Goodbye, Things: The New Japanese Minimalism Fumio Sasaki,2017-04-11 The best-selling phenomenon from Japan that shows us a minimalist life is a happy life. Fumio Sasaki is not an enlightened minimalism expert or organizing guru like Marie Kondo—he's just a regular guy who was stressed out and constantly comparing himself to others, until one day he decided to change his life by saying goodbye to everything he didn't absolutely need. The effects were remarkable: Sasaki gained true freedom, new focus, and a real sense of gratitude for everything around him. In *Goodbye, Things* Sasaki modestly shares his personal minimalist experience, offering specific tips on the minimizing process and revealing how the new minimalist movement can not only transform your space but truly enrich your life. The benefits of a minimalist life can be realized by anyone, and Sasaki's humble vision of true happiness will open your eyes to minimalism's potential.

The Simple Guide To Minimalist Leo Babauta,2019-06-02 The first thing to note is that this isn't a step by-step guide that you should follow from beginning to end. It's a series of guides on different areas that can help you explore a life of minimalism. There is no one single path -- yours will be different than mine, and I can't prescribe exact steps you should take. I share my experiences and what I've learned in hopes that it'll help you. Second note is some will notice that not everything in this book is new material. Some is new, but much is gathered from various writings I've made on these topics around the web. I highly doubt that anyone reading this ebook has read all the articles previously published -- they've been widely scattered, and over a long period of time. Even still, I've updated and expanded on previous writings, and I've added some new content. I've put it all together in hopes that it'll save you some time searching for good articles on these topics. Use this as a reference guide that you refer back to, because on your journey you'll find new things on each reading, as you go through this process. I hope it'll be a useful guide on this journey.

Border Ecology Ila Nicole Sheren,2023-03-10 This book analyzes how contemporary visual art can

visualize environmental crisis. It draws on Karen Barad's method of "agential realism," which understands disparate factors as working together and "entangled." Through an analysis of digital eco art, the book shows how the entwining of new materialist and decolonized approaches accounts for the nonhuman factors shaping ecological crises while understanding that a purely object-driven approach misses the histories of human inequality and subjugation encoded in the environment. The resulting synthesis is what the author terms a border ecology, an approach to eco art from its margins, gaps, and liminal zones, deliberately evoking the idea of an ecotone. This book is suitable for scholarly audiences within art history, criticism and practice, but also across disciplines such as the environmental humanities, media studies, border studies and literary eco-criticism.

The Vicar's Secret Wallpaper: Moments, Meanderings and Meaning in Christian Ministry Malcolm Nicholas, 2016-03-03 Drawing on almost 30 years ministry in varied settings, these pastoral tales reveal the humour, emotions, deep spiritual encounters & sudden surprises, that make up the 'secret wallpaper' of a minister's life. Each story is accompanied by a theological reflection designed both to inform & to stimulate, the reader's own thoughts. It is particularly recommended for: * those seeking encouragement & inspiration in their own Christian pilgrimage * ministers & would-be ministers, of any Christian tradition * churchwardens and similar officers * any who would like to understand their clergy/ministers a little better. Called away from a white-coated scientific career, the author describes happy, sad, surreal & divine encounters in parish life, largely outside the confines of the church. It reflects on experience in hospital, housing estate, commuter belt and rural settings, and tackles current issues, including aggressive atheism, same-sex marriage, and some worrying trends in today's church.

Gold Iain McCalman, Alexander Cook, Andrew Reeves, 2001-03-12 Throughout history, gold has been the stuff of legends, fortunes, conflict and change. The discovery of gold in Australia 150 years ago precipitated enormous developments in the newly settled land. The population and economy boomed in spontaneous cities. The effects on both the environment and indigenous Aboriginal peoples have been profound and lasting. In this book, a team of prominent historians and curators have collaborated to produce an innovative cultural history of gold and its impact on the development of Australian society.

Comtoise 2nd Edition David Holmes,2016-11-21 If you've just dragged a dusty old Comtoise long case clock from the back of a dusty old French barn, or if you just want to know more of what goes on behind the dial, this book is for you. The 2nd edition of this popular book is a much expanded 94-page run down on where these clocks came from, who built them and why, and practical help in restoring cases and rebuilding movements. Above all it's about the heart and soul of these light-hearted, friendly and functional works of art. It includes a list of parts of the movement, glossary and a list of Makers, Movers and Shakers. You will find useful facts, figures and photographs relating to the different styles of cases, their construction and the (sometimes quite personal) messages scrawled therein. Also detailed and illustrated are pendulum styles throughout the period and 4 pages on the different designs of brass frontons. As well as a section on the Vineyard wall clock, there is a supplement covering the Swedish Mora clock and Danish Bornholm clock.

Encounters Faith – A Synthesis is a Festschrift crafted to honor a renaissance man: a literary tribute to Dr. Jay Harold Ellens that has been long overdue. While attending the 2014 International Meeting of the Society of Biblical Literature at the University of Vienna (July 6–10), Professor Ellens celebrated his eighty-second birthday. He is still a most engaged and active scholar, practicing clinical psychologist, and military chaplain (with the rank of Colonel). He publishes widely in Second Temple Judaism, and works that are on the cusp between religious studies/history of religions and psychology, as well as spirituality. He is a marvel to behold and is an excellent, indefatigable Vorbild for both professional colleagues, as well as an ever-growing number of aspiring scholars he mentors. He is the model of the modern peripatetic scholar. The Festschrift acknowledges the major foci of Professor Doctor Ellens' own work: Psychology, Religious Literature, and Military History. Moreover, there are included in this volume several personal reflections by some of his friends and colleagues, also. The essays/chapters contained herein are works of deep and broad scholarship. Yet, they are deeply personal tributes to a master pedagogue who has touched many lives in many walks of life. All, however, reflect Professor Ellens' influence on the contributors as if one is looking at them through their writings and seeing him. The reader will find this a most informative volume, and will return to it often as an up-to-date reference work on trends in religious studies, psychology, psychology of religion(s), and even the archaeology of the Second Jewish Temple period. One will discover between these covers a rare and valuable reference work that honors a rare, prolific, and generous man.
