**The SKETCH** Olga Sorokina, 2016-11-02 Meet this very actionable and fun book that, if you would work with, will definitely change your interior design project presentation and, possibly, even your whole creative life. This book is written particularly for interior designers and interior design students who are new to freehand sketching and want to master an amazing skill for better performance on the interior design scene. Here you will find a lot of tools, tips and tricks for freehand sketching. Richly illustrated this book can serve as a source of great inspiration, and for some of you it is going to become a desk book.

**Powerful Prose** R. L. Victoria Pöhls, Mariane Utudji, 2021-10-31 What makes a reading experience »powerful«? This volume brings together literary scholars, linguists, and empirical researchers who tackle the question by investigating the effects and reader responses generated by selected extracts of literary prose. The twelve contributions theorize this widely-used, but to date insufficiently studied notion, and provide insights into the therefore still mysterious-seeming power of literary fiction. The collection explores a variety of stylistic as well as readerly and psychological features responsible for short- and long-term effects - topics of great interest to those interested or specialized in literary studies and narratology, (cognitive) stylistics, empirical literary studies and reader response theory.

**Blackbody Radiometry** Victor Sapritsky, Alexander Prokhorov, 2020-10-19 This book, the first of a two-volume set, focuses on the basic physical principles of blackbody radiometry and describes artificial sources of blackbody radiation, widely used as sources of optical radiation, whose energy characteristics can be calculated on the

base of fundamental physical laws. Following a review of radiometric quantities, radiation laws, and radiative heat transfer, it introduces the basic principles of blackbody radiators design, details of their practical implementation, and methods of measuring their defining characteristics, as well as metrological aspects of blackbody-based measurements. Chapters are dedicated to the effective emissivity concept, methods of increasing effective emissivities, their measurement and modeling using the Monte Carlo method, techniques of blackbody radiators heating, cooling, isothermalization, and measuring their temperature. An extensive and comprehensive reference source, this book is of considerable value to students, researchers, and engineers involved in any aspect of blackbody radiometry.

**Commodus** O. Hekster, 2021-11-15 The emperor Commodus (AD 180-192) has commonly been portrayed as an insane madman, whose reign marked the beginning of the end of the Roman Empire. Indeed, the main point of criticism on his father, Marcus Aurelius, is that he appointed his son as his successor. Especially Commodus' behaviour as a gladiator, and the way he represented himself with divine attributes (especially those of Hercules), are often used as evidence for the emperor's presumed madness. However, this 'political biography' will apply modern interpretations of the spectacles in the arena, and of the imperial cult, to Commodus' reign. It will focus on the dissemination and reception of imperial images, and suggest that there was a method in Commodus' madness.

**The Complete Android Guide** Kevin Purdy, 2011-04

**Anagram Solver** Bloomsbury Publishing, 2009-01-01 Anagram Solver is the essential guide to cracking all types of quiz and crossword featuring anagrams. Containing over 200,000 words and

phrases, Anagram Solver includes plural noun forms, palindromes, idioms, first names and all parts of speech. Anagrams are grouped by the number of letters they contain with the letters set out in alphabetical order so that once the letters of an anagram are arranged alphabetically, finding the solution is as easy as locating the word in a dictionary.

**Fiona Rae** Terry R. Myers, 2021-09 ELEMENTE DER ENERGIE UND KOMPLEXITÄT Fiona Rae (geb. 1963 in Hongkong, lebt und arbeitet in London) wurde mit ihrer abstrakten Malerei einem breiten Publikum mit der Teilnahme an der legendären Ausstellung Freeze 1988 in den Londoner Docklands bekannt. Sie war damit eine der frühen Vertreterinnen der Young British Artists, die nicht nur die britische Kunstwelt verändern sollten. Ausgehend von einer konzeptuellen Auseinandersetzung mit den Fragestellungen und Möglichkeiten der abstrakten Malerei sind Raes unverkennbare Arbeiten bis heute herausragend und wegweisend. 2011 wurde sie als eine der ersten Frauen als Professorin für Malerei an die Royal Academy berufen. Der Katalog zeigt erstmals die wichtigsten Bilder

aus dieser Zeit, die Row Paintings. Sie markieren den Beginn des international beachteten Werks der Künstlerin. Terry R. Myers würdigt in seinem Essay die Bedeutung der Row Paintings in historischem Zusammenhang sowie im aktuellen Diskurs der Malerei.

