Paul Dale Anderson

Running Out of Time Paul Dale Anderson, 2016-09-16 John Morgan is a hired assassin. John, 42, is employed by Sam Adams, a retired military and CIA operative who now owns a private security firm in Franklin Park, Illinois. When John is targeted for assassination in a parking garage at O'Hare Airport, he has no time to think. He responds automatically, twenty years of intense training activating muscle memory, and he takes weapons away from the twelve assassins and kills them all in a life-and-death shootout. John survives despite overwhelming odds, a debilitating shoulder wound, and surveillance by persons unknown who hacked into the Chicago Police Department's security camera network. While John is recuperating from shoulder surgery at the company's private clinic, two additional teams of assassins destroy Sam Adams' company headquarters in an old factory building a block away from the clinic and then attack the clinic. Sam and 43 other company employees were in the building when it exploded. Despite being weak from loss of blood and woozy from the effects of morphine, John and another assassin, code-named Jimmy Carter, travel across country in a desperate attempt to thwart a conspiracy that could destroy the world.

1000 Ideas for Creative Reuse Garth Johnson, 2009-11-01 Artists have always been recyclers. This gallery of work made from repurposed materials is both a visual delight and a source of ideas for crafters (Library Journal). Artists and crafters have always been recyclers at heart, but in recent decades, it's become not only a thrifty choice but a moral imperative for many. 1000 Ideas for Creative Reuse contains a cutting-edge collection of the most inventive work being made with reused, upcycled, and already existing materials. Exciting and inspiring, the work in this book ranges from clever and humble personal accessories to unique and important large-scale works of art, including paper art, fashion, jewelry, housewares, interiors, and installations.

Fort Niagara Patricia Kay Scott, William Edward Utley, 2023-08-27 Fort Niagara is located at the northern mouth of the Niagara River about twelve miles from Niagara Falls. This scenic river and world-famous tourist area, which is now shared by the United States and Canada, was Iroquois territory in the 18th century being fought over by France and England. Fort Niagara: The British Occupation 1759-1796 dramatically portrays how the British Army took Fort Niagara from the French and Indians in 1759 and held it for thirty-seven years while Indian, French, British, and American warriors and diplomats vied for control of the Niagara River and its portage route into the Great Lake. If the men who garrisoned Fort Niagara joined up to "see the world," they probably didn't anticipate being stationed at this isolated frontier post. It is doubtful that few, if any, of the thousands who served at Fort Niagara recalled their time there as the best part of their military life, even as one British officer wrote home that it wasn't as bad as he had expected. Some died at the fort, in raids out of the fort, or by accidents in the icy cold and volatile waters of the Great Lakes. Others, thinking they were on their way home for a welcomed leave, were unexpectedly rerouted to Boston in 1775 and fought in the battles of Lexington and Concord, Bunker Hill, and other famous battles of the Revolution. This second book about Fort Niagara by Patricia Kay Scott and William E. Utley carries on the history presented in Fort Niagara, the Key to the Indian Oceans and the French Movement to Dominate North America, published in 2019.
