**Selling Hope** Charles T. Clotfelter, Philip J. Cook, 1991 With its huge jackpots and heartwarming rags-to-riches stories, the lottery has become the hope and dream of millions of Americans--and the fastest-growing source of state revenue. Despite its popularity, however, there remains much controversy over whether this is an appropriate business for state government and, if so, how this business should be conducted.

*Mathematics of Keno and Lotteries* Mark Bollman, 2018-04-17

Mathematics of Keno and Lotteries is an elementary treatment of the mathematics, primarily probability and simple combinatorics, involved in lotteries and keno. Keno has a long history as a high-advantage, high-payoff casino game, and state lottery games such as Powerball are mathematically similar. MKL also considers such lottery games as passive tickets, daily number drawings, and specialized games offered around the world. In addition, there is a section on financial mathematics that explains the connection between lump-sum lottery prizes (as with Powerball) and their multi-year annuity options. So-called winning systems for keno and lotteries are examined mathematically and their flaws identified.

Winners and Losers Steven Arnett,2015-02-01 Set in a small southern Michigan city in the early 1990s, *Winners and Losers* is a rollicking dark comedy starring Tom Slotrak, a young man who wins the jackpot in the Michigan Lottery and the crazy and (sometimes) adventures he has afterwards. He learns the hard way that money can't buy happiness but that it sure can lead to some very funny and bizarre experiences! At the beginning of the story, Tom is 26 but feels older because he's bored with his life and feels rootless. He's engaged to Erica Wonders: She's smart and good looking and doesn't treat him too badly, but Tom is bored with the relationship and doesn't really love her anymore. He's thinking about how he might be able to break off the engagement without all hell breaking loose. Though Tom is engaged to Erica, when he's at work he has a hard time keeping his mind and his eyes off clerk and administrative assistant Lena Coffee. Sexy, flirty, and funny, Lena is Tom's fantasy woman. Rumor has it that she has a boyfriend in a motorcycle gang, but she is just flirty enough and just nice enough to Tom for him to believe it's not quite impossible that he and Lena could hook up. They end up having a secret affair. However, Tom gets laid off from his job as an accountant at Allied Nuclear Corporation after a plant closing. He soon runs out of money and tries to find a new job but without much luck—eventually having to settle for shoveling manure for minimum wage at Meadowlark Farms. Erica is fed up with him, and it seems as if he'll soon hit rock bottom. He's down to his last \$17, and even though he knows he shouldn't, he buys a ticket for the Michigan

Lottery at Joe's Gas Mart. He barely makes the effort to check his ticket against the winning number when it's announced on TV, but when he does, the seemingly impossible happens: His ticket matches the winning number! Erica is absolutely thrilled, but Tom isn't as happy as might be expected after such a turn of good fortune. With Tom tagging along, Erica goes on a giant spending spree. When he's not shopping with Erica, everybody on planet Earth, it seems, tries to hit him up for money. The fortune has made Tom's alienation from Erica worse, and he ends up breaking off the engagement. The end of his engagement makes him much sadder than he ever would have imagined, but he at least hopes it will be the beginning of a new life for him. Before he even has a chance to think about what he'll do in the future, though, Lena calls him to tell him her boyfriend found out about their affair and is threatening to kill Tom, so he decides to leave town with hardly a moment's notice. Now that he has so much money, he doesn't necessarily think that's such a bad thing, and he makes his way to Florida after an adventure at a hillbilly bar in Tennessee. Tom ends up in Key West and thinks he'll like it there, but he gets a shock when he goes to an ATM and is refused a withdrawal. Before long, he learns that Erica has sued him claiming the winning ticket really belonged to her and that a judge in Michigan has frozen his bank accounts! Broke again, Tom must again go out and look for a job. He hires in as a salesman at Florida Guano, where he meets secretary/receptionist Honey Sweetwater. All she seems to do at the office is work on her nails and looked bored. Tom soon finds, however, that she has pretty, mischievous eyes and a great sense of humor. Before long, the two of them are going out together and having a great time. Tom's career at Florida Guano skids to a halt pretty quickly, but Tom and Honey have quite an adventure when

they are invited to the Gothic mansion of Mr. Fabulous, the mysterious billionaire owner of Florida Guano. Finally, the case of Wonders vs. Slotrak goes on trial, and Tom returns to Michigan. A legal battle to end all battles ensues, and Tom knows that the whole rest of his life. Will he end up rich and living a dream with Honey or will he end up right back where he was after he lost his job at Allied Nuclear?

