**Bob Seger's House and Other Stories** Michael Delp, 2016-05-05 Bob Seger's *House and Other Stories* is a collection of short stories written by some of Michigan's most well-known fiction writers. This collection of twenty-two short stories serves as a celebration not only of the tenth anniversary of the Made in Michigan Writers Series in 2016 but also of the rich history of writing and storytelling in the region. As series editors Michael Delp and M. L. Liebler state in their preface, "The stories contained in this anthology are a way to stay connected to each other. Think of them as messages sent from all over the map, stitching readers and writers together through stories that continue to honor the ancient art of the fire tale, the hunting epic, and all of the ways language feeds the blood of imagination." The scope of this project reflects the dynamic and diverse writing that is currently taking place by people who consider their home to be the Great Lakes state. Stories are far-ranging, from the streets of Detroit and the iconic presence of the auto industry to the wild tracts of the Upper Peninsula, to a couple on the west coast trying to figure out parenting. The book vibrates with that tension, of metal versus rock and human frailty taking on the pitfalls and hardships of living in this world. In his foreword, Charles Baxter asks,

"Does a region give rise to a particular kind of literature? Michigan is so fiercely diverse in its landscapes, its economy, and its population demographics that it presents anybody who wants to write about it with a kind of blank slate. You can't summarize the state easily." These storytellers exude a "Michigan aesthetic" in their writing, something that cannot be learned in a textbook or taught in a classroom but can be felt through the tales of these storytellers. The experience of picking up this collection is akin to taking a drive from the mechanized world and arriving several hours later in one of the wildest places on earth. Readers of short fiction will enjoy the multitude of voices in this anthology.

Island of the Blue Dolphins Scott O'Dell, 1960 Far off the coast of California looms a harsh rock known as the island of San Nicholas. Dolphins flash in the blue waters around it, sea otter play in the vast kelp beds, and sea elephants loll on the stony beaches. Here, in the early 1800s, according to history, an Indian girl spent eighteen years alone, and this beautifully

written novel is her story. It is a romantic adventure filled with drama and heartache, for not only was mere subsistence on so desolate a spot a near miracle, but Karana had to contend with the ferocious pack of wild dogs that had killed her younger brother, constantly guard against the Aleutian sea otter hunters, and maintain a precarious food supply. More than this, it is an adventure of the spirit that will haunt the reader long after the book has been put down. Karana's quiet courage, her Indian self-reliance and acceptance of fate, transform what to many would have been a devastating ordeal into an uplifting experience. From loneliness and terror come strength and serenity in this Newbery Medal-winning classic.

Over the course of a crazy, starlit dinner party, the wildly unexpected occurs. The couples begin to flirt and insanity reigns. Martin, using his trademark absurdist humor, bends the fluid nature of time and reality to create a surprising and unforgettably funny new play.

Meteor Showers and their Parent Comets Peter Jenniskens, 2006-09-14 *Meteor Showers and their Parent Comets* is a unique handbook for astronomers interested in observing meteor storms and outbursts. Spectacular displays of 'shooting stars' are created when the Earth's orbit crosses a meteoroid stream, as each meteoroid causes a bright light when it enters our atmosphere at high speed. Jenniskens, an active meteor storm chaser, explains how meteoroid streams originate from the decay of meteoroids, comets and asteroids, and how they cause meteor showers on Earth. He includes the findings of recent space missions to comets and asteroids, the risk of meteor impacts on Earth, and how meteor showers may have seeded the Earth with ingredients that made life possible. All known meteor showers are identified, accompanied by fascinating details on the most important showers and their parent comets. The book predicts when exceptional meteor showers will occur over the next fifty years, making it a valuable resource for both amateur and professional astronomers.

**Touch** Claire North, 2015-02-24 *Touch* is an electrifying thriller by the author of *The First Fifteen Lives of Harry August* and *84K*. He tried to take my life. Instead, I took his. It was a long time ago. I remember it was dark, and I didn't see my killer until it was too late. As I died, my hand touched his. That's when the first switch took place. Suddenly, I was looking through the eyes of my killer, and I was watching myself die. Now switching is easy. I can jump from body to body, have any life, be anyone. Some people touch lives. Others take them. I do both. More by Claire North: *The Gameshouse* *84K* *The End of the Day* *The Sudden Appearance of Hope* *Touch* *The First Fifteen Lives of Harry August*

