**Omnirealm, the Whole Truth of Creation** Aso Thuy Lexuan, 2010 OmniRealm, the Whole Truth of Creation is virtually the autobiography of the most successful incarnated yogi, Thuy Lexuan, ASO, an Omni Celestial selected to be born on Earth for the realization of a prophecy, the Coming of Christ, as a starting point toward much higher objectives. I came down, an out-of-reach Omni Celestial, Bound, not only to reshape an old universe, But also to fuse my True Self with the World Soul By reaching the farthest cosmic dome of inverse. Through Divine Incarnation and the application of the highest transcendental yoga, the incarnated Omni Yogi succeeded in uniting his Self Individual with the Universal Sacred Body. The spiritual process allowed the Incarnator to move out of his physical body, carrying his form, like twins, starting from September 1977, in the Land of the Eagle. Jehovah called Him God Omnipotent; For Moses, He must be The Messiah; Confucius, LaoTze, He's God Omniscient; As for Mohammed, He's his church's Allah. Jesus and RamaKrishna called Him Christ.

*Metronic's Lost Orb* Anne Marie Zammit,2020-10-23 Fairyland used to be twinned with the Planet Medlar orbiting around a red dwarf star, Heliat. A rouge moon appeared and a war broke out with the Ogre on the rouge moon. This created a spacetime rift that threw Fairyland out of that solar system and it ended up in our own.In the final battle, Fairy King Metronic sacrificed his Orb of Power to finally defeat the Ogre. Many centuries later, Fairyland desperately needed the Orb of Power and the search for it was urgent. The search was long and hard and required all the talents of Glenda and her friends. Assisted by King Oberon's son, the leprechauns and even a bitter rival, they search high and low for the Orb, even travelling back in time. Will they find the Orb and will Fairyland be saved?

**Behind the Fog** Lisa Martino-Taylor,2017-07-28 Behind the Fog is the first in-depth, comprehensive examination of the United States' Cold War radiological weapons program. The book examines controversial military-sponsored studies and field trials using radioactive simulants that exposed American civilians to radiation and other hazardous substances without their knowledge or consent during the Cold War. Although Western biological and chemical weapons programs have been analyzed by a number of scholars, Behind the Fog is a strong departure from the rest in that the United States radiological weapons program has been generally unknown to the public. Martino-Taylor documents the coordinated efforts of a small group of military scientists who advanced a four-pronged secret program of human-subject radiation studies that targeted unsuspecting Americans for Cold War military purposes. Officials enabled such projects to advance through the layering of secrecy, by embedding classified studies in other studies, and through outright deception. Agency and academic partnerships advanced, supported, and concealed the studies from the public at large who ultimately served as unwitting test subjects. Martino-Taylor's comprehensive research illuminates a dark chapter of government secrecy, the military-industrial-academic complex, and large-scale organizational deviance in American history. In its critical approach, Behind the Fog effectively examines the mechanisms that allow large-scale elite deviance to take place in modern society.
