Liquidated Karen Ho, 2009-07-13 Financial collapses—whether of the junk bond market, the Internet bubble, or the highly leveraged housing market—are often explained as the inevitable result of market cycles: What goes up must come down. In *Liquidated*, Karen Ho punctures the aura of the abstract, all-powerful market to show how financial markets, and particularly booms and busts, are constructed. Through an in-depth investigation into the everyday experiences and ideologies of Wall Street investment bankers, Ho describes how a financially dominant but highly unstable market system is understood, justified, and produced through the restructuring of corporations and the larger economy. Ho, who worked at an investment bank herself, argues that bankers' approaches to financial markets and corporate America are inseparable from the structures and strategies of their workplaces. Her ethnographic analysis of those workplaces is filled with the voices of stressed first-year associates, overworked and alienated analysts, undergraduates eager to be hired, and seasoned managing directors. Recruited from elite universities as “the best and the brightest,” investment bankers are socialized into a world of high risk and high reward. They are paid handsomely, with the understanding that they may be let go at any time. Their workplace culture and networks of privilege create the perception that job insecurity builds character, and employee liquidity results in smart, efficient business. Based on this culture of liquidity and compensation practices tied to profligate deal-making, Wall Street investment bankers reshape corporate America in their own image. Their mission is the creation of shareholder value, but Ho demonstrates that their practices and assumptions often produce crises instead. By connecting the values and actions of investment bankers to the construction of markets and the restructuring of U.S. corporations, *Liquidated* reveals the particular culture of Wall Street often obscured by triumphalist readings of capitalist globalization.

Reconciliation, Civil Society, and the Politics of Memory Birgit Schwellung, 2014-10-31 How did civil society function as a locus for reconciliation initiatives since the beginning of the 20th century? The essays in this volume challenge the conventional understanding of reconciliation as a benign state-driven process. They explore how a range of civil society actors - from Turkish intellectuals apologizing for the Armenian Genocide to religious organizations working towards the improvement of Franco-German relations - have confronted and coped with the past. These studies offer a critical perspective on local and transnational reconciliation acts by questioning the extent to which speech became an alternative to silence, remembrance to forgetting, engagement to oblivion.

Twelve Years a Slave Solomon Northup, 2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something

of a mystery, though it is thought that he struggled to cope with family life after being freed.

A Grammar of Neo-Aramaic Geoffrey Khan,2015-11-02 Being direct descendants of the Aramaic spoken by the Jews in antiquity, the still spoken Jewish Neo-Aramaic dialects of Kurdistan deserve special and vivid interest. Geoffrey Khan's A Grammar of Neo-Aramaic is a unique record of one of these dialects, now on the verge of extinction. This volume, the result of extensive fieldwork, contains a description of the dialect spoken by the Jews from the region of Arbel (Iraqi Kurdistan), together with a transcription of recorded texts and a glossary. The grammar consists of sections on phonology, morphology and syntax, preceded by an introductory chapter examining the position of this dialect in relation to the other known Neo-Aramaic dialects. The transcribed texts record folktales and accounts of customs, traditions and experiences of the Jews of Kurdistan.

Heidegger and the Jews Donatella Di Cesare,2018-08-23 Philosophers have long struggled to reconcile Martin Heidegger's involvement in Nazism with his status as one of the greatest thinkers of the twentieth century. The recent publication of his Black Notebooks has reignited fierce debate on the subject. These thousand-odd pages of jotted observations profoundly challenge our image of the quiet philosopher's exile in the Black Forest, revealing the shocking extent of his anti-Semitism for the first time. For much of the philosophical community, the Black Notebooks have been either used to discredit Heidegger or seen as a bibliographical detail irrelevant to his thought. Yet, in this new book, renowned philosopher Donatella Di Cesare argues that Heidegger's metaphysical anti-Semitism was a central part of his philosophical project. Within the context of the Nuremberg race laws, Heidegger felt compelled to define Jewishness and its relationship to his concept of Being. Di Cesare shows that Heidegger saw the Jews as the agents of a modernity that had disfigured the spirit of the West. In a deeply disturbing extrapolation, he presented the Holocaust as both a means for the purification of Being and the Jews' own self-destruction: a process of death on an industrialized scale that was the logical conclusion of the acceleration in technology they themselves had brought about. Situating Heidegger's anti-Semitism firmly within the context of his thought, this groundbreaking work will be essential reading for students and scholars of philosophy and history as well as the many readers interested in Heidegger's life, work, and legacy.

