**Introduction to the Study of Video Game Music** Alyssa Aska, 2017 This text is intended to serve as an introduction to the study of video game music. It was initially conceived as a companion to an introductory video game music course that takes a multi-faceted survey approach to the material. Therefore, this text can be used in accompaniment with an academic setting. It can also be useful for anyone that is generally interested in learning about video game music, but does not have a very solid musical or technical foundation. As it was intended to accompany a course in which non-music majors could freely enrol, the text is accessible to nearly everyone, and covers the topic of video game music very generally.

Zetta journeys to her eccentric aunt's workshop outside town to search for an answer and finds a lot more than she bargained for. A mysterious egg hatches into a scaly creature with purple eyes, black wings, and poisonous breath. It can't possibly be the mythical ender dragon . . . can it? And if it is, can Zetta raise it to be the savior her village needs? The threat of the illagers is growing fast, and Zetta's accidental dragon is growing even faster. With the help of her two best friends and her daydreaming little cousin, Zetta must train the scariest (and scaliest) baby in the Overworld.
