A Historical Review and Analysis of Army Physical Readiness Training and Assessment Whitfield East,2013-12 The Drillmaster of Valley Forge-Baron Von Steuben-correctly noted in his Blue Book how physical conditioning and health (which he found woefully missing when he joined Washington's camp) would always be directly linked to individual and unit discipline, courage in the fight, and victory on the battlefield. That remains true today. Even an amateur historian, choosing any study on the performance of units in combat, quickly discovers how the levels of conditioning and physical performance of Soldiers is directly proportional to success or failure in the field. In this monograph, Dr. Whitfield Chip East provides a pragmatic history of physical readiness training in our Army. He tells us we initially mirrored the professional Armies of Europe as they prepared their forces for war on the continent. Then he introduces us to some master trainers, and shows us how they initiated an American brand of physical conditioning when our forces were found lacking in the early wars of the last century. Finally, he shows us how we have and must incorporate science (even when there exists considerable debate!) to contribute to what we do-and how we do it-in shaping today's Army. Dr. East provides the history, the analysis, and the pragmatism, and all of it is geared to understanding how our Army has and must train Soldiers for the physical demands of combat. Our culture is becoming increasingly "unfit, due to poor nutrition, a lack of adequate and formal exercise, and too much technology. Still, the Soldiers who come to our Army from our society will be asked to fight in increasingly complex and demanding conflicts, and they must be prepared through new, unique, and scientifically based techniques. So while Dr. East's monograph is a fascinating history, it is also a required call for all leaders to better understand the science and the art of physical preparation for the battlefield. It was and is important for us to get this area of training right, because getting it right means a better chance for success in combat.

Performance Evaluation of Computer and Communication Systems. Milestones and Future Challenges Karin Anna Hummel,Helmut Hlavacs,Wilfried Gansterer,2011-12-13 This Festschrift volume is published in honor of Günter Haring on the occasion of his emerital celebration and contains invited papers by key researchers in the field of performance evaluation presented at the workshop Performance Evaluation of Computer and Communication Systems - Milestones and Future Challenges, PERFORM 2010, held in Vienna, Austria, in October 2010. Günter Haring has dedicated most of his scientific professional life to performance evaluation and the design of distributed systems, contributing in particular to the field of workload characterization. In addition to his own contributions and leadership in international research projects, he is and has been an excellent mentor of young researchers demonstrated by their own brilliant scientific careers. The 20 thoroughly refereed papers range from visionary to in-depth research papers and are organized in the following topical sections: milestones and evolutions; trends: green ICT and virtual machines; modeling; mobility and mobile networks; communication and computer networks; and load balancing, analysis, and management.

Twelve Years a Slave Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US,on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

The Cyrus Cylinder Irving Finkel,2013-03-07 Some historical artifacts are destined forever to alter how the ancient world is perceived. The unerathing in today's Iraq (in 1879) of a clay cylinder-shaped decree from Cyrus the Great, founder of the Achaemenid dynasty of Persia, stands in the

same tradition of game-changing discoveries from antiquity as Hammurabi's famous law code or the intact tomb of the boy-king Tutankhamun. For the Cyrus Cylinder contains in microcosm the whole history of its period. Inscribed with an account of the conquest of Babylon in 539 BC by the Persian king, it records an event which launched one of the greatest imperial adventures in history. It describes Cyrus' capture and deposition of Nabonidus, last native Babylonian ruler (represented by the Cylinder text as an oppressor of his own people), and proclaims the Persian, aided by the god Marduk, as a liberator. His annexation of Babylon was to become the platform upon which the Achaemenid military machine built its later vast imperium. But the Cylinder is more than an ancient exercise in propaganda. It has been celebrated as the world's first declaration of human rights, and an international symbol of religious tolerance, setting out the decree from which Cyrus freed the Jews in Babylon: an event recorded by Isaiah. Few other objects from antiquity are invested with so many hopes for the future. This important volume is the first to discuss the Cylinder and its remarkable history. Written by internationally respected authorities from the British Museum, it offers a fresh consideration of its subject in the light of new discoveries. Included here is a complete new translation of the Cylinder inscription using recently identified but previously unpublished sources. Archive materials have allowed a fresh investigation of the circumstances of the original nineteenth-century find by Hormuzd Rassam, and a reappraisal of the mysterious 'Chinese bone' forgeries. The book also discusses the extraordinary and evolving history of Cyrus' timeless message: a message that continues powerfully to resonate.

Modern Sociological Theory George Ritzer, Jeffrey Stepnisky, 2017-01-23 Now with SAGE Publishing, and co-authored by one of the foremost authorities on sociological theory, the Eighth Edition of *Modern Sociological Theory* by George Ritzer and Jeffrey Stepnisky provides a comprehensive overview of the major theorists and theoretical schools, from the Structural Functionalism of early 20th century through the cutting-edge theories of the late 20th and early 21st centuries. The integration of key theories with biographical sketches of theorists and the requisite historical and intellectual context helps students to better understand the original works of contemporary thinkers. New to this Edition A new chapter focuses theories of race, racism, and colonialism, as well as theories about indigenous peoples and theories from the "Global South" that challenge the work of scholars from Europe and North America. New material on colonialization, classical women theorists, and race, as well as new timelines in history chapters. The chapter on Symbolic Interactionism now discusses work on the sociology of emotions. The concluding chapter now discusses affect theory and theories of presumption, one of the newest developments in consumer theory. The chapter on Contemporary Theories of Modernity includes new section on the work of Charles Taylor. New perspectives on the work of Immanuel Wallerstein have been added to the chapter on Neo-Marxian theories. The opening historical sketch chapters now include a discussion of colonialism as one of the forces that shaped modern society; new material on the historical significance of early women founders; and a section on theories of race.
