Distributed Computing and Artificial Intelligence, 11th International Conference Sigeru Omatu, Hugues Bersini, Juan M. Corchado, Sara Rodríguez, Paweł Pawlewski, Edgardo Bucciarelli, 2014-05-30 The 11th International Symposium on Distributed Computing and Artificial Intelligence 2014 (DCAI 2014) is a forum to present applications of innovative techniques for studying and solving complex problems. The exchange of ideas between scientists and technicians from both the academic and industrial sector is essential to facilitate the development of systems that can meet the ever-increasing demands of today's society. The present edition brings together past experience, current work and promising future trends associated with distributed computing, artificial intelligence and their application in order to provide efficient solutions to real problems. This year's technical program presents both high quality and diversity, with contributions in well-established and evolving areas of research (Algeria, Brazil, China, Croatia, Czech Republic, Denmark, France, Germany, Ireland, Italy, Japan, Malaysia, Mexico, Poland, Portugal, Republic of Korea, Spain, Taiwan, Tunisia, Ukraine, United Kingdom), representing a truly "wide area network" of research activity. DCAI'14 Special Sessions have been a very useful tool in order to complement the regular program with new or emerging topics of particular interest to the participating community. Special Sessions that emphasize on multi-disciplinary and transversal aspects, such as AI-driven methods for Multimodal Networks and Processes Modeling and Multi-Agents Macroeconomics have been especially encouraged and welcome. This symposium is organized by the Bioinformatics, Intelligent System and Educational Technology Research Group (<http://bisite.usal.es/>) of the University of Salamanca. The present edition was held in Salamanca, Spain, from 4th to 6th June 2014.

Air Pollution XVII C.A. Brebbia, V. Popov, 2009-06-12 and Reduction. --Book Jacket.

Perspectives for Marine Energy in the Mediterranean Area Simone Bastianoni, Markos Damasiotis, Caterina Praticò, Riccardo Maria Pulselli, 2021-01-25

PROCEEDINGS 4th International Congress on "Science and Technology for the Safeguard of Cultural Heritage in the Mediterranean Basin" VOL. II ,

Floods and Landslides: Integrated Risk Assessment Riccardo Casale, Claudio Margottini, 2012-12-06 A review of such natural disasters as floods and landslides, highlighting the possibility of safe and correct land planning and management by means of a global approach to territory. Since the events deriving from slope and fluvial dynamics are commonly triggered by the same factor, occur at the same time and are closely related, this book analyses floods and slope stability phenomena as different aspects of the same dynamic system: the drainage basin.

Seismological Research Letters , 2000

Landscapes and Landforms of Ethiopia Paolo Billi, 2015-03-23 This book provides a succinct but comprehensive presentation of key geomorphological locations and topics including information about geomorphological heritage and maps to visit the most important sites. Apart from often being remarkably scenic, landscapes reveal stories that often can be traced back in time tens of million years and include unique events. This is particularly true for Ethiopia where spectacular examples of different landforms are present. Its geomorphology varies from highlands, marked by high volcanoes and incised by deep river gorges, to the rift valley lakes endorheic systems and the below sea level lowlands with characteristic landscapes which are unique in the world. Landscapes and Landforms of Ethiopia highlights all these topics including essential information about geology and tectonic framework, past and present climate, hydrology, geographical regions and long-term geomorphological history. It is a highly informative book, providing insight for readers with an interest in geography and geomorphology.

Transportation Systems 1997 (TS '97) Markos Papageorgiou, A. D. Pouliezios, 1997

Availability, Reliability and Security for Business, Enterprise and Health Information Systems A Min Tjoa, Gerald Quirchmayr, Ilsun You, Lida Xu, 2011-08-09 This book constitutes the refereed proceedings of the IFIP WG 8.4/8.9 International Cross Domain Conference and Workshop on Availability, Reliability and Security - Multidisciplinary Research and Practice for Business, Enterprise and Health Information Systems, ARGES 2011, held in Vienna, Austria, in August 2011. The 29 revised papers presented were carefully reviewed and selected for inclusion in the volume. The papers concentrate on the many aspects of availability, reliability and security for information systems as a discipline bridging the application fields and the well-defined computer science field. They are organized in three sections: multidisciplinary research and practice for business, enterprise and health information systems; massive information sharing and integration and electronic healthcare; and papers from the colocated International Workshop on Security and Cognitive Informatics for Homeland Defense.