*Sketching for Architecture + Interior Design* Stephanie

Travis, 2015-07-20 The debate surrounding hand drawing versus computer-generated imagery has become a hot topic. Having grown up with computers, today's interior design and architecture students are extremely adept at creating computer imagery, but often lack confidence in their freehand sketching skills, or do not know how to sketch at all. Sketching, and the careful observation that it entails, is essential for the successful development of the next generation of designers. Forty-five step-by-step exercises take the student from the simple three-dimensional forms of furniture, to interiors, to complex building exteriors, and cityscapes. Technical topics covered include tools, line weights, perspective, proportion, composition, shading, serial views, and context. Exercises are illustrated with beautiful sketches specially created by the author. *Sketching for Architecture + Interior Design* is an indispensable and practical guide for students wishing to master the art of looking and sketching.

**The Earlier Egyptian Passive** Andréas Stauder, 2014 The study concerns passive voice in Earlier Egyptian (Old and Middle Egyptian combined), providing a text-based description of the relevant forms and constructions, and of their functions in discourse. It is argued that the passive is not merely a symmetrical pendant to the active, but a complex domain of its own, morphologically, semantically, and in terms of its discourse functions. This is manifest for example in the morphological types of inflectional passives, the productivity of subjectless passive constructions of various sorts, or the interaction of

the passive with stative/resultative voice. Passive voice further interacts with aspect: in the unaccomplished, the passive has fewer forms than the active, while in the accomplished a reverse situation is observed. The two inflectional passives in the accomplished-the perfective V-passive (the 'sDm(w)=f') and the T-passive of the sDm.n=f (the sDm.n.t=f)-are thus shown to contrast with one another in principled semantic, not syntactic, ways. Major changes affecting passive voice during the history of Earlier Egyptian are discussed: the loss of the prospective V-passive, the spread of T-passives over the perfective V-passive in various environments, and the rise of an 'impersonal' subject pronoun.tw out of an inflectional passive marker. The last, a rare change and an instance of de-grammaticalization, is analyzed in details in terms of the processes involved and of the particular intra-linguistic situation that made it possible. Broadening the perspective, relevant elements of the Semitic background are evoked.

### **Heidegger and the Jews** Donatella Di Cesare, 2018-08-23

Philosophers have long struggled to reconcile Martin Heidegger's involvement in Nazism with his status as one of the greatest thinkers of the twentieth century. The recent publication of his *Black Notebooks* has reignited fierce debate on the subject. These thousand-odd pages of jotted observations profoundly challenge our image of the quiet philosopher's exile in the Black Forest, revealing the shocking extent of his anti-Semitism for the first time. For much of the philosophical community, the *Black Notebooks* have been either used to discredit Heidegger or seen as a bibliographical detail irrelevant to his thought. Yet, in this new book, renowned philosopher Donatella Di Cesare argues that Heidegger's metaphysical anti-Semitism was a central part of his philosophical project. Within the context of the

Nuremberg race laws, Heidegger felt compelled to define Jewishness and its relationship to his concept of Being. Di Cesare shows that Heidegger saw the Jews as the agents of a modernity that had disfigured the spirit of the West. In a deeply disturbing extrapolation, he presented the Holocaust as both a means for the purification of Being and the Jews' own self-destruction: a process of death on an industrialized scale that was the logical conclusion of the acceleration in technology they themselves had brought about. Situating Heidegger's anti-Semitism firmly within the context of his thought, this groundbreaking work will be essential reading for students and scholars of philosophy and history as well as the many readers interested in Heidegger's life, work, and legacy.

**The Dynamics of Persuasion** Richard M. Perloff, 2016-12-19 The Dynamics of Persuasion has been a staple resource for teaching persuasion for nearly two decades. Author Richard M. Perloff speaks to students in a style that is engaging and informational, explaining key theories and research as well as providing timely and relevant examples. The companion website includes materials for both students and instructors and expanding the pedagogical utilities. The sixth edition includes: updated theoretical and applied research in a variety of areas, including framing, inoculation, and self-affirmation; new studies of health campaigns; expanded coverage of social media marketing; enhanced discussion of the Elaboration Likelihood Model in light of continued research and new applications to everyday persuasion. The fundamentals of the book – emphasis on theory, clear-cut explanation of findings, in-depth discussion of persuasion processes and effects, and easy-to-follow real-world applications – continue in the sixth edition.

