Toyo Lily Chan,2012-08-22 Winner of the 2013 Dobbie Award Toyo learned to ask nothing, to wait and count the days. But they passed and passed and still the doorway remained empty of his deep voice, calling out her name. Blending the intimacy of memoir with an artist's vision, Toyo is the story of a remarkable woman, a vivid picture of Japan before and after war, and an unpredictable tale of courage and change in today's Australia. Born into the traditional world of pre-war Osaka, Toyo must always protect the secret of her parents' true relationship. Her father lives in China with his wife; her unmarried mother runs a café. Toyo and her mother are beautiful and polite, keeping themselves in society's good graces. Then comes the rain of American bombs. Toyo's life is uprooted again and again. With each sharp change and painful loss, she becomes more herself and more aware of where she has come from. She finds family and belief, but still clings to her parents' secret. In Toyo, Lily Chan has pieced together the unconventional shape of her grandmother's story. Vibrant and ultimately heart-rending, Toyo is the chronicle of an extraordinary life, infused with a granddaughter's love. Shortlisted, 2013 Colin Roderick Award This is a beautifully lyrical and compelling voice, infused with deep insight and love - Alice Pung Vivid and surprising at every turn" - Amanda Lohrey 'an exquisite memoir' - Manly Daily "Colourful, astonishing and intelligent." - Courier Mail

Michigan "Jography": A Fun Run Through Our State! Carole Marsh,2011-03-01 Michigan Geography-Statistics say most kids know less geography than ever-don't let that apply to your students! Start by making sure kids know the main places & geographic features in their own state. Give them activities that pretend they are taking a cross-state bike tour, using free football game passes, jogging through the state, etc., & they'll find their way around in a hurry! Geography activities include information on counties, rivers, museums, historic places, sites of interest, colleges, bordering states, climate, topography, crops and more, all ready to reproduce! Approximately 30 activities and 200 geography related places and facts are covered. Students work alone or in groups and use maps, reference books or resource people to complete challenging riddles, matching games, word searches, fill-in lists, scavenger hunts, and completion exercises that reinforce learning, sharpen research skills, and provide a lively introduction to Michigan.

Places Rated Almanac David Savageau,1993 This sometimes controversial bestseller, completely updated with all new statistics, is packed with timely facts and unbiased information on more than 300 metropolitan areas in the U.S. and Canada. Each city is ranked according to costs of living, crime rates, cultural life, and environmental factors.

Detroit after Bankruptcy Joe Darden,2023-07-31 Detroit is the first city of its size to become bankrupt and some policy makers have argued that, since then, it has entered a 'new beginning'. This book critically examines the evidence for and against this claim. Joe T. Darden analyzes whether Detroit's patterns of race and class neighborhood inequality have persisted or whether investments have led to improvements in academic achievement, homeownership, employment, and reductions in poverty and violent crime. He measures, quantitatively, the benefits and disadvantages of staying in urban Detroit or moving to the suburbs, and provides evidence to answer whether Detroit, after bankruptcy, is becoming an inclusive city.

Keeping Score Elley Arden,2015-10-19 Cleveland Clash center Jade Wren longs for something more than teaching elementary school and marrying a nice Korean guy. Maybe that's why she suddenly kisses a sexy stranger at a bar. Except the guy turns out to be sports radio shock jock Rome Rizzelli, and as far as her team is concerned, he's Public Enemy No. 1. Rome isn't the kind of guy to argue when a beautiful woman kisses him, but now his producer has invited Jade to talk about women's pro football on his show. It's a battle of the sexes--a battle he needs to win to save his job and continue to support his disabled mother and younger sister. But the sexy center is no pushover, and Rome can't decide whether that's a turn-on or a reason to fight even harder. When the gloves--among other things--come off, can two strong personalities who have found security in keeping up appearances let down their guards long enough to fall in love?

Gustav Holst Mary Christison Huismann,2011-04-26 First published in 2011, this text provides citations to the core Holst literature. The volume is intended for students and researchers, as well as those seeking an introduction to Holst. The inclusion of materials for the non- specialist seems entirely appropriate as Holst devoted much of his career to teaching amateur musicians. The contents of this book presents a selective, annotated list of essential materials published through the end of 2009, although a very few exceptions were made for a limited number of post-2009 print and web resources.

The Oxford Handbook of Cinematic Listening Carlo Cenciarelli,2021 The Oxford Handbook of Cinematic Listening explores the intersection between the history of listening and the history of the moving image. Featuring established and emergent scholars from musicology, film studies, and literary studies, ethnomusicology and sound studies, popular music,sociology, media and communications, and psychology, this Handbook offers a wide range of case studies and methodological perspectives on the archaeologies, aesthetics, and extensions of cinematic listening.Chapters are structured around six themes: Part I (Genealogies and Beginnings) considers film sound in light of pre-existing genres such as opera and shadow theatre, and explores changes in listening taking place at critical junctures in the early history of cinema. Part II (Locations andRelocations) focuses on specific venues and presentational practices (from roadshow movies to and contemporary live-score screenings). Part III (Representations and Re-presentations) zooms into the formal properties of specific films, analysing representations of listening on screen as well as onthe role of sound as a representational surplus. Part IV (The Listening Body) focuses on cinematic sound as a powerful and sensual stimulus that has the power to engage the full body sensorium. Part V (Listening again) discusses a range of ways in which film sound is encountered andreinterpreted outside the cinema, through ancillary materials like songs and soundtrack albums, in experimental conditions, and in pedagogical contexts. Part VI (Between Media) compares the listening protocols of cinema with those of TV series and music video, promenade theatre and personalstereos, video games and Virtual Reality.