Climate Health Risks in Megacities Cesar Marolla, 2016-12-01 Climate Health Risks in Megacities: Sustainable Management and Strategic Planning courageously confronts the immense challenges of alleviating climate change and takes the initiative to layout an agenda that calls for action in the rapidly changing landscape of our global climate. This guide provides a constructive methodology for developing and implementing risk management and operational continuity management systems to climate change effects on urban populations. It addresses key issues such as physical location, proper sanitation, food security and vector-borne diseases against the backdrop of climate change, and then model its effect on the urban dwellers. The author also reveals the benefits of implementing a unique risk management approach to combat global threats and focuses on building urban resilience in the face of disasters. Prepared with a comprehensive and forward-thinking style, this book draws on indispensable case studies in key megacities like New York, Los Angeles, Beijing, Rio de Janeiro, London, Mumbai, and Lagos, and links researchers, scientists, city's mayors, environmentalists, policy-makers and world leaders from central areas to review, reflect, and expound on future directions.

Broadband Wireless Communications Marco Luise, Silvano Pupolin, 2012-12-06 Broadband Wireless Access is a highly challenging and fast changing area of multimedia radio communications. These papers on the subject are the proceedings of the 9th Tyrrhenian Workshop, held in Lerici, Italy, September 1997. They provide a prospect on the state of the art and future development, with a sufficiently wide focus to cover technological, architectural and regulatory issues. Emphasis is given to those advances of digital signal processing techniques, microwave mono lithic integrated circuits and smart antennae that will allow the design of low cost user terminals with advanced capabilities. Specific attention is also devoted to the protocols these new terminals will use to access the radio medium, and to the kind of services that will eventually be provided to the end-user in the future. With contributions from worldwide experts, the material presented here is a timely and high-level overview of the field, and as well as being informative is a useful tool for promoting further investigation into the area of multimedia radio communications.

Marine Coastal Eutrophication R.A. Vollenweider, R. Marchetti, R. Viviani, 2016-04-06 Eutrophication in the transitional marine coastal waters has increased dramatically in many parts of the world, and this evolution has shifted attention to the anthropogenic factor. The problem has become the theme of many conferences and workshops, as well as being given priority in international organizations. This volume has been brought about by the desire to assess both our scientific understanding as well as the means and technologies available to combat the problem of marine coastal eutrophication. It discusses the results of research and surveillance programmes carried out in the last decades, confronting these results with experience gained elsewhere, and reviewing current proposals of what can be done about the problem. This volume will be invaluable to environmental scientists and marine ecologists, as well as to those who wish to resolve the many large-scale environmental problems, specifically marine eutrophication and marine pollution in general.

The Black Sea from Paleogeography to Modern Navigation Romeo Bosneagu, 2022-02-22 This book provides an analysis of the evolution of navigation and seaborne trade in the Black Sea, considering the geographic, geological, and hydro-meteorological data, including information from the historical, geopolitical, economic, social, and military frames. In ancient times the Black Sea was at the edge of the known world, and together with its coasts it preserves traces of the Greek, Roman, and Byzantine civilizations. Many of the ancient ports were important and essential towns, which remains the case in modern times. The complex geographical conditions that have historically influenced, and continue to influence the development of maritime trade and transport in the Black Sea, have not been thoroughly researched or optimized for these activities. The book is divided into ten chapters. Chapter I describes the physical – geographical conditions of the Black Sea's basin, and the geological evolution of its recent history, with application to the hypothesis of Noah's flood. Chapter 2 presents a short history of the research conducted on the Black Sea up to present day. Chapter 3 summarizes the specific characteristics of the Black Sea's morphohydrography and morphodynamics. Chapter 4 contains the conclusions regarding the influence of coastal relief on the navigation and seaborne trade on the Black Sea. Chapter 5 analyzes the Black Sea basin's meteo-climatic regime. Chapter 6 contains the conclusions of the influence of weather and climate factors on the navigation and seaborne trade on the Black Sea. Chapter 7 describes the specific hydrological factors of the Black Sea. Chapter 8 contains the conclusions regarding the influence of the hydrological factors for the navigation and seaborne trade on the Black Sea. Chapter 9 presents the Black Sea's specific hydrobiological elements specific, as a „unicum hydrobiologicum“, and the main features of the Black Sea's ecology. Chapter 10 is concentrated on the historical, social, political, economic, and geopolitical framework of the Black Sea basin influencing navigation and maritime transportation, from ancient times to the present. The book is written from the perspective of a Romanian Navy officer, with more than 40 years' experience in the Romanian Navy