**Instrumentum Laboris** 3rd Extraordinary General Assembly, 2014-06-26 Instrumentum Laboris is the (working document) for the 3rd Extraordinary General Assembly of the Synod of Bishops (to be held October 5-19) which focuses on “pastoral challenges to the family in the context of evangelization”. The Instrumentum Laboris consists of three parts. The first part focuses on the biblical and magisterial understanding of marriage, and features a heavy focus on the “natural law.” It also reflects on the role of the family today, the “fundamental cell of society, where we learn to live with others despite our differences and to belong to one another.” The second part concerns many pressing challenges to marriage and the family. These include cohabitation, remarried divorcees, teen motherhood, mixed-religion marriages, and same-sex unions. The final part deals with openness to life and parental responsibility. It explores how to transmit the faith to younger generations and how to form children in difficult or irregular family situations. This document will set the tone for October's anticipated Synod on the Family, and it deals with some of the most important issues today.

The Hypothetical Species Michael Charles Tobias, Jane Gray Morrison, 2019-03-28 This book is a provocative and invigorating real-time exploration of the future of human evolution by two of the world's leading interdisciplinary ecologists – Michael Charles Tobias and Jane Gray Morrison. Steeped in a rich multitude of the sciences

and humanities, the book enshrines an elegant narrative that is highly empathetic, personal, scientifically wide-ranging and original. It focuses on the geo-positioning of the human Self and its corresponding species. The book's overarching viewpoints and poignant through-story examine and powerfully challenge concepts associated historically with assertions of human superiority over all other life forms. Ultimately, *The Hypothetical Species: Variables of Human Evolution* is a deeply considered treatise on the ecological and psychological state of humanity and her options – both within, and outside the rubrics of evolutionary research – for survival. This important work is beautifully presented with nearly 200 diverse illustrations, and is introduced with a foreword by famed paleobiologist, Dr. Melanie DeVore.

**The Laughing Jesus** Timothy Freke, Peter Gandy, 2005-07-12  
Timothy Freke and Peter Gandy, authors of *The Jesus Mysteries* and *Jesus and the Lost Goddess*, return with a powerful indictment of Jewish, Christian, and Islamic fundamentalism and a passionate reinterpretation of Gnostic spirituality. According to Freke and Gandy, religiously inspired acts of violence, such as the attacks on 9/11, are nothing new. They are the continuation of a long and bloody history of brutality caused by mistaking bizarre old books for the Word of God. The time has come to end religious intolerance and wake up to oneness by rediscovering the Gnostic way of transforming oneself and the world. Freke and Gandy's *Incendiary New Book Is a Wake-Up Call to the World* What if the Old Testament is a work of fiction, Jesus never existed, and Muhammad was a mobster? What if the Bible and the Qur'an are works of political propaganda created by Taliban-like fundamentalists to justify the sort of religious violence we are witnessing in the world today? What if there is a big idea that

could free us from the us-versus-them world created by religion and make it possible for us to truly love our neighbors—and even our enemies? What if it is possible to awaken to a profound state of oneness and love, which the Gnostic Christians symbolized by the enigmatic figure of the laughing Jesus? Discover for Yourself Why the Gnostic Jesus Laughs

*The Dynamics of Persuasion* Richard M. Perloff, 2010 The Dynamics of Persuasion provides a comprehensive and up-to-date introduction to persuasive communication and attitude change. Offering a thorough discussion of classic and contemporary theories of persuasion, this text explores the structure and functions of attitudes, consistency between attitude and behavior, and issues in attitude measurement. Examining persuasion through media, interpersonal, and psychological lenses, author Richard M. Perloff systematically investigates the impact of persuasive communication on attitudes toward a variety of topics, including health, politics, and racial prejudice. In addition to presenting persuasion theory and research, he provides numerous examples of persuasion in action, demonstrating the role of persuasion research in everyday life. Written in a highly accessible and clear style, *The Dynamics of Persuasion* serves to: introduce the social science perspective on persuasion enhance understanding of persuasion theories and research highlight the major issues discussed in the field of persuasion research explore the complexities and subtleties in the dynamics of everyday persuasion raise awareness about the ethics of contemporary persuasion. New to this edition are: 2008 election examples interspersed throughout the text focused discussions on compliance-gaining and negative advertising examples of strong attitude, such as the pros and cons of using animals in research. Complimented by a Companion Website

([www.routledge.com/textbooks/dynamicsofpersuasion4e](http://www.routledge.com/textbooks/dynamicsofpersuasion4e)) with resources for students and instructors, *The Dynamics of Persuasion* is an engaging text appropriate for advanced courses on persuasion in communication, psychology, marketing, and sociology. In its exploration of the dynamics of persuasive communication, it illuminates the powerful effects persuasion has in contemporary society and enhances understanding of this ubiquitous communicative strategy.

**Twelve Years a Slave** Solomon Northup, 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery

momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.
