Clever Word Search Puzzles for Kids Mark Danna, 2004 Word search puzzles don't get much better than this. Will Shortz, Puzzlemaster for National Public Radio Mark Danna whose earlier Word Search Puzzles for Kids was a huge success has come up with even more smart search challenges to delight brainy youngsters. What makes them so special? First, the letters in every grid form a picture, so instead of ho-hum squares, children get lively shapes. Then, the puzzles feature a few additional twists. Three of the searches don't have word lists, for example; the puzzler has to create them from a series of clues. And finally, each puzzle has a hidden message: once kids have circled all the correct phrases, the uncircled letters will spell out a silly quote, fun fact, or punch line to a punny riddle.

Infant and Toddler Experiences Fran Hast, Ann Hollyfield, 2002-07-01 What's the difference between an activity and an experience? One is meant to pass the time, the other to last a lifetime. Make the most of your interactions with young children with experiences that allow infants and toddlers to figure out how something works on their own. This book describes a process of learning that involves repeated interaction with and exploration of a caring environment, which builds trust between children and you. Each experience offers children the chance to choose their own approaches to tasks that promote their development. Focusing on the "Three Cs"—curiosity, connection, and coordination—each experience is described simply and includes a list of materials that are needed and tips to keep in mind.
