The Comparative Syntax of Korean and Japanese Yutaka Sato, Sungdai Cho, 2023-12-21 This book provides a detailed survey of Korean and Japanese syntax from a comparative perspective, based within a generative framework. Yukata Sato and Sungdai Cho demonstrate that while the two languages exhibit remarkably similar morphosyntactic features, they behave differently in specific types of construction, with the main differences observed in genitive marking, sentence negation, Negative Polarity Items, the formation of causatives, and passivization. The book also explores pragmatic and sociolinguistic issues in the two languages, and shows that they differ in the perception and realization of 'givenness' as a topic marker and in the influence of relationships of power and distance on the use of honorifics. The authors further offer additional context by exploring the typological relationship between Japanese and Korean and the surrounding languages such as Ainu, and the Chinese and Altaic languages, as well as providing socio-cultural and historical background.

Sociolinguistics of the Korean Wave Nora Samosir, Lionel Wee, 2023-12-22 Samosir and Wee examine how the immensely popular Korean Wave (K-wave) also known as Hallyu is wielded as soft power through the use of communication for persuasion and attraction on the global stage. The Korean Wave refers to the global spread and popularity of South Korean culture, particularly its pop music (K-pop), serialised dramas (K-dramas) and films (K-films). Given the South Korean government’s involvement in providing funding and publicity, the Korean Wave raises interesting sociolinguistic questions about the relationship between artistry and citizenship, the use of social media in facilitating the consumption of cultural products, and, ultimately, the nature of soft power itself. Studies of soft power have tended to come from the field of international relations. This book shows that sociolinguistics actually has a number of tools in its conceptual arsenal – such as indexicality, stance taking, affect, and styling – that can shed light on the Korean Wave as a form of soft power. As the first book-length sociolinguistic analysis of the Korean Wave and soft power, this book demonstrates how K-pop, K-dramas, and K-films have been able to encourage in consumers an anthropological stance towards all things Korean. This volume will be of particular interest to students and scholars in sociolinguistics, political science, cultural studies, and Korean studies.

Heart and Seoul Jen Frederick, 2021-05-25 One woman learns that the price of belonging is often steeper than expected in this heart-wrenching yet hopeful romantic novel and first in the Seoul duology by USA Today bestselling author Jen Frederick. As a Korean adoptee, Hara Wilson doesn’t need anyone telling her she looks different from her white parents. She knows. Every time Hara looks in the mirror, she’s reminded that she doesn’t look like anyone else in her family—not her loving mother, Ellen; not her jerk of a father, Pat; and certainly not like Pat’s new wife and new “real” son. At the age of twenty-five, she thought she had come to terms with it all,

but when her father suddenly dies, an offhand comment at his funeral triggers an identity crisis that has her running off to Seoul in search of her roots. What Hara finds there has all the makings of a classic K-drama: a tall, mysterious stranger who greets her at the airport, spontaneous adventures across the city, and a mess of familial ties, along with a red string of destiny that winds its way around her, heart and soul. Hara goes to Korea looking for answers, but what she gets instead is love—a forbidden love that will either welcome Hara home...or destroy her chance of finding one.
