Mathematics, Logic, and their Philosophies Mojtaba Mojtahedi, Shahid Rahman, Mohammad Saleh Zarepour, 2021-02-09 This volume is a collection of essays in honour of Professor Mohammad Ardeshir. It examines topics which, in one way or another, are connected to the various aspects of his multidisciplinary research interests. Based on this criterion, the book is divided into three general categories. The first category includes papers on non-classical logics, including intuitionistic logic, constructive logic, basic logic, and substructural logic. The second category is made up of papers discussing issues in the contemporary philosophy of mathematics and logic. The third category contains papers on Avicenna's logic and philosophy. Mohammad Ardeshir is a full professor of mathematical logic at the Department of Mathematical Sciences, Sharif University of Technology, Tehran, Iran, where he has taught generations of students for around a quarter century. Mohammad Ardeshir is known in the first place for his prominent works in basic logic and constructive mathematics. His areas of interest are however much broader and include topics in intuitionistic philosophy of mathematics and Arabic philosophy of logic and mathematics. In addition to numerous research articles in leading international journals, Ardeshir is the author of a highly praised Persian textbook in mathematical logic. Partly through his writings and translations, the school of mathematical intuitionism was introduced to the Iranian academic community.

The Missed Call of My Life Raj Sinha, 2015-03-04 What happens when you badly crave for something, but that thing keeps dodging you despite your tireless efforts? The same was happening in Shivs life. He failed thrice in his CA exams, whether it was looking for a job at a call centre, his friendship with Radhika and Prashant, or the love of his life Tamanna. He had to face it all: overconfidence, rejection, fear, jealousy and reality. Would he ever overcome the hurdles? Could his dream ever become a reality? And what happens when life suddenly takes a wrong turn in the middle of his dream? Based on some real-life experiences, comes an engaging story about a youth who resembles many of us.

As We Go Through Changes Augustine Daniel, 2016-02-05 This book is about life in general, my observation about the changes that we as people are going through. Changes that are happening on a continuous basis. Changes that many are not aware of and not conscious of, and many who are aware and conscious will simply ignore because we are too busy trying to catch up with some things that keep on moving.

The iPhone Book, Third Edition (Covers iPhone 3GS, iPhone 3G, and iPod

Touch) Scott Kelby, Terry White, 2009-09-25 If you're looking for a book that focuses on just the most important, most useful, and most fun stuff about your iPhone 3G or 3GS—you've found it. There are basically two types of iPhone books out there: (1) The "tell-me-all-about-it" kind, which includes in-depth discussions on everything from wireless network protocols to advanced compression codes. (2) Then there's this book, which instead is a "show-me-how-to-do-it" book that skips all the confusing techno-jargon and just tells you, in plain, simple English, exactly how to use the iPhone features you want to use most. The iPhone Book is from Scott Kelby, the award-winning author of the smash bestseller, The iPod Book, who takes that same highly acclaimed, casual, straight-to-the-point concept and layout and brings it to learning Apple's amazing iPhone. Scott teams up once again with gadget guru and leading iPhone authority Terry White to put together a book that is an awful lot like the iPhone itself—simple to use and fun to learn. The book's layout is brilliant, with each page covering just one single topic, so finding the information you need is quick and easy, with a large full-color photo on each page so you can see exactly how it works. The first edition of this book was named Best Computer Book of 2007 and, since then, Scott and Terry added even more tips and more tricks, and made it even easier by focusing on just the most useful and most requested iPhone 3G and 3GS features, so you can start really using your iPhone today!

The Culture of Singapore English Jock O. Wong, 2014-06-12 This book provides a fresh approach to Singapore English, by focusing on its cultural connotations. The author, a native Singaporean, explores a range of aspects of this rich variety of English - including address forms, cultural categories, particles and interjections – and links particular words to particular cultural norms. By using the Natural Semantic Metalanguage (NSM) approach, which is free from technical terminology, he explains the relationship between meaning and culture with maximal clarity, and an added strength of this study lies in its use of authentic examples and pictures, which offer a fascinating glimpse of Singaporean life. Through comparisons with Anglo English, it also explores some difficulties associated with Standard English and cultural misunderstanding. Lending a unique local perspective and written with an incisiveness that makes it ideal for both academic and non-academic readers, this book will appeal to all those interested in Singapore English and its cultural values.

Keywords for India Rukmini Bhaya Nair, Peter Ronald deSouza, 2020-02-20 What terms are currently up for debate in Indian society? How have their meanings changed over time? This book highlights key words for modern India in

everyday usage as well as in scholarly contexts. Encompassing over 250 key words across a wide range of topics, including aesthetics and ceremony, gender, technology and economics, past memories and future imaginaries, these entries introduce some of the basic concepts that inform the 'cultural unconscious' of the Indian subcontinent in order to translate them into critical tools for literary, political, cultural and cognitive studies. Inspired by Raymond Williams' pioneering exploration of English culture and society through the study of keywords, *Keywords for India* brings together more than 200 leading sub-continental scholars to form a polyphonic collective. Their sustained engagement with an incredibly diverse set of words enables a fearless interrogation of the panoply, the multitude, the shape-shifter that is 'India'. Through its close investigation and unpacking of words, this book investigates the various intellectual possibilities on offer within the Indian subcontinent at the beginning of a fraught new millennium desperately in need of fresh vocabularies. In this sense, *Keywords for India* presents the world with many emancipatory memes from India.