A Michigan School Money Primer for Policymakers, School Officials, Media and Residents Ryan S. Olson, Michael D. LaFaive, 2007

The system that finances Michigan's schools from kindergarten through 12th grade is a perennial topic of conversation among policymakers, parents, taxpayers and voters. A constructive discussion of this issue, however, requires a sound knowledge of the financial workings of Michigan's elementary and secondary school system. This knowledge is precisely what the authors have attempted to provide. While the Mackinac Center for Public Policy has developed numerous policy recommendations over the years, this primer is exclusively informational. This primer addresses the following: (1) how revenues are raised for Michigan's elementary and secondary public school system; (2) how money is distributed to education programs and school districts once it is collected by various taxing authorities; and (3) how districts budget monies to be spent on the various activities involved in operating schools and other educational programming. This book is arranged in four sections. The first--and the shortest--is A Brief Overview of the Structure of Michigan's Public School System, which defines a few basic terms and sketches the main local, state and federal agencies involved in financing

Michigan's public school system. This overview should help readers unfamiliar with Michigan's public school structure navigate the remainder of the book. The second, third and fourth sections are considerably longer than the first and cover the three areas: tax revenues, distribution of revenues and financial management of those revenues by school districts. Appended are: (1) U.S. Department of Education Spending in Michigan; (2) Summary of Durant Court Decisions; and (3) Guide to a New School Finance Electronic Module. An index is included. (Contains 29 graphs, 238 footnotes, and 410 endnotes, footnotes.) [This paper was written with the assistance of Glenda Rader, Darcy Marusich, Alison Taylor, Steve Zakem, John Schwartz, Thomas Moline, Charles Pisoni, Gary Start, Paul Soma, Tim Yeadon, Mary Ann Cleary, Douglas Newcombe, Vicki Duso, Clark Volz, Howard Heideman, Paul Brown, Phil Boone, Patrick Dillon, Jayne Klein, and Dianne Easterling.].

When Detroit Played the Numbers Felicia B. George, 2024-03-26

A testament to the tenacious spirit embodied in Detroit culture and history, this account reveals how numbers gambling, initially an illegal enterprise, became a community resource and institution of solidarity for Black communities through times of racial disenfranchisement and labor instability. Author Felicia B. George sheds light on the lives of Detroit's numbers operators--many self-made entrepreneurs who overcame poverty and navigated the pitfalls of racism and capitalism by both legal and illegal means. Illegal lottery operators and their families and employees were often exposed to precarity and other adverse conditions, and they profited from their neighbors' hope to make it through another day. Despite scandal and exploitation, these operators and their families also became important members of the community, providing steady employment and

financial support for local businesses. This book provides a glimpse into the rich culture and history of Detroit's Black Bottom and Paradise Valley neighborhoods, linking the growing gambling scene there with key characters and moments in local history, including Joe Louis's rise to fame and the recall of a mayor backed by the Ku Klux Klan. In succinct and engrossing chapters, George explores issues of community, race, politics, and the scandals that sprang up along the way, discovering how playing the numbers grew from a state-proclaimed crime to an encouraged legal activity.

**North Branch** Jeff Mann, 2001-06 Happening upon a fatal traffic mishap on a rain-slick Michigan highway late at night, 35-year-old Ben Marshall succumbs to temptation and absconds with a cash-filled briefcase in the possession of the elderly victim. Recently widowed, and still overwhelmed by his late-wife's medical bills and the lingering pain of her infidelity, he finds it easy to rationalize a finders-keepers mentality. But, nagged by guilt...and terrified when he learns the accident victim is Michigan's senior U.S. Senator...he is too afraid to spend any of his ill-gotten fortune or risk the imagined consequences of returning it. Three weeks later, while still wavering, Marshall is stunned to discover a \$2-a-week petty gambling habit has dealt him a second unexpected windfall. He is the sole winner of the Michigan Lotto drawing...and its \$15-million jackpot! With official confirmation, comes the slow realization that it also provides the perfect cover for his original dilemma. But as carefully as Marshall has covered his tracks, he has unwittingly left footprints...missteps that ultimately catch the attention of those still scrambling to recover the less obvious contents of the heavy satchel they had delivered to the powerful chairman of the Senate Armed Services Committee only an hour before his untimely death.