Historic Indoor Microclimate of the Heritage Buildings Marco Pretelli, Kristian Fabbri, 2017-10-24 Offering readers essential insights into the relationship between ancient buildings, their original and current indoor microclimates, this book details how the (generally) virtuous relationship between buildings and their typical microclimate changed due to the introduction of new heating, ventilation, and air conditioning (HVAC) systems in historic buildings. The new approach to the study of their Historic Indoor Microclimate (HIM) put forward in this book is an essential component to monitoring and evaluating building and artefact conservation. Highlighting the advantages of adopting an indoor microclimatic approach to the preservation of existing historic materials by studying the original conditions of the buildings, the book proposes a new methodology linking the preservation/restoration of the historic indoor microclimate with diachronic analysis for the optimal preservation of historic buildings. Further, it discusses a number of frequently overlooked topics, such as the simple and well-coordinated opening and closing of windows (an example extracted from a real case study). In turn, the authors elaborate the concept of an Historic Indoor Microclimate (HIM) based on “Original Indoor Microclimate” (OIM), which proves useful in identifying the optimal conditions for preserving the materials that make up historic buildings. The book's main goal is to draw attention to the advantages of an indoor microclimatic approach to the preservation of existing historic materials/manufacture, by studying the original conditions of the buildings. The introduction of new systems in historic buildings not only has a direct traumatic effect on the actual building and its components, but also radically changes one of its vital immaterial elements: the Indoor Microclimate. Architects, restorers and engineers will find that the book addresses the monitoring of the indoor microclimate in selected historic buildings that have managed to retain their original state due to the absence of new HVAC systems, and reflects on the advantages of a renewed attention to these aspects.

Three-Dimensional Models of Marine and Estuarine Dynamics J.C.J. Nihoul, B.M. Jamart, 1987-05-01 These proceedings represent the most recent and complete state of the art review of three-dimensional models of the modern generation for the study of marine hydrodynamics and management of the marine system. The book is well illustrated by application to well-documented case studies.

Natural Disasters and Sustainable Development Riccardo Casale, Claudio Margottini, 2013-06-29 Natural disasters are a clear example of people living in conflict with the environment. Disasters cause human, social and environmental losses and, sometimes, even threaten geopolitical stability, as in many less developed countries. They are also a problem of global concern, even when damage is local: the mechanisms are often dependent on global meteo-climatic circulation. Losses frequently affect several countries, as could be seen in the floods in central Europe in 2002. It is obvious that there is a clear need for a new approach, capable of incorporating the prevention of natural disasters, whilst mitigating strategies within the cycle of sustainable development. There are no thematic disciplines or political boundaries limiting initiatives: the integration of data providers, data users/information providers and information users, in a global and holistic manner, is the desired outcome of the new frontier. This book falls into this new category: multidisciplinary interventions and socio-economic point of views are the basic inputs for a changing science, implementing sustainable development for the benefit of citizens and society. It is comprised of studies and investigations which explain natural processes and modelling, as well as assessing hazards and risks and is rounded off with suggestions for sustainable development. Thus reflecting the best results of research on this topic funded by the European Commission.

Air Quality Modeling: Fundamentals Domenico Anfossi, 2003 Reference Book

Landslides: Evaluation and Stabilization/Glissement de Terrain: Evaluation et Stabilisation, Set of 2 Volumes W. Lacerda, Mauricio Ehrlich, S.A.B. Fontoura, A.S.F.

Sayao,2004-06-15 These volumes comprise the Proceedings of the Ninth International Symposium on Landslides, held in Rio de Janeiro, Brazil, from June 28 to July 2, 2004. Information on the latest developments in Landslide Studies is presented by invited lecture reports, specialized panel contributions and over two hundred and forty technical papers, grouped in the following themes: - Mapping and geological models in landslide hazard assessment, - Advances in rock and mine slopes design, - Field instrumentation and laboratory investigations, - Pre-failure mechanics of landslides in soil and rock, - Mechanisms of slow active landslides, - Post-failure mechanics of landslides, - Stabilization methods and risk reduction measures. A wealth of the latest information on all aspects of landslide hazard, encompassing geological modelling and soil and rock mechanics, landslide processes, causes and effects, and damage avoidance and limitation strategies.

The Detection of Travelling Disturbances in Meteo-climatic Fields S. Alessio,A. Longhetto,2001

After the Destruction of Giant Buddha Statues in Bamiyan (Afghanistan) in 2001 Claudio Margottini,2013-09-20 This work reports on a real adventure in earth science and conservation, dealing with the UNESCO’s emergency activities implemented in Bamiyan (Central Afghanistan) for the recovery and rehabilitation of the cliff and niches after the destruction of the two famous Giant Statues in 2001. Since 2002 an international effort has been made to understand the geological characteristics of the area, the mechanical properties of local materials, petro-geophysical and sedimentological details as well as the historical and geological evolution of the Statues and cliff. Taken together, this information serves as a basis for the recovery and rehabilitation of the cliff and niches and is presented in detail.