She & I (English) PRAFULL ACHARI, 2018-05-24 There is one in every person's life. he is ready to do anything for her. But due to some incidents, he goes back to tradition due to some reasons. But she never shows up. if she loves her so much then he does not want to. That is what happened to some sisters. In fact, the sister's relationship was like a burning flame. Burning alone and the other to remove the darkness. But sometimes it is the opposite. One just burns and the other does not even know about it. That why She and I want to reach this novel by her. I love her very much. In fact, it is a one-sided love. The only one who loved one world was very big. It does not stop there. Because he knew that one time when he will meet somewhere on the way to life ...! So I am devoted to this one-sided lover and to She ...!

After Access Jonathan Donner, 2015-12-11 An expert considers the effects of a more mobile Internet on socioeconomic development and digital inclusion, examining both potentialities and constraints. Almost anyone with a \$40 mobile phone and a nearby cell tower can get online with an ease unimaginable just twenty years ago. An optimistic narrative has proclaimed the mobile phone as the device that will finally close the digital divide. Yet access and effective use are not the same thing, and the digital world does not run on mobile handsets alone. In *After Access*, Jonathan Donner examines the implications of the shift to a more mobile, more available Internet for the global South, particularly as it relates to efforts to promote socioeconomic development and broad-based inclusion in the global information society. Drawing on his own research in South Africa and India, as well as the burgeoning literature from the ICT4D (Internet and Communication Technologies for Development) and mobile communication communities, Donner introduces the "After Access Lens," a conceptual framework for understanding effective use of the Internet by those whose "digital repertoires" contain exclusively mobile devices. Donner argues that both the potentialities and constraints of the shift to a more mobile Internet are important considerations for scholars and practitioners interested in Internet use in the global South.

Policing Distracted Driving Leanne Savigar-Shaw, Helen Wells, 2023-11-18 This book draws on original research and existing theoretical perspectives and frameworks to critically examine the role of roads policing and its place

within the wider field of policing. It looks at the challenges and complexities of doing roads policing and experiencing roads policing from the perspectives of police officers and the public. It uses distracted driving, and more specifically mobile phone use, as an evidence-based case study for a common issue to examine the contribution it makes to collisions, and the challenges of policing it as a driver behaviour. It also discusses broader issues such as the role of roads policing, police legitimacy, the interpretation of law, the interpretation of risk and generating compliance with the law. It speaks to both policing scholars and practitioners, as well as policy makers and road safety organisations.

One Missed Call Yasushi Akimoto, 2007 It's an epidemic of accidental death! Multiple college students receive odd voicemails from themselves, messages from the future, and all they contain are the screams of their own deaths. A few days later, at the date and time of the message's posting, they die in mysterious accidents, and oddly enough, each have a candy in their mouths.

The Making and Meaning of Relationships in Sri Lanka Mihirini Sirisena, 2018-03-15 This book proposes that romantic relationships—filtered through various socio-cultural sieves—can lead to the development of affective kin bonds, which underlie our sense of personhood and belonging. Sirisena argues that the process resembles an attempt to make strangers into kin, and that sort of affective relating is a form of self-conscious relationality, in which the inhabitants reflect on their individual and collective needs, as well as their expectations and dreams in the future of their relationships. University students' romantic relationships, which they gloss as 'serious,' appear to be processual and non-linear, and are considered to be stabilising forces which are pitched against the inherent uncertainty in young people's lives.

Called Out But Safe Al Clark, Dan Schlossberg, 2014-05-01 If an umpire could steal the show in a Major League game, Al Clark might well have been the one to do it. Tough but fair, in his thirty years as a professional umpire he took on some of baseball's great umpire baiters, such as Earl Weaver, Billy Martin, and Dick Williams, while ejecting any number of the game's elite—once tearing a hamstring in the process. He was the first Jewish umpire in American League history, and probably the first to eject his own father from the officials' dressing room. But whatever Clark was doing—officiating at Nolan Ryan's three hundredth win, Cal Ripken's record breaker, or the "earthquake" World Series of 1989, or braving a labor dispute, an anti-Semitic tirade by a Cy Young Award winner, or a legal imbroglio—it makes for a good story. *Called Out but Safe* is Clark's outspoken and often hilarious account of his life in baseball from umpire school through the highlights to the inglorious end of his stellar career. Not just a source of baseball history and lore, Clark's book also affords a rare look at what life is like for someone who works for the Major Leagues' other team.
