S. Andersen. Eckhart Tolle recognized the brilliance of this self-empowerment classic and here presents it anew as the latest volume in his imprint. In clear, crisp, invigorating language, Andersen offers a liberating message for anyone seeking to improve and understand their life. He shows how to: • free your “Secret Self” and experience self-mastery • use mental

visualization • understand the concept of “mind over matter” • fully employ your power of choice • overcome opposition with tools such as the innate sixth sense Andersen outlines a “mental magic” that makes it possible to attain goals in any field – one made evident by his own many successes in a variety of enterprises. “Here,” he promises, “you will learn the secret way in which your mind is tied to the source of all power; you will learn how you are capable of becoming anything and doing anything you can visualize.” An essential addition to any spirituality/self-help bookshelf or night table, *The Magic in Your Mind* invites you to experience your innate creative mental power that’s just waiting to be unleashed. “Open randomly to any page, start reading, and you most likely won’t want to put it down. Mind Magic Ormond McGill, 1995 Provides step-by-step instructions for tricks that apparently demonstrate the ability to read minds

Mind Reading as a Cultural Practice Laurens Schlicht, Carla Seemann, Christian Kassung, 2020-04-04 This book provides a

genealogical perspective on various forms of mind reading in different settings. We understand mind reading in a broad sense as the twentieth-century attempt to generate knowledge of what people held in their minds – with a focus on scientifically-based governmental practices. This volume considers the techniques of mind reading within a wider perspective of discussions about technological innovation within neuroscience, the juridical system, “occult” practices and discourses within the wider field of parapsychology and magical beliefs. The authors address the practice of, and discourses on, mind reading as they form part of the consolidation of modern governmental techniques. The collected contributions explore the question of how these techniques have been epistemically formed, institutionalized, practiced, discussed, and how they have been used to shape forms of subjectivities – collectively through human consciousness or individually through the criminal, deviant, or spiritual subject. The first part of this book focuses on the technologies and media of mind reading, while the second part addresses practices of mind reading as they have been used within the juridical sphere. The volume is of interest to a broad scholarly readership dealing with topics in interdisciplinary fields such as the history of science,

history of knowledge, cultural studies, and techniques of subjectivization.
