylus,Peter Burian Professor of Classical and Comparative Literature and Theater Studies Duke University,Chapel Hill Alan Shapiro Distinguished Professor of English and Creative Writing University of North Carolina,2009-02-17 Based on the conviction that only translators who write poetry themselves can properly re-create the celebrated and timeless tragedies of Aeschylus, Sophocles, and Euripides, the Greek Tragedy in New Translations series offers new translations that go beyond the literal meaning of the Greek in order to evoke the poetry of the originals. The volume brings together four major works by one of the great classical dramatists: Prometheus Bound, translated by James Scully and C. John Herrington, a haunting depiction of the most famous of Olympian punishments; The Suppliants, translated by Peter Burian, an extraordinary drama of flight and rescue arising from women's resistance to marriage; Persians, translated by Janet Lembke and C. John Herrington, a masterful telling of the Persian Wars from the view of the defeated; and Seven Against Thebes, translated by Anthony Hecht and Helen Bacon, a richly symbolic play about the feuding sons of Oedipus. These four tragedies were originally available as single volumes. This new volume retains the informative introductions and explanatory notes of the original editions and adds a single combined glossary and Greek line numbers.

How to Teach a Play Miriam Chirico,Kelly Younger,2020-01-09 Most students encounter drama as they do poetry and fiction – as literature to be read – but never experience the performative nature of theater. How to Teach a Play provides new strategies for teaching dramatic literature and offers practical, play-specific exercises that demonstrate how performance illuminates close reading of the text. This practical guide provides a new generation of teachers and theatre professionals the tools to develop their students' performative imagination. Featuring more than 80 exercises, How to Teach a Play provides teaching strategies for the most commonly taught plays, ranging from classical through contemporary drama. Developed by contributors from a range of disciplines, these exercises reveal the variety of practitioners that make up the theatrical arts; they are written by playwrights, theater directors, and artistic directors, as well as by dramaturgs and drama scholars. In bringing together so many different perspectives, this book highlights the distinctive qualities that makes theater such a dynamic genre. This collection offers an array of proven approaches for anyone teaching drama: literature and theater professors; high school teachers; dramaturgs and directors. Written in an accessible and jargon-free style, both instructors and directors can immediately apply the activity to the classroom or rehearsal. Whether you specialize in drama or only teach a play every now and again, these exercises will inspire you to modify, transform, and reinvent your own role in the dramatic arts. The Performance Tradition of the Medieval English University Thomas Meacham,2020-01-20 This is a truly paradigm-shifting study that reads a key text in Latin Humanist studies as the culmination, rather than an early example, of a tradition in university drama. It persuasively argues against the common assumption that there was no drama in the medieval universities until the syllabus was influenced by humanist ideas, and posits a new way of reading the performative dimensions of fourteenth and fifteenth-century university education in, for example, Ciceronian tuition on epistolary delivery. David Bevington calls it an impressively learned discussion and commends the sophistication of its use of performativity theory.
