International Financial Statistics, January 2016 International Monetary Fund. Statistics Dept.,2016-01-04 This January 2016 issue of International Financial Statistics (IFS) is a standard source of statistics on all aspects of international and domestic finance. IFS, Balance-of-Payments Statistics, Direction of Trade Statistics, and Government Finance Statistics are available on CD-ROM by annual subscription. The IMF normally determines the currencies that are used in transactions and operations with members. Each quarter, the IMF prepares a financial transactions plan, in which it indicates the amounts of currencies and SDRs to be used during the relevant period. The monthly printed issue of IFS reports current monthly, quarterly, and annual data, while the yearbook reports 12 observations of annual data. In IFS, exchange rates are expressed in time series of national currency units per SDR and national currency units per US dollar, or vice versa.

International Financial Statistics, October 2015 International Monetary Fund. Statistics Dept.,2015-10-01 This October 2015 issue of International Financial Statistics (IFS) is a standard source of statistics on all aspects of international and domestic finance. IFS publish, for most countries of the world, current data on exchange rates, international liquidity, international banking, money and banking, interest rates, prices, production, international transactions (including balance of payments and international investment position), government finance, and national accounts. The notes to the country tables in the monthly issues provide information about exceptions in the choice of the consumer price index and the period average exchange rate index. Since January 1, 1981, the value of the SDR has been determined based on the currencies of the five member countries having the largest exports of goods and services during the five-year period ending one year before the date of the latest revision to the valuation basket.

International Financial Statistics, November 2015 International Monetary Fund. Statistics Dept.,2015-10-30 This November 2015 issue of International Financial Statistics is a standard source of statistics on all aspects of international and domestic finance. This annual publication provides detailed data on transactions in revenue, expense, net acquisition of assets and liabilities, other economic flows, and balances of assets and liabilities of general government and its subsectors. The data are compiled according to the framework of the 2014 Government Finance Statistics Manual, which provides for several summary measures of government fiscal performance. The country tables, euro area tables, and world tables provide measures of effective exchange rates, compiled by the IMF's Research Department, Strategy, Policy, and Review Department, Statistics Department, and area departments. The General Resources Account (GRA) resources consist of the currencies of Fund member countries, SDRs, and gold. Borrowings are regarded as a temporary source of funds. In order to supplement its quota resources, the IMF has the authority to borrow the currency of any member

from any source with the consent of the issuer.

The second section provides detailed tables on balance-of-payments statistics for 189 economies and IIP data for 143 economies.

International Financial Statistics, April 2016 International Monetary Fund. Statistics Dept.,2016-04-01 This April 2016 issue of International Financial Statistics (IFS) is a standard source of statistics on all aspects of international and domestic finance. The IMF publishes calculated effective exchange rates data only for countries that have given their approval. The IMF cannot allocate SDRs to itself but receives them from members through various financial transactions and operations. Entities authorized to conduct transactions in SDRs are the IMF itself, participants in the SDR Department, and other "prescribed holders." The IMF quota increase under the Fourteenth General Review of Quotas became effective recently. The details regarding the associated change can be found in the IMF Press Release No. 16/25, dated January 27, 2016. The effect of quota payments is reflected in the following Fund Accounts for those members that have made their quota payments: Quota, Reserve Tranche Position, Fund Holdings of Currency, SDR Holdings. It is also reflected in the international liquidity and central bank data.
