The Sack of Rome Alexander Stille,2007-07-31 Award-winning author Alexander Stille has been called one of the best English-language writers on Italy by the New York Times Book Review, and in *The Sack of Rome* he sets out to answer the question: What happens when vast wealth, a virtual media monopoly, and acute shamelessness combine in one man? Many are the crimes of Silvio Berlusconi, Stille argues, and, with deft analysis, he weaves them into a single mesmerizing chronicle—an epic saga of rank criminality, cronyism, and self-dealing at the highest levels of power.

Tunnels and Underground Cities: Engineering and Innovation Meet Archaeology, Architecture and Art Daniele Peila,Giulia Viggiani,Tarcisio Celestino,2020-05-18 Tunnels and Underground Cities: Engineering and Innovation meet Archaeology, Architecture and Art. Volume 11: Urban Tunnels - Part 1 contains the contributions presented in the eponymous Technical Session during the World Tunnel Congress 2019 (Naples, Italy, 3-9 May 2019). The use of underground space is continuing to grow, due to global urbanization, public demand for efficient transportation, and energy saving, production and distribution. The growing need for space at ground level, along with its continuous value increase and the challenges of energy saving and achieving sustainable development objectives, demand greater and better use of the underground space to ensure that it supports sustainable, resilient and more liveable cities. The contributions cover a wide range of topics, from geomechanical behavior evaluation, evaluation of long-term tunnel behaviour, via monitoring excavation-related ground deformation to risk management for tunneling-induced deformations. The book is a valuable reference text for tunnelling specialists, owners, engineers, archaeologists, architects, artists and others involved in underground planning, design and building around the world, and for academics who are interested in underground constructions and geotechnics.

The Evolution of the Global Terrorist Threat Bruce Hoffman,Fernando Reinares,2014-10-28 Examining each major terrorist act and campaign of the decade following September 11, 2001, internationally recognized scholars launch original studies of the involvement of global terrorist leaders and organizations in these incidents and the planning, organization, execution, recruitment, and training that went into them. Their work relays the changing character of al-Qaeda and its affiliates since the invasion of Afghanistan and Iraq and the sophisticated elements that, despite the West's best counterterrorism efforts, continue to exert substantial and sustained control over terrorist operations. Through case studies of terrorist acts occurring both within and outside the West, the volume's contributors investigate al-Qaeda as it adapts to the strategies of Operation Enduring Freedom and subsequent U.S.-led global counterterrorism campaigns. They explore whether Osama bin Laden was indeed reduced to a mere figurehead before his death or whether he successfully exercised global command over al-Qaeda's activities. Did al-Qaeda become a loose collection of individuals and ideas following its expulsion from Afghanistan, or was it reborn as a transnational organization powered by a well-articulated ideology? What is the preeminent terrorist threat we face today, and what will it look like in the future? This anthology pinpoints the important patterns and strategies that will best inform counterterrorism in a new century.

Clocking Out Karen Pinkus,2020-03-17 An original reflection on Italy’s postwar boom considers potentials for resistance in today’s neoliberal (dis)order What can 1960s Italian cinema teach us about how to live and work today? Clocking Out challenges readers to think about labor, cinema, and machines as they are intertwined in complex ways in Italian cinema of the early ’60s. Drawing on critical theory and archival research, this book asks what kinds of fractures we might exploit for living otherwise, for resisting traditional narratives, and for anticapitalism. Italy in the 1960s was a place where the mass-producing factory was the primary mode of understanding what it meant to work, but it was also a time when things might have gone another way. This thinking and living differently appears in the cracks, lapses, or moments of film. Clocking Out is organized into scenes from an obscure 1962 Italian comedy (Renzo e Luciana, from Boccaccio 70). Reconsidering the origins of paradigms such as clocking in and out, “society is a factory,” and the gendered division of labor, Karen Pinkus challenges readers to think through cinema, enabling us to see gaps and breakdowns in the postwar order. She focuses on the Olivetti typewriter company and a little-known film from an Italian anthology movie, thinking with cinema about the power of the Autonomia movement, the refusal to work, and the questions of wages, paternalism, and sexual difference. Alternating microscopic attention to details and zooming outward, Pinkus examines rituals of production, automation, repetition, and fractures in a narrative of labor that begins in the 1960s and extends to the present—the age of the precariat, right-wing resentment, and nostalgia for an order that was probably never was.