**The Big Lie** Dinesh D'Souza, 2017-07-31 Of course, everything [D'Souza] says here is accurate... But it's not going to sit well with people on the American left who, of course, are portraying themselves as the exact opposite of all of this. —RUSH LIMBAUGH The explosive new book from Dinesh D'Souza, author of the #1 New York Times bestsellers *Hillary's America*, *America*, and *Obama's America*. What is the big lie of the Democratic Party? That conservatives—and President Donald Trump in particular—are fascists. Nazis,

even. In a typical comment, MSNBC host Rachel Maddow says the Trump era is reminiscent of what it was like when Hitler first became chancellor. But in fact, this audacious lie is a complete inversion of the truth. Yes, there is a fascist threat in America—but that threat is from the Left and the Democratic Party. The Democratic left has an ideology virtually identical with fascism and routinely borrows tactics of intimidation and political terror from the Nazi Brownshirts. To cover up their insidious fascist agenda, Democrats loudly accuse President Trump and other Republicans of being Nazis—an obvious lie, considering the GOP has been fighting the Democrats over slavery, genocide, racism and fascism from the beginning. Now, finally, Dinesh D'Souza explodes the Left's big lie. He expertly exonerates President Trump and his supporters, then uncovers the Democratic Left's long, cozy relationship with Nazism: how the racist and genocidal acts of early Democrats inspired Adolf Hitler's campaign of death; how fascist philosophers influenced the great 20th century lions of the American Left; and how today's anti-free speech, anti-capitalist, anti-religious liberty, pro-violence Democratic Party is a frightening simulacrum of the Nazi Party. Hitler coined the term the big lie to describe a lie that the great masses of the people will fall for precisely because of how bold and monstrous the lie is. In *The Big Lie*, D'Souza shows that the Democratic Left's orchestrated campaign to paint President Trump and conservatives as Nazis to cover up its own fascism is, in fact, the biggest lie of all.

**Mexican Gothic** Silvia Moreno-Garcia, 2020-06-30 NEW YORK TIMES BESTSELLER • "It's Lovecraft meets the Brontës in Latin America, and after a slow-burn start *Mexican Gothic* gets seriously weird."—The Guardian IN DEVELOPMENT AS A HULU ORIGINAL LIMITED SERIES PRODUCED BY KELLY RIPA AND MARK CONSUELOS • ONE OF TIME'S 100 BEST MYSTERY AND THRILLER BOOKS OF ALL TIME • WINNER OF THE LOCUS AWARD • NOMINATED FOR THE BRAM STOKER AWARD ONE OF THE BEST BOOKS OF THE YEAR: The New Yorker, Vanity Fair, NPR, The Washington Post, Tordotcom, Marie Claire, Vox, Mashable, Men's Health, Library Journal, Book Riot, LibraryReads An isolated mansion. A chillingly charismatic aristocrat. And a brave socialite drawn to expose their treacherous secrets. . . . From the author of *Gods of Jade* and *Shadow* comes "a terrifying twist on classic gothic horror" (Kirkus Reviews) set in glamorous 1950s Mexico. After receiving a frantic letter from her newly-wed cousin begging for someone to save her from a mysterious doom, Noemí Taboada heads to High Place, a distant house in the Mexican countryside. She's not sure what she will find—her cousin's husband, a handsome Englishman, is a stranger, and Noemí knows little about the region. Noemí is also an unlikely rescuer: She's a glamorous debutante, and her chic gowns and perfect red lipstick are more suited for cocktail parties than amateur sleuthing. But she's also tough and smart, with an indomitable will, and she is not afraid: Not of her cousin's new husband, who is both menacing and alluring; not of his father, the ancient patriarch who seems to be fascinated by Noemí; and not even of the house itself, which begins to invade Noemí's dreams with visions of blood and doom. Her only ally in this inhospitable abode is the family's youngest son. Shy and gentle, he seems to want to help Noemí, but might also be hiding dark knowledge of his family's past. For there are many secrets behind the walls of High Place. The family's once colossal wealth and faded mining empire kept them from prying eyes, but as Noemí digs deeper she unearths stories of violence and madness. And Noemí, mesmerized by the terrifying yet seductive world of High Place, may soon find

it impossible to ever leave this enigmatic house behind. "It's as if a supernatural power compels us to turn the pages of the gripping Mexican Gothic."—The Washington Post "Mexican Gothic is the perfect summer horror read, and marks Moreno-Garcia with her hypnotic and engaging prose as one of the genre's most exciting talents."—Nerdist "A period thriller as rich in suspense as it is in lush '50s atmosphere."—Entertainment Weekly