Immerse yourself in the artistry of words with is expressive creation, Discover the Artistry of **Meteoclimatic** . This ebook, presented in a PDF format (Download in PDF: *), is a masterpiece that goes beyond conventional storytelling. Indulge your senses in prose, poetry, and knowledge. Download now to let the beauty of literature and artistry envelop your mind in a unique and expressive way.

Meteoclimatic Introduction

Meteoclimatic Offers over 60,000 free eBooks, including many classics that are in the public domain. Open Library: Provides access to over 1 million free eBooks, including classic literature and contemporary works. Meteoclimatic Offers a vast collection of

books, some of which are available for free as PDF downloads, particularly older books in the public domain. Meteoclimatic : This website hosts a vast collection of scientific articles, books, and textbooks. While it operates in a legal gray area due to copyright issues, its a popular resource for finding various publications. Internet Archive for Meteoclimatic : Has an extensive collection of digital content, including books, articles, videos, and more. It has a massive library of free downloadable books. Free-eBooks Meteoclimatic Offers a diverse range of free eBooks across various genres. Meteoclimatic Focuses mainly on educational books, textbooks, and business books. It offers free PDF downloads for educational purposes. Meteoclimatic Provides a large selection of free eBooks in different genres, which are available for download in various formats, including PDF. Finding specific Meteoclimatic, especially related to Meteoclimatic, might be challenging as theyre often artistic creations rather than practical blueprints. However, you can explore the following steps to search for or create your own Online Searches: Look for websites, forums, or blogs dedicated to Meteoclimatic, Sometimes enthusiasts share their designs or concepts in PDF format. Books and Magazines Some Meteoclimatic books or magazines might include. Look for these in online stores or libraries. Remember that while Meteoclimatic, sharing copyrighted material without permission is not legal. Always ensure youre either creating your own or obtaining them from legitimate sources that allow sharing and downloading. Library Check if your local

library offers eBook lending services. Many libraries have digital catalogs where you can borrow Meteoclimatic eBooks for free, including popular titles. Online Retailers: Websites like Amazon, Google Books, or Apple Books often sell eBooks. Sometimes, authors or publishers offer promotions or free periods for certain books. Authors Website Occasionally, authors provide excerpts or short stories for free on their websites. While this might not be the Meteoclimatic full book, it can give you a taste of the authors writing style. Subscription Services Platforms like Kindle Unlimited or Scribd offer subscription-based access to a wide range of Meteoclimatic eBooks, including some popular titles.

FAQs About Meteoclimatic Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer webbased readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Meteoclimatic is one of the best book in our library for free trial. We provide copy of Meteoclimatic in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Meteoclimatic. Where to download Meteoclimatic online for free? Are you looking for Meteoclimatic PDF? This is definitely going to save you time and cash in something you should think about. If you trying to find then search around for online. Without a doubt there are numerous these available and many of them have the freedom. However without doubt you receive whatever you purchase. An alternate way to

get ideas is always to check another Meteoclimatic. This method for see exactly what may be included and adopt these ideas to your book. This site will almost certainly help you save time and effort, money and stress. If you are looking for free books then you really should consider finding to assist you try this. Several of Meteoclimatic are for sale to free while some are payable. If you arent sure if the books you would like to download works with for usage along with your computer, it is possible to download free trials. The free guides make it easy for someone to free access online library for download books to your device. You can get free download on free trial for lots of books categories. Our library is the biggest of these that have literally hundreds of thousands of different products categories represented. You will also see that there are specific sites catered to different product types or categories, brands or niches related with Meteoclimatic. So depending on what exactly you are searching, you will be able to choose e books to suit your own need. Need to access completely for Campbell Biology Seventh Edition book? Access Ebook without any digging. And by having access to our ebook online or by storing it on your computer, you have convenient answers with Meteoclimatic To get started finding Meteoclimatic, you are right to find our website which has a comprehensive collection of books online. Our library is the biggest of these that have literally hundreds of thousands of different products represented. You will also see that there are specific sites catered to different categories or niches related with Meteoclimatic So depending on what exactly you are searching, you will be able to choose ebook to suit your own need. Thank you for reading Meteoclimatic. Maybe you have knowledge that, people have search numerous times for their favorite readings like this Meteoclimatic, but end up in harmful downloads. Rather than reading a good book with a cup of coffee in the afternoon, instead they juggled with some harmful bugs inside their laptop. Meteoclimatic is available in our book collection an online access to it is set as public so you can download it instantly. Our digital library spans in multiple locations, allowing you to get the most less latency time to download any of our books like this one. Merely said, Meteoclimatic is universally compatible with any devices to read.