A Political History of the Editions of Marx and Engels's "German ideology Manuscripts" Terrell Carver,Daniel Blank,2014-12-17 Since the 1920s, scholars have promoted a set of manuscripts, long abandoned by Marx and Engels, to canonical status in book form as The German Ideology, and in particular its 'first chapter,' known as 'I. Feuerbach.' Part one of this revolutionary study relates in detail the political history through which these manuscripts were editorially fabricated into editions and translations, so that they could represent an important exposition of Marx's 'theory of history.' Part two presents a wholly-original view of the so-called 'Feuerbach' manuscripts in a page-by-page English-language rendition of these discontinuous fragments. By including the hitherto devalued corrections that each author made in draft, the new text invites the reader into a unique laboratory for their collaborative work. An 'Analytical Introduction' shows how Marx's and Engels's thinking developed in duologue as they altered individual words and phrases on these 'left-over' polemical pages.

The Age of Spiritual Machines Ray Kurzweil, 2000-01-01 Ray Kurzweil is the inventor of the most innovative and compelling technology of our era, an international authority on artificial intelligence, and one of our greatest living visionaries. Now he offers a framework for envisioning the twenty-first century--an age in which the marriage of human sensitivity and artificial intelligence fundamentally alters and improves the way we live. Kurzweil's prophetic blueprint for the future takes us through the advances that inexorably result in computers exceeding the memory capacity and computational ability of the human brain by the year 2020 (with human-level capabilities not far behind); in relationships with automated personalities who will be our teachers, companions, and lovers; and in information fed straight into our brains along direct neural pathways. Optimistic and challenging, thought-provoking and engaging, *The Age of Spiritual Machines* is the ultimate guide on our road into the next century.

The Sadness of Christ Saint Thomas More, 1993 This book was the last that St. Thomas More wrote in the Tower of London before he was executed for standing firm in his Catholic faith. In it, he explores the Gospel passages that depict the agony of Our Lord in the Garden of Gethsemane. He depicts Christ as a model of virtue in the face of suffering and persecution. And along the way, he includes valuable and eternally relevant reflections on prayer, courage, friendship, statesmanship, and more. Here is an excellent resource for Lent or anytime!

Speech Act Theory and Pragmatics John Searle, F. Kiefer, M. Bierwisch, 2012-12-06 In the study of language, as in any other systematic study, there is no neutral terminology. Every technical term is an expression of the assumptions and theoretical presuppositions of its users; and in this introduction, we want to clarify some of the issues that have surrounded the assumptions behind the use of the two terms speech acts and pragmatics. The notion of a speech act is fairly well understood. The theory of speech acts starts with the assumption that the minimal unit of human communication is not a sentence or other expression, but rather the performance of certain kinds of acts, such as making statements, asking questions, giving orders, describing, explaining, apologizing, thanking, congratulating, etc. Characteristically, a speaker performs one or more of these acts by uttering a sentence or sentences; but the act itself is not to be confused with a sentence or other expression uttered in its performance. Such types of acts as those exemplified above are called, following Austin, illocutionary acts, and they are standardly contrasted in the literature with certain other types of acts such as perlocutionary acts and propositional acts. Perlocutionary acts have to do with those effects which our utterances have on hearers which go beyond the hearer's understanding of the utterance. Such acts as convincing, persuading, annoying, amusing, and frightening are all cases of perlocutionary acts.

Structural-Functional Studies in English Grammar Mike Hannay, Gerard J. Steen, 2007-03-29 This collection presents a number of studies in the lexico-grammar of English which focus on the one hand on close reading of language in context and on the other hand on current functional theoretical concerns. The various contributions represent distinct functionalist models of language, including Functional Grammar and Functional Discourse Grammar, Systemic-Functional Grammar, Role and Reference Grammar, Cognitive Grammar and Construction Grammar. Taken together, however, they typify current work being conducted from the grammatical perspective within the functionalist enterprise, emphasizing on the relation between structure and usage. A fundamental goal of the

enterprise is to identify linguistic structures which are constrained by specific features of use, or which actually encode specific features of use, as many of the contributions here show.