A Stargazing Program for Beginners Jamie Carter, 2015-11-20 Sets out a simple month-by-month program to reveal all of the night sky's biggest and most beautiful secrets in just one year – and with only a few hours of stargazing each month By investing just an hour a week and \$50 in binoculars, it's possible to learn a few simple techniques and quickly gain a real insight into the night sky's ever-changing patterns – and what they tell us about Earth, the seasons and ourselves. Searching more for a learned appreciation of nature and our exact place within the cosmos than academic scientific knowledge, science and travel writer Jamie Carter takes the reader on a 12 month tour of the night sky's incredible annual rhythms that say so much about Earth. During the journey he learns about the celestial mechanics at work in the skies above that are – to the beginner – almost beyond belief. As well as the vital constellations and clusters, and the weird and wonderful nebulas, he searches out "dark sky destinations" across the globe that help increase knowledge and give a new perspective on familiar night sky sights. On the journey he witnesses a solar eclipse and grapples with star-charts, binoculars, smartphone apps, telescopes, spots satellites and attempts basic astro-photography. By year's end, the reader will be able to glance at the night sky from anywhere on the planet and tell what direction he or she is facing, what time it is, where all the planets are and even where the Galactic Center Point is.

**Waiting for the Punch** Marc Maron, Brendan McDonald, 2017-10-10 Public figures as you rarely if ever hear them: strikingly personal, surprisingly open, and profoundly emotional. – Entertainment Weekly I'm British, so I'm medically dead inside, but even I can't help but open up whenever I talk to Marc. He uses his honesty like a scalpel, cutting himself open in front of anyone he's talking to, and in doing so, invites you to do the same. –John Oliver From the beloved and wildly popular podcast WTF with Marc Maron comes a book of intimate, hilarious and life changing conversations with some of the funniest, and most important people in the world like you've never heard them before. Waiting for the Punch features the stories and thoughts of such luminaries as Amy Schumer, Mel Brooks, Will Ferrell, Amy Poehler, Sir Ian McKellen, Lorne Michaels, Judd Apatow, Lena Dunham, Jimmy Fallon, RuPaul, Louis CK, David Sedaris, Bruce Springsteen, and President Obama. This book is not simply a collection of these interviews, but instead something more wondrous: a running narrative of the world's most recognizable names working through the problems, doubts, joys, triumphs, and failures we all experience. With each chapter covering a different topic: parenting, childhood, relationships, sexuality, success, failures and others, Punch becomes a sort of everyman's guide to life. Barack Obama candidly discusses the challenges of the presidency, and the bittersweet moments of seeing your children grow up. Amy Schumer recounts the pain of her parents' divorce. Molly Shannon uproariously remembers the time she and her best friend hopped a plane from Ohio to New York City when they were twelve on a dare. Amy Poehler dishes on why just because you become a parent doesn't mean you have to like anybody

else's kids but your own. Bruce Springsteen expounds on the dual nature of desperation to both motivate and devastate. Full of stories that are at once laugh-out loud funny, heartbreakingly honest, joyous, tragic and powerful, *Waiting for the Punch* is a book to be read from cover to cover, but it is also one to return to again and again.

**The End of Ice** Dahr Jamail, 2020-03-10 Finalist for the 2020 PEN / E.O. Wilson Literary Science Writing Award Acclaimed on its hardcover publication, a global journey that reminds us of how magical the planet we're about to lose really is (Bill McKibben) With a new epilogue by the author After nearly a decade overseas as a war reporter, the acclaimed journalist Dahr Jamail returned to America to renew his passion for mountaineering, only to find that the slopes he had once climbed have been irrevocably changed by climate disruption. In response, Jamail embarks on a journey to the geographical front lines of this crisis—from Alaska to Australia's Great Barrier Reef, via the Amazon rainforest—in order to discover the consequences to nature and to humans of the loss of ice. In *The End of Ice*, we follow Jamail as he scales Denali, the highest peak in North America, dives in the warm crystal waters of the Pacific only to find ghostly coral reefs, and explores the tundra of St. Paul Island where he meets the last subsistence seal hunters of the Bering Sea and witnesses its melting glaciers. Accompanied by climate scientists and people whose families have fished, farmed, and lived in the areas he visits for centuries, Jamail begins to accept the fact that Earth, most likely, is in a hospice situation. Ironically, this allows him to renew his passion for the planet's wild places, cherishing Earth in a way he has never been able to before. Like no other book, *The End of Ice* offers a firsthand chronicle—including photographs throughout of Jamail on his journey across the world—of the catastrophic reality of our situation and the incalculable necessity of relishing this vulnerable, fragile planet while we still can.
