Tort Law ,2007 The Fourth Edition of this unique casebook has been dramatically revised. This new edition presents the important cases, statutes, empirical data, and competing tort theories in a problems-oriented format that is designed to help students acquire a sophisticated understanding of tort law through active learning. As before, the text includes a large number of problems. Now, however, the Problems, updated and considerably expanded, are organized in Sets at the end of each substantive chapter. This extensively re-written and reorganized edition includes the classic common law torts cases, but is updated throughout with teachable, cutting-edge decisions that will demand student interest and hold their attention. Particular care has been to take account of the most recent commentaries on tort law, such as the growing importance of the Restatement (Third) of Torts. Chapter One is unique among American torts casebooks in its examination of how the dominant twenty-first century tort theories influence judicial decisionmaking and scholarship. That chapter explains six key perspectives on tort law: Law and Economics; Corrective Justice; Critical Race Theory; Critical Feminism; Pragmatism; and Social Justice Chapter One references the famous McDonald's hot coffee litigation as a case study to illustrate these perspectives in action. Subsequent chapters continue to work through that case study and continually reference the perspectives to explain or challenge the decided cases. The authors seek to provide students with innovative cases and problems, empowering them with practical skills. By exposing students to the most important contemporary tort law theories, the Fourth Edition

of this casebook encourages students to go beyond passively memorizing case holdings and the voyeuristic experience of reading appellate opinions and truly gain perspectives on tort law. This book also is available in a three-hole punched, alternative loose-leaf version printed on 8.5 x 11 inch paper with wider margins and with the same pagination as the hardbound book.

Texas Real Estate Sales Exam, 2006 To become a licensed real estate agent in Texas, applicants must first pass the state's real estate sales exam. This book contains all the information needed to prepare for and pass the test, including four full-length practice exams — updated to current standards — with fully explained answers. There are also study and test-taking tips and a CDROM containing practice tests and hundreds of additional questions, answers, and explanations. To help readers on and beyond the test, the book has a real estate refresher course reflecting all recent changes to state laws and policies and a glossary of real estate terms.

*Secured Transactions* Lynn M. LoPucki, Elizabeth Warren, Robert M. Lawless, 2019-10-31 The premier authority on secured transactions, Secured Transactions: A Systems Approach is known for its cutting-edge coverage, dynamic pedagogy, and ease of use for instructors. The Systems Approach gives students the big picture. Straightforward explanations and cases prepare the students to solve real-life problems in the context of actual transactions. A modular structure allows for tremendous flexibility in course design. The materials are divided into bite-sized assignments, making it easier for instructors to make and adjust assignments for class. This problem-based casebook supports the teaching of Article 9 alone or expansion of the course to include Article 9 in the full context of bankruptcy, mortgages, judicial liens, and statutory liens. New to the 9th Edition: Updated throughout, while retaining the same structure. Highly adaptable modular text broken into assignments. Main sections can be taught in any order. New cases throughout (including the Second Circuit's landmark decision in *In re Motors Liquidation*). Problem-based approach with ethics integrated. Problems progress from easy to difficult. Professors and students will benefit from: Comprehensive Teacher's Manual with suggestions for teaching coverage, changes from the prior edition, lists of key concepts for each assignment, and the answers to every question asked in the book. The main sections can be taught in any order. Bite-sized assignments organized for 50-minute or 75-minute classes. Can support ABA-qualified experiential courses. Casebook authors who are happy to engage with adopters and include them as characters in the book. Coverage of non-Article 9 aspects of secured transactions that students will need as lawyers. Default problem sets for ease of assignment; extra problems for variety from year to year. Engaging problems with interesting characters and real-world issues, providing all of the information necessary to solve the problems. A real-life approach that prepares students for the practice of law. Clear explanations of every subject — no hiding of the ball. Basic financial literacy information included throughout the book. Focus on how lien systems actually work in practice.
